

More makes a difference.

Combining superior quality with certified skin compatibility.

Baby Diapers

From inspiration
to innovation.

MEGA Disposables S.A. has designed a wide assortment of baby diapers, based on pioneering product design that offers not only excellent performance, but also certified skin compatibility. The baby diapers range includes elasticated diapers, pull-up pants and change mats.

State of the art technology.
Superior product quality.
Innovative product design.
Exceptional skin friendliness.

Elasticated Diapers

Our premium range baby diapers are:

- Produced with emphasis on absorbency and optimum fit.
- Certified according to Oeko-Tex® Standard 100 Class I (textile product suitable for newborn up to 3 years), free of harmful substances.

Proven safety for your baby

- Babylino Sensitive baby Diapers are **the first baby diapers in Europe** that received the international certification Oeko-Tex® Standard 100 for the absence of more than 200 harmful substances.

Oeko-Tex® Standard 100 is a unified system of laboratory testing and certification for raw materials, at intermediate and final state, for textile products from all stages of production and is recognized worldwide, certifying that the products do not contain more than 200 harmful substances.

- Awarded by the European Commission for Product Safety.
- Recommended by the Association of Midwives of Athens.
- Recommended by the Hellenic Society for Pediatric Dermatology.
- Clinically tested with excellent results after 4 weeks of testing in infants under the supervision of dermatologists and pediatricians at Dermatest Dermatology Laboratory (Germany).

BRONZE AWARD

European
Commission

Top Product Safety Award by European Commission for Babyline Sensitive

The Greek baby diapers Babyline Sensitive recently received the Product Safety Award from the European Commission. In a special award ceremony in Brussels, the Commissioner responsible for Justice, Consumers, and Gender Equality, Věra Jourová, awarded those companies which always try to offer something more in order to protect the consumers, while placing children's safety at the center of their activities.

European Commission Product Safety Award for Babyino Safety Award

Babyino's key pillars of safety

- Careful Raw Material Selection fulfilling the strictest criteria of absorbency and exceptional skin-friendliness.
- Investment in extremely advanced Quality Assurance Systems.
- Advanced automated cameras (inspection cameras), which control thoroughly every piece separately in comparison with the model and the strict standards set by the Quality Control department.
- Investments in state-of-the-art machinery.
- Strict tests in internationally acknowledged dermatological institutions.
- Thanks to the high priority of MEGA Disposables to proven Product Safety, Babyino Sensitive diapers were the first diapers in Europe to be Oeko-Tex® certified for the absence of more than 200 harmful substances.
