

Type	SMIT GAS™ and AALBORG INDUSTRIES™ inert gas systems	Recommended for installation on (tanker) ship types:						
		Gas			Crude oil	Product	Chemical	FPS
		LNG	LPG	Other				
FU	Saturated inert gas generator, low pressure 					●	●	●
BUFD	Dry inert gas generator, low pressure 	●	●	●				●
BUFD / S	Dry inert gas generator, high pressure, low CO <sub>2</sub> 		●	●			●	
TU	Topping-up saturated inert gas generator 				●	●		

MEM	Dry nitrogen ( $N_2$ ) generator (membrane)							
	Dry nitrogen ( $N_2$ ) generator (pressure swing adsorption)							
PSA	Saturated inert gas system, low pressure, flue gas type							
FIN	Combinert™ - combined inert gas generator & inert gas system (flue gas)							
FGIN	Saturated inert gas generator – Exh. gas after-burner							
DGIN
