

Make **refreshing changes** to your kitchen
with metal tiles

With Ver-Q, you can easily transform your
kitchen into a **modern, stylish space**

Product overview : Stick and Peel Metal Tiles

Cost-effective productivity!

DSP's roll-to-roll processing and coating technique effectively expresses a luxurious texture of stainless steel thereby enhancing cost effectiveness.

Easy to use!

Simply peel the adhesive sheet on the back and stick it to the wall.

Eco-friendly materials!

Our tiles use cork, an eco-friendly material on the back, further improving product safety.

Lightweight!

Much lighter than metal sheet of the same thickness, easy to cut and install.

The combination of metal and cork makes it simple and easy for you to create a pleasant living space.

RECTANGLE : 100 x 200 mm

Installation Guide easy for everyone

1 Clean the surface

Remove the wallpaper, remove any stain from the existing tiles, and make sure that the tiles are completely dry.

2 Remove the release paper

Remove the double-sided tape-type release paper on the back of the metal tiles.

3 Stick it

Place the tiles starting from the edges and firmly press the tiles as you continue to install the tiles.

4 Cut the tiles

Use large-sized scissors to cut the tiles.

5 Remove the protective film

There is a protective film on the tiles. Please remove the film after the installation is completed.

Just peel and stick! Installation is quick and easy!
The double-sided tape on the back makes installation quick and easy

Self-adhesive Metal Tile Is a great choice if your tiles are—

Too old

You want to change tiles but the installation is too complicated, and the cost is high.

Coming off

You want to install it nice and clean but it is no easy task.

Tacky foil

It is good for kitchen hygiene but it ruins the kitchen interior.

Inflammable foam sheets

It is easy to install but is highly inflammable.

The kitchen hygiene project!
Get started now!

You **don't need to hire** a contractor for

No need to remove the existing tiles! remodeling

Certification

Antibacterial

The powerful antibacterial effects of Ver Q prevent, various types of bacteria and fungus including Staphylococcus aureus, colon bacillus, and Bacillus pyocyaneus from contaminating the tiles.

The test shows that bacteria and other germs on Ver Q were gone.

Keep your family safe from bacteria and germs.

NO 6 major heavy metals

None of the lead, cadmium, mercury, chromium 6, or environmental hormones were found.

Stains

Ver Q contains no harmful additives.

Keep your family safe from heavy metals and environmental hormones.

Certification

Black mold growth inhibited

Regular detergents cannot eliminate black mold growing on kitchen counters or walls.
Black mold is one of the key causes of respiratory diseases and atopic dermatitis.

99% of growth of black mold tested on Ver Q was inhibited.
Protect your family from health threats caused by black mold.

Manufacturer DSP that produces Self-adhesive Metal Tile Ver-Q

**DSP is a steel building materials manufacturer
