

MANUFACTURERS OF INNOVATIVE HOUSEHOLD APPLIANCES

Made in Greece.

Roller®
Kappatos S.A.

**WE ARE
MANUFACTURERS
OF HOUSEHOLD
APPLIANCES SINCE
1971**

WE

**OUR PRESENCE
ABROAD**

Just like an engine roller, we, in Roller Kappatos, are constantly in motion. For 45 years now, we manufacture and offer our customers reliable, high quality household products in order to make their daily lives easier. For us, each and every one of our customers is important. They are the axis that sets us in motion, the reason we want to become better and better. In Roller Kappatos, everything, revolve around our customers and their needs.

We believe and invest in partnerships. Because of that, our company has developed a significant export activity worldwide, over the last 10 years. Our products are being promoted in many foreign countries via our selected partners.

THE COMPANY

IN ROLLER KAPPATOS WE BELIEVE THAT WITH PERSISTENCE AND EFFORT, WE CAN ACCOMPLISH EVERYTHING.

All started from an idea...

45+ years later, we continue with the same
passion and love, as the first day.

The only thing that has changed is the
experience gained in the process.

OUR STORY

HOW IT ALL STARTED

The Company THEOFILOS KAPPATOS S.A., known today under the distinctive title Roller Kappatos, founded in 1971 by Mr. Theofilos N. Kappatos. It all started with an idea, in a small room, where Mr. Kappatos using a mechanical press and a hammer created his first Roller (supporting base for appliances). This, very first, Roller is today known as Rollers Pair White (product code 00672) and as you can imagine, was only the beginning of a whole range of household products.

Within a year, both sales and interest for this new innovative product were increased. Thus, a larger space was created in the same area and a sole employee was hired for manufacturing this particular product code. Meanwhile, Mr. Theofilos Kappatos progressed in the design of a rectangular Roller (today known as Rollers for Cookers) and the construction of the oven where the Rollers were going to be painted (coated) originally in white, and after several years in silver (inox) and black color.

COMPANY GROWTH

The ever-increasing demand, led to new premises in 1973. New dies were created and many ideas were under discussion concerning the expansion of the product line. Gradually, new products were added and so in 1976, the production unit moved to larger premises. The Roller product line had already gained quite a reputation in the market, so the company was ready to make the next step. The first electric ovens, electric grills and baking trays were produced and the same year, the company moved again, to even larger premises where it remained until 2006.

During that period (1976 – 2006) the growth of the company continued. New products were designed and produced, while a lot of attention was given on improving the existing product line. The company started importing third party products in order to expand its range of products on the market.

The Company made the its first opening abroad and also participated in exhibitions (e.g. in Germany, in cities like Cologne and Frankfurt).

**AS MANUFACTURERS, WITH MORE THAN
45 YEARS OF EXPERIENCE, WE ARE
PROUD OF OUR HISTORY AND PRODUCTS.**

THE NEW GENERATION

In the period 2003 – 2004, the children of Mr. Kappatos – Theofilos Th. Kappatos and Niki Th. Kappatos – started working in the Company. Today, all together, actively participate in the management and growth of the company. Mr. Theofilos Th. Kappatos is President of the Company, Head of the Production Line and Export Manager. Respectively, Ms. Niki Th. Kappatos is Vice President, Head of Accounting and Import Manager. Mr. Theofilos N. Kappatos remains the main shareholder and coordinator of the Company. In 2006, the Company moved to its current facilities, located in Avlonas, Attica.

Over the last 10+ years (2006 – 2017), the Company significantly increased its exports in many countries within the European Union, such as Germany, France and Italy, while it expanded its export activity into new markets and countries worldwide. Imports were also increased, creating a wide range of products (always according to the European Standards), as well as the participations in international exhibitions. Roller Kappatos is a constant exhibitor at the Ambiente exhibition in Frankfurt, Germany.

Within Greece, the Company works with major retail chain stores, such as: Kotsovolos (Dixons Retail Group), MediaMarkt Greece, Praktiker Greece etc.

