NATURAL ESTER

DONGNAM Petroleum Ind. Co., Ltd. is one of the major insulating oil producers in South Korea.

Established in 1973, we have years of accumulated technical know-how, ensuring the quality and reliability of our oil.

We have developed and patent registered our own environmentally friendly Natural Ester (vegetable oil based insulating oil) "BIOTRAN-35" which is less flammable (UL Listed and FM Approved) and offers a longer lifespan.

We guarantee our quality based on our vast technical experiences, Q.A management system which provides accurate oil and chemical analysis, using the state-of-the-art analysis equipment together with our highly skilled research technicians.

DONGNAM is ISO 9001 & ISO 14001 certified company.

BIOTRAN-35

BIOTRAN-35

Natural Ester Dielectric Fluid

BIOTRAN-35 is a non-toxic, environmentally friendly insulating oil made from vegetable oil.

[Environmentally Friendly]

- Ultimately biodegradable
- Non-toxic and non-hazardous
- Oil leak does not harm the environment

[Excellent Fire Safety]

- Less flammable dielectric fluid (K-class)
- Great for places where safety is priority

[High Moisture Tolerance]

- Able to absorb a high level of moisture while maintaining BDV
- Extends the lifetime of transformers
