It's hard to draw a complicated structure with one line. By the time the durable design is complete, there may be cancer cell in my body. But I am still healthy because this amazing design brings great happiness.

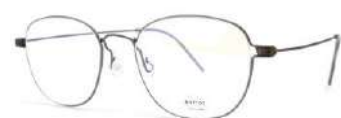

하나의 라인으로 완벽한 구조를 그린다는 것은 쉬운 일이 아닙니다. 그렇지만 우리는 내구성까지 추가하여 완벽한 라인을 디자인 하였습니다. 완성하는 과정에 많은 시행착오를 겪었지만 마침내 해피엔딩으로 끝나는 결과를 만들어 내었습니다.

CONCEPT	10,000 FOLDING TEST HINGES

MODEL	14 MODELS
SALES POINT	1. REASONABLE PRICE
	2. 10,000 FOLDING TEST WITH DURABLE ABS HINGE BALL
	3. ECO-PAXX
	4. NO NICKEL

We came up with ECO-WIRE collection as we studied eyewear with simple design and price points. But the designer's greed is not to miss the durability and the variety of colors.

ECO-WIRE 컬렉션은 심플한 디자인에 가격적인 부분을 고려하여 맞춤형으로 디자인된 결과물입니다. 물론 내구성과 컬러의 다양성은 잊지 않고 완성하게 되었습니다.

CONCEPT	DESIGNED FOR EASY ASSEMBLE LENS

MODEL	10 MODELS
SALES POINT	1. ULTRA THIN FRONT WITH 0.7mm THICKNESS 2. EASY ASSEMBLE LENS 3. NO NICKEL 4. PALLADIUM BASE

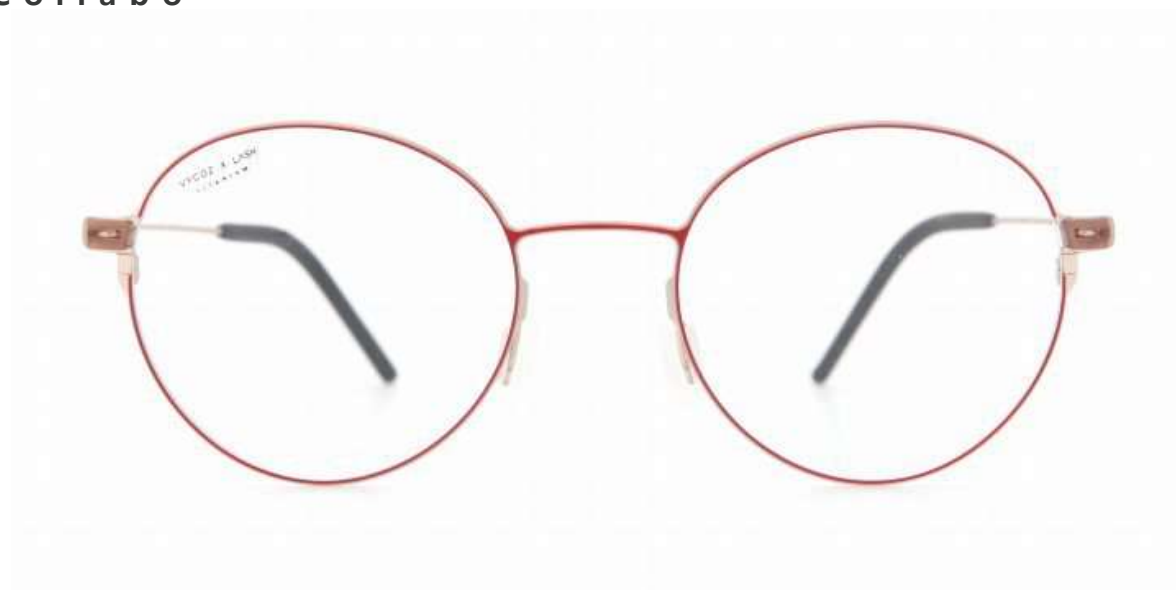

We wanted to make the design a step up from 'WIRE collection' and show off to the optician and our mania that we have no limits. 'MAX-WIRE' allowed us to go beyond the wire design limitations.

우리는 WIRE 컬렉션이 소화하기 힘든 디자인을 완성하고 싶었습니다. 조립과 핏팅의 편리함을 포함해서 마침내 우리는 끊임없이 노력하여 디자인의 한계를 넘어설 수 있다는 것을 알게 되었습니다. 그러한 컬렉션이 MAX-WIRE 시리즈입니다.

As can be seen from the word 'X' designed to show maximum durability in extream movement.
especially, no screw rimlock is the part that show the accumulated kow-how in VYCOZ SUNGLASSES.

'X'라는 단어에서 느낄수 있듯이 격렬한 움직임속에서 극대화된 내구성을 보여주도록 디자인 설계되었고,
나사가 없는 림락부분은 VYCOZ SUNGLASSES에서 축척된 KNOW-HOW가 그대로 드러난 부분이라고 할 수 있습니다.

MATERIAL	ACETATE + BETA TITANIUM
MODEL	4 MODELS
SALES POINT	1. LINE-ART CRAB HINGE 2. TOO MUCH LIGHT ACETATE with 15g 3. BETA TITANIUM 4. TITAN PLATING 5. NO NICKEL

Why should acetate always be heavy?? We have found the solution so easily by 'INCLINE-C' collection.
Of course, we never forget to make the weight balance.

“아세테이트 안경은 무겁고 불편하다”라는 고정관념을 깨는 것이 이 컬렉션 디자인의 목표입니다.

생각 끝에 우리는 아주 쉽게 INCLINE-C에서 아이디어를 얻었습니다. 물론 무게중심을 맞추는 부분 또한 잊지 않았습니다.

DURRA collection aims to complete the design by taking full advantage of sheet metal glasses. It's a new design that complements the shortcomings of designing DURRA7 and DURRA8, making it the best design among the existing sheet metal eyewear.

우리는 DURRA 컬렉션을 통하여 시트메탈소재 안경의 장점을 극대화하는 디자인을 만들어 내고 싶었습니다.

그리하여 DURRA 7과 DURRA 8을 출시하였고, 2번의 업그레이드를 통하여 현존하는 시트메탈안경 중 최고의 디자인을 완성하였습니다

바이코즈 선글라스는 패션선글라스가 아닙니다. 우리는 시력이 안좋은 사람들에게도 예쁘고 편안한 선글라스를 착용할 수 있도록 디자인적인 솔루션을 찾아왔습니다. 물론 레저 스포츠 도중에 림락이 헐거워져 비싼 렌즈가 빠지는 부분도 필수적으로 고려하였습니다. 그에 대한 답은 바이코즈 선글라스입니다.

Children around us are always wearing cheap plastic glasses of similar shape.
We want to buy nice and comfortable eyewear for our cute baby.

대부분의 아이들은 비슷한 모양의 플라스틱 안경을 쓰고 다닙니다. 그래서 우리는 편안하고
멋진 자기만의 안경을 가격 걱정 없이 선택할 수 있도록 디자인하였습니다.
바로 '바이코즈 젠틀 키즈' 입니다.