ROLLER KAPPATOS TODAY

As manufacturers, with more than 45 years of experience, we are proud of our history and products. Today's production line is the result of countless tests, studies and meticulous planning over the years and it's the proof of our passion and love for what we do.

We look towards the future with optimism, aiming to always be able to offer superior quality products to all our customers. Because, we always think like customers and because, we use the very same products ourselves, every day.

Part of our continuous effort for newer and better products, is the Connection Kit for washing machine – dryer, which adds to the already wide range of Roller product line. The innovative product has already entered dynamically, both in the Greek and foreign market place for some time now. More products are on the way. Just stay focused...

SALES NETWORK

IN ROLLER KAPPATOS WE INVEST IN GOOD COLLABORATIONS

We believe that when people work together, they always accomplish more. Over the last 10 years, we have managed to expand our partners' network and we have been able to promote our products to many foreign countries in Europe, Canada and Australia.

OUR PRESENCE IN THE GLOBAL MARKET PLACE

We are manufacturers. So, it's only natural for us to always try, to constantly challenge ourselves and always look for the best solution in any situation. This is how we keep getting better and it's the only way to be able to offer superior quality products for which we are truly proud.

Over the last 10 years, in the context of better promotion of our products, we significantly expanded our sales network, investing in good partnerships, both inside and outside the boundaries of Greece. Today, our export activity focuses on Germany, France, Italy, Sweden, Bulgaria, Cyprus, Lebanon, Canada and Australia. Been able to promote our products globally, fills us with satisfaction and optimism, and make us want to reach new markets in the future. That's why we are always open in finding new partners. Because we truly believe that when people work together, they always accomplish more...

R

OUR PRODUCTS

IN ROLLER KAPPATOS WE BELIEVE THAT A PRODUCT IS CONSIDERED SUCCESSFUL, ONLY WHEN IT SOLVES THE PROBLEM FOR WHICH IT WAS DESIGNED FOR.

LL

ROLLERS FOR ELECTRICAL APPLIANCES

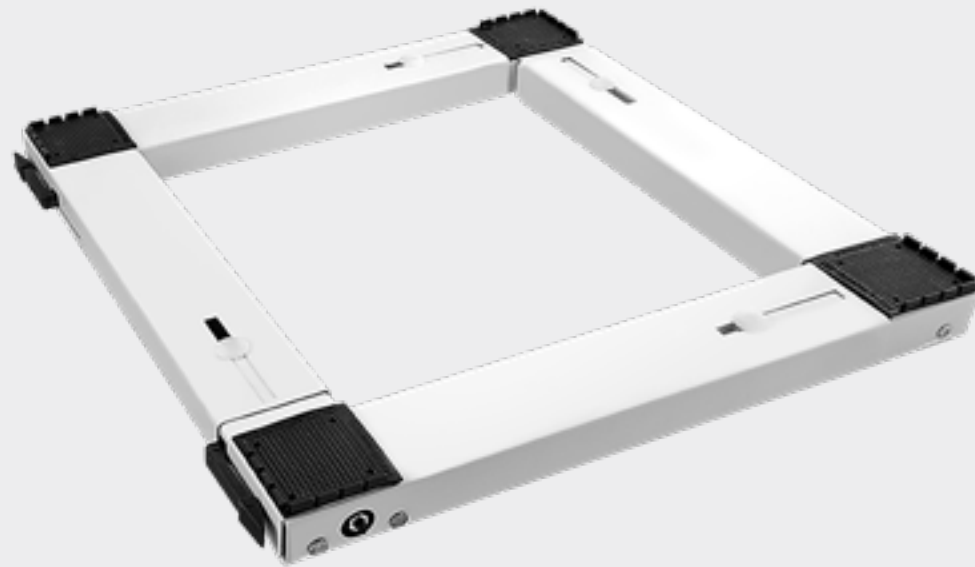

Ease. Stability. Safety.

These features made us create the Rollers for Electrical Appliances. Our signature product line consists of useful and practical products, essential for everyone who seeks an easy, reliable and safe way to move, or just stabilize, his/hers household appliance, such as the Cooker, the Fridge, the Washing Machine of the Dryer, or any other heavy or bulky appliance.

