

Liptosa

...the green way of life

Who we are

LIPTOSA is a **family company** founded in 1994, committed to providing nutritional **solutions** to nutritionists, veterinarians and livestock farmers in the animal nutrition sector.

True to the philosophy "**the green way of life**", we seek the most sustainable way to obtain efficient products, under strict **European Union regulations** and taking advantage of the resources provided by nature.

Through **personal dedication** to our customers we are able to meet their needs and achieve customer satisfaction.

info@liptosa.com

A world map illustrating the distribution of the Iberian lynx. The Iberian Peninsula, specifically in Spain, is highlighted in red. Green areas indicate the historical range of the species, which includes parts of Europe, North Africa, and South America. Grey areas represent regions where the species is not present.

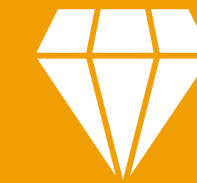

Our Vision, Mission and Values

Our vision...

is to be a **reliable supplier** of full range solutions to the common problems of animal farming, customized and flexible products that will suits best to each productive scenario, challenge and budget.

Our mission...

is to **provide natural and sustainable products**, efficient alternative to conventional drugs that will yield in the improvement of **animal health** and increment of **farmers profitability**.

Our values...

are based on strong believe in building long lasting relationships with our partners.

Customer centric, honest and transparent approach supported by technical background. We recognize the importance of the primary sector and its crucial role in production of safe and affordable food.
