Power

**KOMPASS**

Connects business to business

**Elecon** set out on is its journey to scale new heights of technical excellence, creating landmarks at every juncture, From elevators and conveyors, to high quality gears and material handling equipments.

**Elecon** is also known for its pioneering concept, case-hardened and ground gear technology in fledged departments employing a strong, skilled work force. It has supplied hi-tech equipments to major core sectors such as Fertilizer Plants, Cement Plants, Coal & Lignite Mines, Power Plants, Textile Plastic, Steel Plants, etc in India and abroad.

## Product Showcase - Material Handling Equipment

**Crawler Mounted Trippers** : Crawler Mounted Tripper is suitable for maximum belt width 2,400 and capable of handling materials at the rate of 20,000 T.P.H. (Maximum) at Open Cast Mine.

**Wagon Tippler Marshalling Equipment** : Wagon Tippler is designed for unloading broad-gauge open rail wagons.

**Stacker & Reclaimers** : Twin Boom Stacker is suitable for handling limestones, iron ore, dolomite, coal, etc.

**Crushers** : Semi Mobile Crusher is for handling R.O.M. size coal, lignite, etc in open cast mine.

## Product Showcase - Industrial Gears

**Elecon EP-Series** : Technologically superior range of Helical and Helical Bevel gears, include Elecon Epex-Series.

**Elecon ET-Series** : Proven workhorses in parallel shaft arrangement with size range from 80-800 in multiple ratios and kw ratings.

**Worm Gears** : General Purpose usage to Double Reduction gears, Geared Motors, Cooling Tower gears & Stirrer units.

**Geared Motors** : Foot, flange, foot-cum-flange and hub type construction. Variable speed for stepless speed variation.

## Industry Applications

Palm oil

Elevator

Plastic

Steel

Chemical

Material Handling Equipment

## Industry Applications

Power

Cement

Sugar

Rubber

Marine

Wind Mill Gear