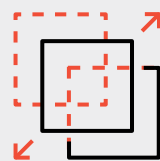

Rollers for Electrical Appliances are manufactured according to the highest European standards and are certified and patented (Patent Euro: R.C.D. No 000265723-0001).

ER

ROLLERS FOR COOKER & REFRIGERATOR

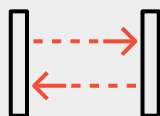

**Move your appliances
easily, without
damaging the floor**

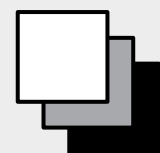

1. Slide it easily

Wheels lets you move your appliances easily, forwards and backwards without effort. Push the handles inwards to mobilize the appliance. When placed to the desired position, pull the handles outwards to “lock” the wheels and immobilize the appliance.

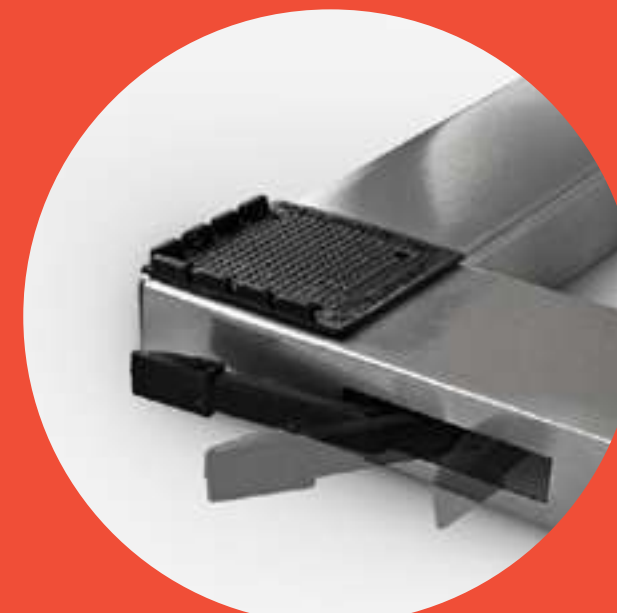

2. Maximum compatibility

Rollers are adjustable, with dimension range 50 - 70 cm in all sides, so as to be compatible with most of the appliances in the market. Furthermore, they can support appliances up to 300 kg!

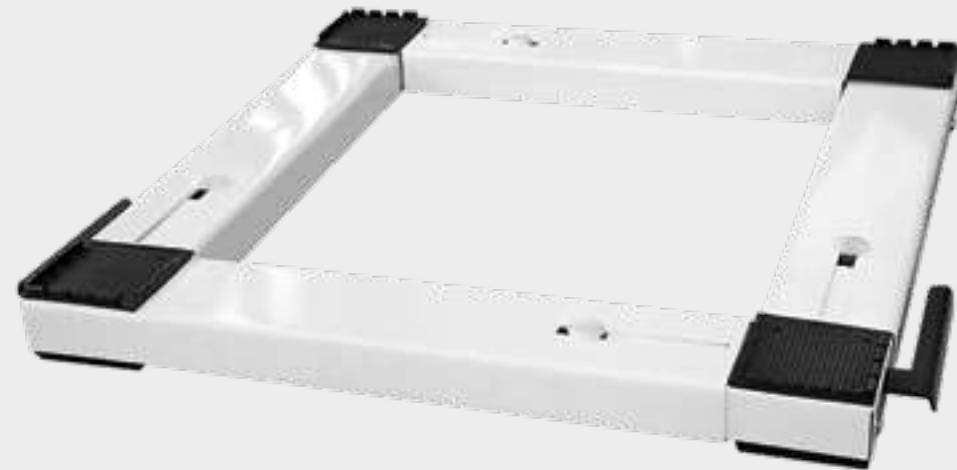

3. Available in 3 colors

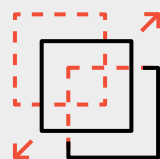

Rollers are available in 3 color variations: White, Black and Silver, to perfectly fit any space. Choose according to your taste.

