KARRA

# TR

VERDI eyewear

KARRA' s TR series are made with the highest graded TR - TR90 (Swiss polyamide), and it makes the frame durable under the extremely high or low temperature, and the temperature will not affect the original shape of the frame. Some of our TR models with bendable tips are one of the most popular models as the temples can be adjusted during fitting.

KARRA

# TR FLEX

VERDI eyewear

Firm and flexible TR Flex frame made with specially developed mould. This light TR Flex frame can stay flexible for a longer time period. The nose pad hook holds the FLEX nose pad more firmly, so the nose pads will not easily get detached.

# ULTEM

VERDI eyewear

Ultem is one of the PEI materials, which is used for aerospace components because of its high elasticity, light weight and heat resistant feature. These features of Ultem bring great comfort to users when they wear Ultem frames. On top of the substantial advantage of Ultem, KARRA's Ultem frames are designed to be glossy by itself without coating, to eliminate issues with peeling. KARRA has a variety of Ultem frames with different nose and temple types in order to accommodate with individual customer's needs: ALL Ultem, Ultem with TR temples, Ultem with metal temples.
