From nature, to you!
Nature gives us a lot of things.
Food, Healing and Rest.
It is infinite love.
CEO Greetings

We would go ahead constantly for the benefit of the nation, for the improvement of people’s health, and especially for the revival of Korean ginseng industry.

We, Korean Ginseng Research Co., Ltd., have engaged in researching and developing Korean ginseng for national healthcare foodstuff and supplied it to many consumers in overseas market.

We have manufactured and exported the various types of products as extracts, powders, powdered extracts, granules, tablets, soft & hard capsules, drinks, candy, jelly, soap, etc. as well as investing for further development of new products. Since the execution of the law of health functional food (dietary supplement) in February 2004, we obtained a license for manufacturing health functional food, sales and commodity permit from the KFDA, so that we will devote in production of higher grade of ginseng/red-ginseng products and play a leading role in modernization and globalization of Korean ginseng products.

We will try to improve our system to meet the requirement of KGMP, HACCP and keep on researching & development of new health functional food for further contribution to the people, as well as playing a role for leading the processing industry of Korea Ginseng. We will visit consumers with better quality of products while studying and developing continuously.

Thank you.

PH. D. Shin, Wang-Soo / CEO
Shin Wang Soo
The excellence of Korean Ginseng exported to more than 30 countries all over the world!
We, Korean Ginseng Research Co., Ltd. are making it.

USA, Canada, Ecuador, El Salvador, France, Italy, UK, Portugal, Austria, Switzerland, Czech, Poland, Estonia, Russia, Germany, Japan, Hong Kong, Taiwan, Vietnam, Philippine, Thailand, Myanmar, Laos, Malaysia, Singapore, Pakistan, Mongolia, Maldives, Saudi Arabia, Iran, UAE, Yemen, Egypt, Turkey, Botswana, Peru, Argentina, etc.

The most perfect medicinal herb in the world!
The mysterious medicine handed down through millennia!
Panax ginseng C.A Meyer is the original ginseng!
History

Dec. 1996  Constructed a factory in Yangpyeong, Gyeonggi Province
Mar. 1997  Obtained permission for food manufacturing & processing
Feb. 1998  Registered a membership to KITA(Korea International Trade Association)
Aug. 2000  Established Overseas branch in Malaysia
Oct. 2002  Opened Seoul office(Overseas sales department)
Aug. 2003  Appointed as a prospective SME, Gyeonggi Province
Jun. 2004  Obtained permission for manufacturing of Health functional food
Dec. 2005  Approved quality of Korean Ginseng/Red ginseng extract by USA FDA
Mar. 2006  Agreed cooperation between academy & industry, Korea Univ.
Apr. 2008  Registered to FCE/SID of USA FDA
Jun. 2008  Appointed as a prospective SME exporter by SMBA.
Mar. 2009  Selected in the project for export promotion ‘500-500’ by SMBA
Jul. 2009  Obtained certification of IIC GMP & HACCP
Mar. 2010  Selected Study project by IPET
Jul. 2010  Completed construction of Yongmun factory in Yangpyeong
Jul. 2010  Obtained ‘G-mark’, governor certificate of Gyeonggi province
Nov. 2010  Registered as GMP factory with Korean FDA
Jan. 2011  Established corporate R&D center
May 2016  Selected as Export strategy technology development project by MAFRA
Nov. 2016  Obtained Halal certificate by IFRC
Sep. 2017  Established Lingzhi mushroom Museum
Currently exporting to more than 30 countries all over the world

Awards

- Prime Minister prize(Gold medal) at ‘99 AGRO FOOD’
- ‘Traditional Food’ for the 2002 WORLD CUP
- Award from the Minister of Agriculture & Forestry
- Hit Product selection by Gyeong-In Daily.
- “Representative Traditional Food of Gyeonggi Province”
- Special Award in “Korea Outstanding Souvenir Contest”
- Export Prize from the President at the 41st Annual Trade Day

History of Korean Ginseng

Korean ginseng has been considered a valuable and mystic material for thousands of years in oriental countries including Korea, Japan and China. Since it has been proved a panacea through a long history, currently its research in the field of medical, pharmaceutical, biology, etc. have been widely activated in line with a life science worldwide. Beginning by wild ginseng, it had cultivated from the 16B.C. and recorded as a marvelous medicine in almost all Oriental medicine books from several hundred years ago. Nowadays, lots of these have been published concerning its effectiveness by scholars in and strengthen its foothold by degrees contributing to the health of mankind.

The Superiority of Korean Ginseng

The reason that Korean Ginseng is superior to other ginseng is that Korean has the optimal topographical and climatic conditions for ginseng growing. Ginseng plants in Korea are mostly grown 36° and 38° N. This gives it an optimal growing season of 1,800 days, much longer than the 1,200~1,300 days of other countries. With these natural conditions Korean Ginseng has a crunchy texture and is rich in flavor.

**Type of Korean Ginseng**

**Fresh Ginseng (Su-sam)**

It is a raw ginseng which is freshly harvested, which have a moisture level of 70 to 75 percent.