ROLLERS FOR WASHING MACHINE & DRYER

**Maximum stability
and anti-vibration protection
for your washing machine and dryer.**

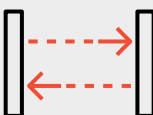

1. Slide it easily

Wheels lets you move your appliances easily, forwards and backwards without effort. Pull the handles upwards (vertically) to release the wheels and mobilize the appliance. When placed to the desired position, push the handles downwards (horizontally) to immobilize the appliance.

2. Absolute Stability

Rollers manage to stabilize your appliances effectively, thanks to the anti-vibration pads on every side. Thus, vibrations and noise are significantly reduced during the operation.

3. Maximum compatibility

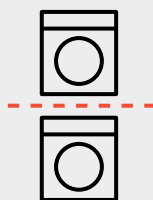

Rollers are adjustable, with dimension range 40 – 70 cm in all sides, so as to be compatible with most of the appliances in the market. Furthermore, they can support appliances up to 300 kg!

CONNECTION KIT FOR WASHING MACHINE - DRYER WITH SLIDE OUT SHELF

**Save valuable space
while keeping you appliances
stabilized and secured**

1. **Save space**

Place the dryer on top of the washing machine (form a column) and save valuable space, easily and securely. It makes a difference when the space is limited.

2. **Absolute Stability**

The Connection Kit is designed to stabilize and to securely hold your appliances in place during operation. It can easily support appliances up to 300 kg and it's compatible with washing machines and dryers with surface dimensions 60 x 60 cm (appliances with depth smaller or larger than 55 cm are also compatible).

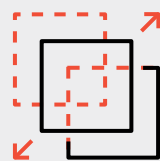

3. **Practical shelf**

The Connection Kit includes a slide out, waterproof shelf, a practical bearing and work surface in comfortable height, ideal for folding up clothes. It can support loads up to 20 kg.

2 P I E C E S C O N N E C T I O N K I T F O R W A S H I N G M A C H I N E - D R Y E R

1. **Save space**

Place the dryer on top of the washing machine (form a column) and save valuable space, easily and securely. It makes a difference when the space is limited.

2. **Absolute Stability**

The 2 pieces Connection Kit is designed to stabilize and to securely hold your appliances in place during operation. It can easily support appliances up to 300 kg and it's compatible with washing machines and dryers with surface dimensions 60 x 60 cm (appliances with depth smaller or larger than 55 cm are also compatible).

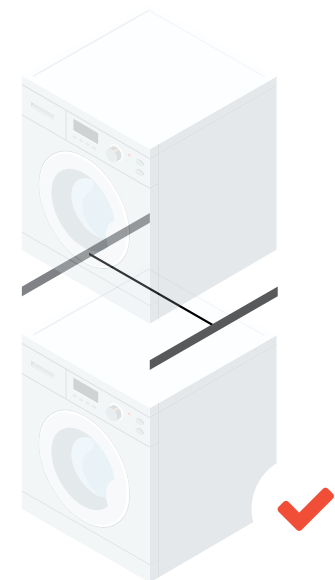

3. **Firm structure**

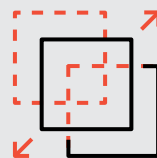

The 2 pieces Connection Kit is very robust and it consists of two metal parts (pieces), which form an "H" when assembled, and a sturdy wire with a strong retaining spring.

**Save valuable
space while keeping
your appliances
stabilized
and secured.**

3 PIECES CONNECTION KIT FOR WASHING MACHINE - DRYER

1. Save space

Place the dryer on top of the washing machine (form a column) and save valuable space, easily and securely. It makes a difference when the space is limited.

2. Absolute Stability

The 3 pieces Connection Kit is designed to stabilize and to securely hold your appliances in place during operation. It can easily support appliances up to 300 kg and it's compatible with washing machines and dryers with surface dimensions 60 x 60 cm (appliances with depth smaller or larger than 55 cm are also compatible).

3. Firm structure

The 3 pieces Connection Kit is very robust and it consists of three metal parts (pieces), which form a frame when assembled, and a sturdy wire with a strong retaining spring.

