E.Z COSTEC Co.,Ltd. seeking 4 kinds of value

Mask Pack OEM • ODM / Bio-Cellulose Sheet (Raw Material)

**Our eyes always light on the future!****E.Z COSTEC, Enterprise which will be remembered even after 10years and 100years and realizes customer value**

E.Z COSTEC Co., Ltd. is the creative enterprise well positioned on global cosmetic market by realizing customer's value than immediate profit.

E.Z COSTEC Co., Ltd. was established in 2005, its motto is "face 2 foot™ Smart-All Masks" and manufactures all kinds of mask packs from face to foot by realizing customers' value which are seeking for delicate beauty. Our items are manufactured based on creative idea and innovative patent technology. Thus these items from bio cellulose to hand&foot mask, nail mask, hair mask and chitosan melting mask, are well known in the global cosmetic market first. We would like to be your strong partner in the global cosmetic market with global standard quality and high-technology by investing R&D continuously..

New name of the 4th generation coconut jelly mask pack BIO-Celtox™

Second Skin sheet Bio-Cellulose (BIO-Celtox™)

The 4th generation mask pack which "Paraben Free" was realized BIO-Celtox™

Bio Cellulose?

Bio cellulose sheet is nature originated tissue which is fermented with coconut juice and acetobacter which is natural microorganism. BIO-Celtox™ is advanced from the former bio cellulose by realizing paraben free solution, it is the most premium sheet like second skin.

1st generation pulp mask → 2nd generation hydrogel mask

→ 3rd generation bio cellulose

→ 4th generation Bio-Celtox™ mask (Paraben & Phenoxyethanol free, New patent technology)

Korean patent registration 10-1385501 /

Antibiotic of a high molecule soluble chitosan

Cellulose pulp sheet (x 200)

Bio Celtox™ (x 22,000)

-Irregular random structure
-Fiber diameter
13,000 ~ 76,000 nm

[Bio Celtox™] (x 22,000)
-3 dimensions reticular-structure
-300~500 times finer than pulp
as its diameter 2~ 100 nm
-7~10 times strong adhesion
power than pulp

Advantages of BIO-Celtox™

- + Most of bio cellulose sheet is treated with paraben preservative so it has its own odor and can cause skin irritation
- + BIO-Celtox™ can claim "paraben free" by excluding paraben preservative and treated by our own technology of sterilization.
- + We use better support material of mask sheet than other company so bio cellulose sheet can contain more essence.
- + High quality and competitive price are realized by doing mass-cultivation and high production tech. Antibiotic power is enhanced by patent technology.

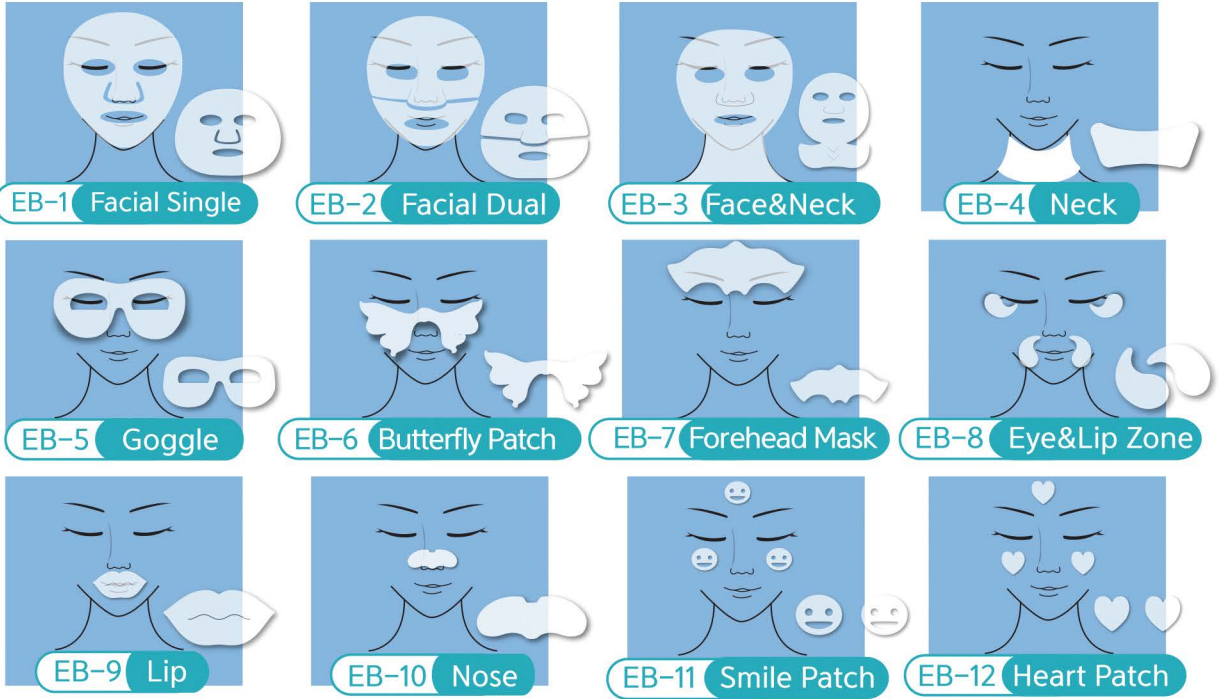

Tree of life

Coconut palm tree called mysterious tree, all materials such as fruit, bark, tree, oil and so on are used.

Type of BIO - Celtox™

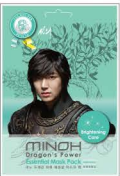

BIO-Celtox™

Our 2 Services for BIO-Celtox™

- 01 OEM•ODM final mask pack 02 Supply of bio cellulose sheet for manufacturer of mask pack production and supply

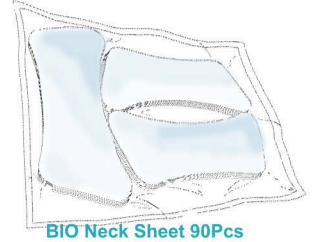

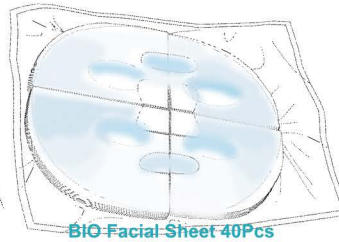

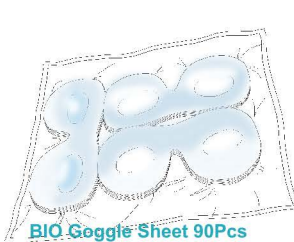

OEM

Sheet material kind Over 12 kinds of Bio cellulose patch types are available

Example of packaging Facial Single, 40 set in vacuum packing with cross-folded with condition of sterilization

Advantage Paraben free sheet, Sheet is already cut with its final appearance and packed with the folded condition so can reduce processing cost. High Quality, Low Cost

Product List
