

PORTRAIT

YOUR PARTNER FOR
TOTAL LOGISTICS SOLUTIONS

INNOVATIVE RELIABLE

WELCOME TO GILGEN LOGISTICS

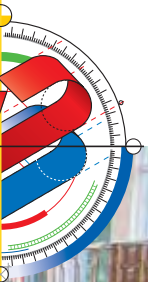

Dear Business Associates

What began over 40 years ago as a small company has now become a leading international corporate group for complete logistics solutions. The foundation stone was laid by our chairman of the board Jakob Gilgen. In the early days he specialised in door and gate drive units, but already after a few years the first conveyor systems for lightweight goods were up and running. Thanks to our many years of experience and our highly-developed technical expertise, we are currently developing turnkey systems and are primarily using proprietary hardware and software components. The satisfaction of our business partners has always been our top priority. This attitude, coupled with our technical expertise, enables us to offer products that are not only geared towards profitability and efficiency, but also meet all your requirements as a customer.

Thank you for your faith in us and we are looking forward to doing further business with you.

Chairman of the Board of Gilgen Logistics

- 1961** Founding of the individual company Jakob Gilgen, Maschinen- und Apparatebau, Schwarzenburg
- 1967** Production of the first conveyor system
- 1993** Founding of Gilgen Fördersysteme AG as a subsidiary of Gilgen Holding AG
- 1993** First-time certification by SQS in accordance with ISO 9001
- 1996** Conversion of Gilgen Fördersysteme AG into an independent company
- 1997** Founding of Service AG, Brislach and Gilgen Fördersysteme GmbH, Dortmund, Germany, opening of the branch in Brislach, Basel
- 1999** Founding of Gilgen Logistics Holding AG
- 2000** Take-over of Baertschi Engineering AG, Suhr
- 2005** Merger of the operational companies to form GILGEN LOGISTICS AG

GILGEN – THE RIGHT CHOICE FOR LOGISTICS

Gilgen Logistics is well-known for its many years of tradition. The main office is in Oberwangen near Berne, there are other branches in Switzerland and Western Europe. We have a workforce of around 160, spread over central product centres and decentralised market organisations. With over 200 operational complete systems, Gilgen Logistics is the ideal partner for the development and implementation of solutions, even for complicated logistics problems. Our customers include industrial and commercial companies as well as companies from the service sector.

PRODUCTION

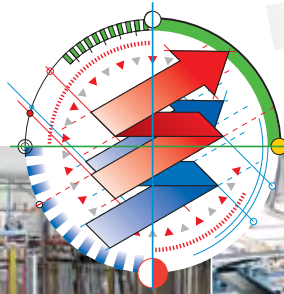

Top-quality standard components for logistics systems are developed and produced in our product centres. We have our own product ranges in the fields of conveyor systems, loading technology, storage systems and warehouse management systems.

MARKET ORGANISATION

In our market organisations, we plan, offer and implement both small-scale and large-scale in-house logistics systems using components from our product centres. This interaction enables us to offer and implement complete systems from one source. Our own local customer service organisations guarantee high availability of our logistics systems.

Gilgen Logistics is a modern and market-oriented company. In addition to focussing on quality and reliability, we also set great store by

- Experience
- Financial and technical independence
- Proximity to the market and flexibility
- Competence and determination
- Innovation and long-term thinking

TOTAL LOGISTICS COMPETENCE,

TOTAL SOLUTIONS ARE THE ORDER OF THE DAY

Over the past few years Gilgen Logistics has purposely become a competent partner for total logistics systems. From consulting/ planning through implementation to customer service, we apply our skills for the benefit of our customers.

Operational reliability and high performance are possible above all with a high percentage of competitive products from our comprehensive product range.

SOLUTIONS TRUST

PROXIMITY TO CUSTOMER

SERVICES, QUALITY, COMPETENCE, FLEXIBILITY

Experience and expertise are required to be able to offer top-class products. Gilgen Logistics has both. Whatever leaves the company is distinguished by a high standard of quality. Our mix of services is process-oriented and includes the areas of Consulting, Planning, Project Planning, Development, Design, Engineering, Software, Control Systems, Production, Assembly and Service, Maintenance and Training. Our specialist competence is confirmed with the internationally recognised quality assurance system ISO 9001/EN 29001.

SATISFIED CUSTOMERS

Every product and every service should act as a reference for our company. This calls for professionalism and competence when offering optimum and requirement-oriented solutions and services. The high degree of satisfaction of our customers and excellent references show that numerous companies both here and abroad have found in us their ideal partner.

MOTIVATED STAFF

There are people behind every product and every service. For this reason we set great store by our most important asset: Our employees. We support specific further training, encourage own initiative and corporate thinking so that as a customer you receive even more efficient service.

RELIABLE SUPPLIERS

Renowned suppliers from here and abroad have been partners of Gilgen Logistics for many years. An ongoing and mutual exchange of information with regard to new products and the growing requirements of the customer is fostered. This forms the basis for a market-oriented product range.

HIGH OBJECTIVES

We keep fit with an ongoing and quality-conscious future-facing strategy in order to be in shape at the decisive moment for the right solution for the benefit of our customers. We are prepared for competition and believe in our marketability. To convince with our products and services.