**Save valuable
space while keeping
your appliances
stabilized
and secured.**

UNIVERSAL APPLIANCE PEDESTAL

Roller Kappatos's universal appliance pedestal with height 50 cm, has been designed to make your life at home easier. Now you can upload/offload your washing machine, dryer or any other heavy duty device without bending! You can use the space underneath to store and organize your things.

Stands out because:

- It helps you to save space in your bathroom.
- It holds with stability and safety your appliances while they are operating.
- Under your device you can store and organize your things.
- It is compatible with washing machines and dryers with size 60cm X 60cm.
- It is easy to assemble and place it.

Characteristics:

- Height: 50 cm . Extra High !
- Color : White
- It is suitable for washing machines and dryers up to 60cm length and up to 60cm depth.
- Its adjustable legs provide solutions to uneven or inclined surfaces.
- Electrostatic painting is long lasting even on extreme environments and harsh use conditions.
- It comes with 2 years warranty
- It is made in Greece, Europe

Dimensions (assembled):

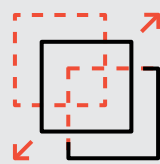

- Length: 60 cm
- Depth: 60 cm
- Height: 50 cm (shorten) / 51 cm (extended)

ROLLER PAIRS

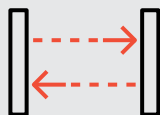

**Designed for large and bulky appliances,
even those which are longer than 70 cm!**

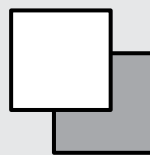

1. **Slide it easily**

Wheels lets you move your appliances easily, forwards and backwards without effort. Push the handles outwards to mobilize the appliance. When placed to the desired position, pull the handles inwards to "lock" the wheels and immobilize the appliance.

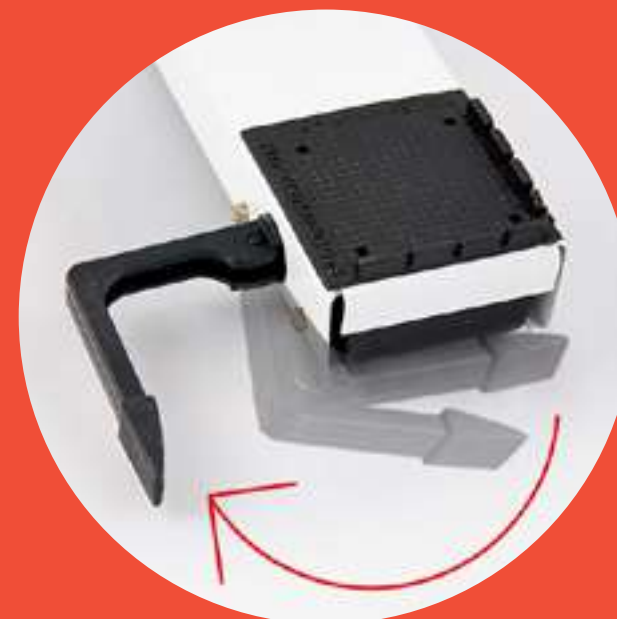

2. **Absolute flexibility**

Roller Pairs consist of two separate parts (pairs) that can be placed as far away as it is needed, one from the other. That way, even the largest appliances can be easily moved, regardless their length.

3. **A Roller for all appliances**

Roller Pairs are available in white and silver color. Choose the one that better suit your style and space and move your appliances easier than ever before! Don't forget, Rollers can support appliances up to 300 kg!

LASHING STRAP

Provides maximum stability and safety for your appliances (washing machine and dryer), **when used with one the Connection Kits.**

1. **Ease and stability**

Fit the Lashing Strap around both appliances, making sure first that the dryer is properly positioned on top of the washing machine by using one of the three available Connection Kits. Then, feed it through the clamping lock and pull tight so as to prevent the appliances from moving or falling over.