---

**White Ginseng (Baek-sam)**

It is a ginseng which is peeled and dried. It was commonly used since it can be simply made without steaming process, however, it is not commonly used as before in these days since it turns out that the epidermis of ginseng contains a lot of effective Saponin ingredient in recent.

---

**Taekuk Ginseng (Taekuk-sam)**

It is a ginseng which is not peeled and made by parboiling Fresh ginseng in boiling water at 98-100°C before drying. It used to be substituted for Red ginseng.

---

**Red Ginseng (Hong-sam)**

It is a ginseng which is not peeled and made for keeping long life. It is dried after steaming and made the moisture of it below 14%. The epidermis of ginseng contains a lot of effective ingredients and new effective ingredient(Saponin) is made during the steaming process.

---

**Black Ginseng (Heuk-sam)**

It is a ginseng which is made through the process of steaming for 9 times & drying for 9 times and called as black ginseng as its color changes during the process. It is commonly referred that Black ginseng contains much more Gisenoside Rk1, Rg5, Rb1, Rh1(S), Rg2(S), Rg2(R), Rc, Rf, Rd, Rgs(S), Rg3(R), Rk3, Rg6, Rf1, Rf4 and so on than Red ginseng.

---

**Cultured Wild Ginseng (Wood-cultivated Ginseng)**

It is a raw ginseng which is freshly harvested, which have a moisture level of 70 to 75 percent.

---

**Cultivated Tissue Wild Ginseng**

It is a cultured wild ginseng which is biotechnologically cultured from a tissue of natural wild ginseng for 50~60 days and the quality is about the same with the parent natural wild ginseng.

---

**Wild(Mountain) Ginseng (San-sam)**

It is a ginseng grows naturally in the deep mountain and is harvested from wherever it is found. It is relatively rare, and even increasingly endangered, due in large part to high demand for the product in recent years. It is highly in scarcity.
Medicinal effects of Korean red ginseng

* Immune System
The immunity increase effect of Korean ginseng, particularly red ginseng, has been proven by numerous scientists. Moreover, red ginseng’s effect of preventing avian flu has been proven domestically.

* Diabetes Mellitus
Professor J. S. Jo of Kyeongbuk National University, professor Okuda of Ehime University in Japan, reported results of clinical studies that, by the administration of red ginseng, the blood sugar level in diabetics could be lowered and the insulin dosage could reduced.

* Hypertension
Professor C. N. Joo of Yonsei University reported that Korean red ginseng not only lowered cholesterol level in the blood by promoting the activity of various enzymes related to the lipid metabolism but also prevented atheroma formation.

* Liver Protection
Professor Dr. Han of Junang University reported that Korean red ginseng reduced histological lesions including necrotic death of liver cells induced by toxic chemicals such as carbon tetrachloride and phenacetin.

* Erectile Dysfunction
At the Congress of the European Society for Sexual Medicine held in London, UK in December 2004, the team led by Brazil’s Dr. Enrico Andrade reported a study where red ginseng was found to be effective in reversing erectile dysfunction.

* Anti-fatigue and Anti-stress
Dr. Brekhman presented the concept of tonic effect of ginseng as a “phenomenon that increases general resistance”, and said that ginseng improves defense ability non-specifically by increasing resistance of the body against harmful environmental conditions. He named this ginseng effect adaptogen.

* Anti-aging
Professor C. W. Park of Seoul National University found that the nonsaponin components of Korean red ginseng suppressed the harmful effects of free oxygen radicals (O, H₂O₂, OH-, ¹O₂) which exercise an important role in tissue degeneration.

* Brain Activity
Dr. Petkov of Physiological Research Institute of Bulgaria and Professor J. S. Oh of Seoul National University found that Korean red ginseng enhances brain activity and maintains psychological stability.

It is our representative brand of Korean ginseng products, currently exporting to 26 countries in the world.

Korean Red Ginseng Powder
- **Ingredients**: Korean red ginseng powder (Ginsenoside Rb1+Rg1+Rg3: 4mg/g)
- **Units**: 50g x 3 bottles (available with 5 or 10kg in bulk)
- **Directions**: 2g (4 spoons, 1 spoon: about 0.5g) each time and 3 times daily.
  ※ Add honey or sweetener to taste.

Korean Red Ginseng Tea
- **Ingredients**: Korean red ginseng extract, Dextrose, Lactose
- **Units**: 3g x (30, 50, 100) tea bags
- **Directions**: 1 tea bag each time and 3 times daily.
  ※ Add honey or sweetener to taste.

Korean Red Ginseng Powder
- **Ingredients**: Korean red ginseng powder (Ginsenoside Rb1+Rg1+Rg3: 4mg/g, Solid contents 70% and over)
- **Units**: 30g, 50g, 240g / bottle (or available with 10kg or 20kg in bulk)
- **Directions**: 2g (4 spoons, 1 spoon: about 0.5g) each time and 3 times daily.
  ※ Add honey or sweetener to taste.

Korean Longevity Mushroom Extract
- **Ingredients**: Korean ganoderma (Yeongji, Linhzh or Lingzhi) extract
- **Units**: 30g x 5 bottles
- **Directions**: 1 or 2g each time and 3 times daily.

