EMBRACE THE COLD WEATHER IN OUR FANTASTIC AUTUMN/WINTER 2015 COLLECTION!

THE AUTUMN/WINTER SEASON IS APPROACHING AND WE ARE DREAMING OF A COLD AND CRISPY WINTER WITH FANTASTIC RIDES IN GLISTERING SNOW, ENJOYING EVERY MOMENT OF THE BRIGHT WINTER SUNLIGHT. WE ARE LOOKING FORWARD TO RELAXED AFTER RIDES IN FRONT OF THE FIREPLACE ENJOYING THE COMPANY OF GOOD FRIENDS.

In our **Classic Sportswear Collection** you will find a wide range of warm and functional winter jackets, offering great design combined with technical fabrics and details in order to give you a great comfort and optimal fit when riding, or just enjoying the great outdoors. This season we have mixed this sporty look with the classic patterns as seen on the Jeanne knitwear. By adding this pattern we created a great look for the classic and sporty riding woman of today, as well as keeping focus on our Scandinavian heritage.

For our **Equestrian Heritage Collection** of the season we have put extra attention to details. We are presenting an elegant collection for the sophisticated woman, equally great to wear in the stable as well as in the city. Golden details and embroideries together with faux fur, gives you a true elegant and classic look.

Our **Harmony Collection** is the most beautiful series of boots we have ever made. Using only premium selected leather and incorporating a number of elegant, well-designed details in canvas, metal and leather, each boot has its own **unique style**.

We are proud to present our **Leather Collection**. Carefully selected suppliers and the finest raw materials ensure our products are of the highest quality. All of our leather comes from the very best oak bark tanneries and the quality is second to none.

The beautiful location for this photoshoot was the **Varberg Fortress**, located next to the shores of the Kattegat on the west coast of Sweden.

We at Mountain Horse take our **environmental responsibility** seriously, in order to develop a long term maintainable social, environmental and product standard. The respect for human rights, the environment and our business relationships are all part of our responsibility. One example in this collection is the decision to use **fluorine-free** water repellent treatments for fabric surfaces.

This magazine is printed on eco-compatibility paper with eco-friendly color.

For our full collection, information about our wide range of colours, sizes and materials or to find your local retailer, please visit mountainhorse.se
