

New Home Construction

Our experienced electricians treat every new home with diligence and care. We provide clear, thorough walkthroughs and electrical drawings, if desired. We can provide you with a detailed accurate estimate so everyone is on the same page. Our electricians arrive ready to work with a friendly attitude. Let us prove to you that we are reliable and committed to making your project run as smoothly as possible during and after the build.

Our service includes a one year warranty for your homeowners at no charge to you. We stand behind our work and the products we use.

Remodel Wiring

If you are remodeling and need an electrician in Des Moines, we can help. Our electricians can take care of all your needs with professional service, fast response time, wiring, lighting, electrical panels etc. Most remodels involve adding new circuits to improve safety and convenience.

For instance in a standard kitchen remodel, we will install new circuits, dedicated circuits for the fridge, microwave, dishwasher and disposal, along with countertop outlet circuits. Additionally we typically see recessed light fixtures, range hoods, pendant lights over island, dimmers, led under cabinets lights and much more.

Commercial Wiring

Arc Electric knows the challenges our commercial clients face with electrical installation. Both large and small projects require commercial electricians in Des Moines with the experience and knowledge to do the job right while making the needs of the business a priority.

We would be happy to evaluate your service or installation needs at grocery stores, schools, retirement homes, apartment complexes, restaurants, retail stores etc.