Korean Linhzhi Tea

- **Ingredients**: Korean ganoderma (Yeongji, Linhzhi or Lingzhi) extract, Glucose, Lactose.
- **Units**: 3g x (50, 100) tea bags
- **Directions**: 1 tea bag each time and 3 times daily. Enjoy after dissolving the granules in hot or cold water and stirring well. ※ Add honey or sweetener to taste.

Hwang Gung Han Cha
(Korean Traditional Herbal Tea)

- **Ingredients**: Ssang-hwa herb extract, Glucose, Lactose, etc.
- **Units**: 20g x 50 tea bags
- **Directions**: 1 tea bag whenever desire. Enjoy after dissolving the granules in hot or cold water and stirring well.

Honey Sliced Korean Red Ginseng

- **Ingredients**: Korean red ginseng, Fructose, etc.
- **Units**: 20g x (5, 10) bags
- **Directions**: A half bag (about 10g) each time according to your preference. (You may it as a side dish for drinking)

Korean Red Ginseng Extract Soft Capsules

- **Ingredients**: Korean red ginseng extract, Vitamin E, Ganoderma, Lecithin, etc.
- **Units**: 850mg x (60, 120) capsules
- **Directions**: 1 capsule each time and 3 times daily with water or other beverages.

Korean Ginseng Research Co., Ltd.
It is our representative brand of Korean ginseng products, currently exporting to 26 countries in the world.

### Jeckaris (Korean Red Ginseng Extract Soft Capsules)
- **Ingredients**: Korean red ginseng extract, γ-Oryzanol, Hovenia dulcis, Ganoderma, Vitamins and Minerals, etc.
- **Units**: 850mg x (30, 60) capsules
- **Directions**: 1 capsule each time and 2 times daily with water or other beverages. (Children under 15: ½ dosage of adult)

### Korean Longevity Mushroom Extract
- **Ingredients**: Korean red ginseng extract, Hovenia dulcis, Ganoderma, Vitamins and Minerals, etc.
- **Units**: 850mg x (30, 60) capsules
- **Directions**: 1 capsule each time and 2 times daily with water or other beverages. (Children under 15: ½ dosage of adult)

### Hagin (Ginseng Linhzhi Extract Capsule)
- **Ingredients**: Korean red ginseng extract, Royal jelly, β-carotene, etc.
- **Units**: 870mg x 60 capsules
- **Directions**: 1 capsule each time and 2 times daily with water or other beverages. (Children under 15: ½ dosage of adult)

### Goldlgin (Korean Ginseng Linhzhi Antler Soft Capsule)
- **Ingredients**: Korean red ginseng extract, Korean red ginseng powder, Antler extract, Royal jelly, Ganoderma, etc.
- **Units**: 900mg x 60 capsules
- **Directions**: 1 capsule each time and 2 times daily with water or other beverages. (Children under 15: ½ dosage of adult)
Linhzhimin (Korean Linhzhi & Mineral Soft Capsule)

- **Ingredients**: Korean ganoderma (Yeongji, Linhzhi or Lingzhi) extract, β-carotene, Vitamin E, B6, Ferrous fumarate, Zinc oxide, etc.
- **Units**: 800mg x 60 capsules
- **Directions**: 1 capsule each time and 2 times daily with water or other beverages. (Children administer under protector’s guidance)

Livermin (Silymarin + Vitamins)

- **Ingredients**: Milk thistle extract, Vitamin B1, B2, B3, B5, B6, etc.
- **Units**: 870mg x 60 capsules
- **Directions**: 1 capsule daily with water or other beverages.

Vitaginseng (Korean Ginseng Vitamin and Mineral)

- **Ingredients**: Korean red ginseng extract, Aloe extract, Vitamin A, B, C, D, E, B1, B2, B3, B5, Fe, Mg, C4, etc.
- **Units**: 900mg x 30 capsule
- **Directions**: 1 capsule daily with water or other beverages. (Children administer under protector’s guidance)

Korean Ginseng 870

- **Ingredients**: Korean red ginseng extract, DL-α-Tocopherol, Lecithin, Vitamin B6, etc.
- **Units**: 870mg x 30 capsule
- **Directions**: 1 capsule each time and 2 times daily with water or other beverages. (Children under 15: ½ dosage of adult)
It is our representative brand of Korean ginseng products, currently exporting to 26 countries in the world.

**Korean Ginseng Drink (with a ginseng root)**
- **Ingredients**: Korean Fresh ginseng (1 root), Vitamin B1, B2, Citric acid, etc.
- **Units**: 120ml x 12 bottles
- **Directions**: 1 bottle each time and 1~2 times daily. Keep cool and shake well before serving.

**Korean Red Ginseng Extract Dietary Supplement**
- **Ingredients**: Korean red ginseng extract, Vitamin C, Honey, Ssanghwa extract, etc.
- **Units**: 10ml x 10 vials
- **Directions**: 1 vial each time and 2~3 times daily. For your preference, enjoy after keeping it cool.

**Power Korean Red Ginseng Liquid**
- **Ingredients**: Korean red ginseng extract, Ganoderma, Jujube, Apple juice, etc.
- **Units**: 20ml x 10 vials