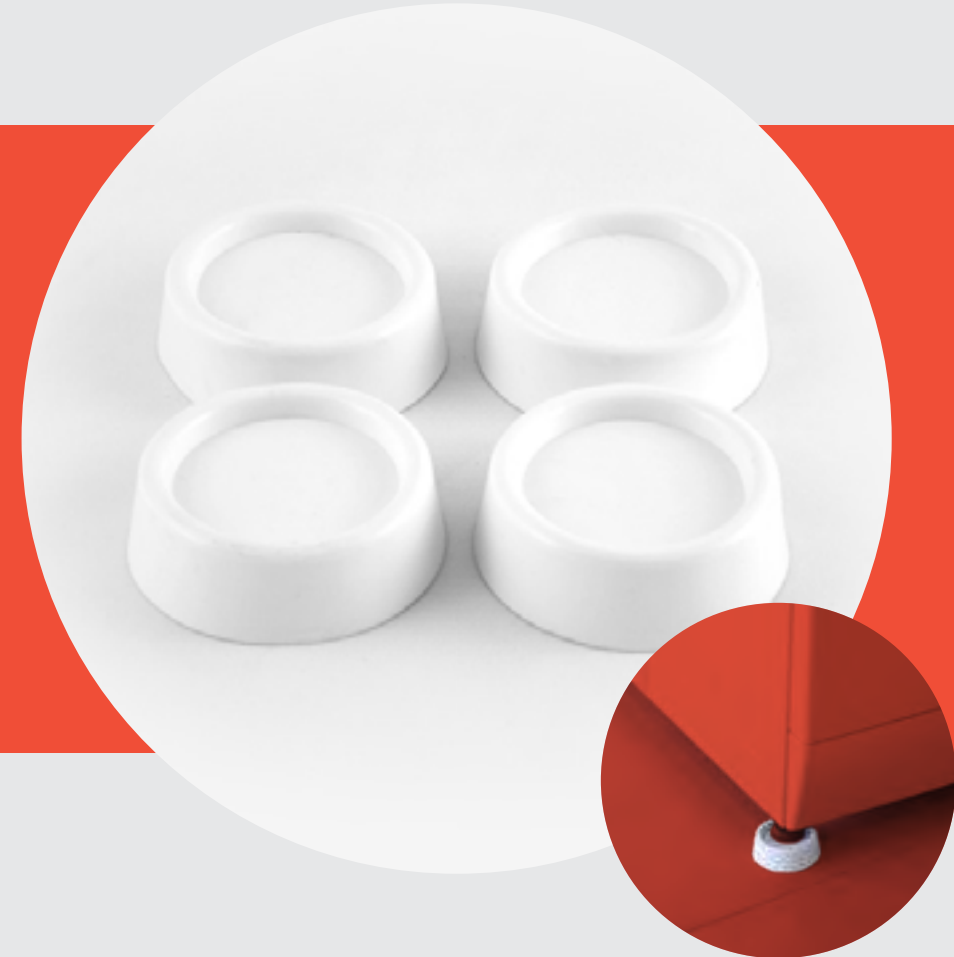

2. **Specifications**

The Lashing Strap, although optional to use, is a very useful accessory which maximizes security and safety when needed. It's 6 m long, so as to be compatible even with the bulkiest appliances and it includes a metal safety clasp for better grip.

3. **Mutiple uses**

The Lashing Strap can be used separately for any kind of job in which stability of security is a priority. The Strap is very durable and ideal for domestic or professional use.

ANTI-VIBRATION PADS

The easiest way to stabilize your washing machine or dryer.

1. **Easy installation**

Place the anti-vibration pads under each one of the four legs of the washing machine or dryer. Lift carefully every side of the device (one at a time) and adjust the legs accordingly so as to be at the same level.

2. **Absolute stability**

The anti-vibration pads are extremely flexible and can effectively adsorb vibration caused by the rotation of the drum inside the washing machine or dryer. Furthermore, they secure the appliances in place during the operation.

3. **Maximum compatibility**

Each pack consists of four (4) anti-vibration pads, which correspond to one appliance. The pads are compatible with all washing machines and dryers, regardless of the device type, brand or size.

B

SMALL ELECTRICAL APPLIANCES

B

Quality and usability. According to these characteristics we design and manufacture all Roller Electrical Appliances.

