SPK Flex (Pvt) Ltd

Manufacturing of Aluminium Flexible Hoses

S.P.K. FLEX CORP

Prospective Manufacture of Flexible Ducts.

*Location – 161/83, Adikararam Thanna, Henapola road,
Makkanigoda, Pasyala, Sri Lanka,*

Executive summary

Introduction to the Industry of Flexible ducts

Flexible ducts are used for air conditioning, ventilation, Gas hood, and subway, and semi-conductor, ventilation for poisonous gas, sanitary, extracting systems, and mechanical forces ventilating systems, power house and broadcasting stations. So these products are essential in construction industry and the demand for the product is very high. But at the moment entire demand in Sri Lanka is fulfilled by the importation of flexible ducts, hence main local purchases like Abans, Crown and Access Engineers have to bear a high cost. Leading international flexible duct suppliers are China, Malaysia, South Korea and India.

So, there is a vital opportunity of initiating in the production of Flexible Ducts in Sri Lanka. Then the product can be sold at a reasonable price to local market as well as to international market. Ultimately it would favorably affect to Sri Lankan Trade Balance.

Prospective Development of the Industry

With the end of the internal conflict of the county, the construction industry is growing rapidly. Hence all kind of factories are demanding many flexible ducts for construction and modification purposes, yielding capacity of the factories. Another important aspect which has a effect for price development of the product are the improved quality aspects, like flexi corp and product modification quality to guarantee an optimal vase life and satisfied customers. The large range of color, size, and shape, allow product to be selected for each occasion and purposes.

Introduction to "S. P. K. Flex Corp"

S.P.K. FLEX CORP's Line of Flexible Ducts are Designed to meet wide range of hot & cold Air conditioning, Ventilations and fume and particle exhausting applications. Considering the above competitive advantages of the industry, two entrepreneurs have initiated to commence the production of Flexible Corp in Sri Lanka, by way of establishing a partnership business named "S. P. K. Flex Corp" in March 2012. Here

they have a big competitive advantage of experience. Both of them have more than six years experience in well established manufacturing and exporting company of flexible air ducts called "SE HAN FLEX CORPORATION" in Korea.

Strength & Opportunities

Strengths

- Six years of experience of the both of two promoters