Choose between Grills with Lid, BBQ Grills and Toasters and enjoy easy, quick and healthy grilling at home, anytime! All devices have detachable parts, so as to be easily cleaned while remaining in perfect working condition for longer.

Q

ELECTRIC GRILL WITH LID

Enjoy quick and healthy grilling at home, anytime without smells or smoke!

- 1. Practical lid:** Our electric grills are ideal for quick and most of all healthy cooking, every time! Grill easily at home, meat, fish, greens or anything else you like, without worrying about smells or smoke. The practical lid manages to trap everything inside, including the heat. The result? The food is cooked in half time, and you benefit from energy saving up to 50%!
- 2. Easy to clean:** With the resistance placed on the top side of the grill (under the lid), everything is easier. The resistance never comes in contact with the food inside, and so all the fats, produced from grilling, fall into the bottom basin making cleaning an easy task. Furthermore, the resistance is detachable, so the appliance can easily be cleaned without any risk.
- 3. It's all about options:** Choose from two different shapes – rectangular and round – and three different sizes – small, large, extra large – the electric grill that better suits your needs. You may also choose material of the grilling surface – chrome and inox – and the type of the handle – plain steel, wooden coating or plastic coating. Clearly, the choice is yours!

ELECTRIC GRILL WITH LID 1050w
Grilling surface 32.5 x 24.5 cm (Model 20106)

ELECTRIC GRILL WITH LID 1200w
Grilling surface 38 x 24.5 cm (Model 20107)

- Stainless steel body
- Healthy cooking
- Fast grilling in 20 - 30 minutes
- Grill without smells , without smoke
- The heating element is at the lid and never in contact with the food
- CE certified product

ELECTRIC TOASTER

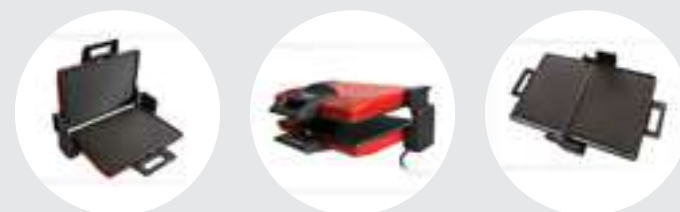

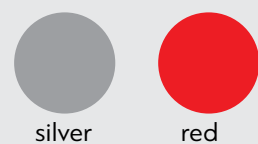

Enjoy crispy toasts and sandwiches anytime,
for everyone! How do you fancy yours today?

- 1. Toast for everyone:** With such large grilling surface, you can grill up to 6 toasts simultaneously and make everyone happy. Enjoy crisp and juicy toasts and sandwiches, anytime, the way you like it. Choose between gray and red color.
- 2. 3 ways to grill:** Our electric toaster grills easily in 3 different ways – with closed lid, with lid slightly open (locks in position) and with lid wide open (180° placement), depending on the size of the amount of snacks you have prepared. Just choose your favorite ingredients and let the toaster do the rest. Enjoy!
- 3. Easy to clean:** Keep the toaster clean for longer, simply by detaching the grilling plates. Remove them carefully after every use and clean them separately.

- Healthy cooking
- CE certified product

- 3 types of grilling

ELECTRIC BBQ GRILL STAINLESS STEEL

Enjoy BBQ at home,
even if you don't own a back yard!

- 1. Home BBQ...** the easy way! Now everyday can be BBQ day, hassle-free, with no need of fire or embers. Just plug in the BBQ grill and enjoy healthy grilled food!
- 2. Easy to clean:** Roller BBQ grill is very easy to clean due to its detachable parts. After every use, make sure the appliance has cooled off and then, carefully remove both the grilling surface and resistance. That way the appliance remains clean and fully functional for longer.
- 3. It's all about options:** Roller BBQ grills are available in inox and enamel, and two sizes – medium and large – to choose from. Regardless the choice you make, high quality, ease of use and trouble-free operation are guaranteed.

- Stainless steel body
- Healthy cooking
- CE certified product

WE INVEST IN GOOD COLLABORATIONS
