BW9

# DIGITAL WATER PURIFIER

Largest filter capacity among faucet mounted water purifier  
Passed under strict Korea national water institution test

From bacteria to carcinogen, remove 23 kinds of contaminant with only 1 filter  
4 Step of purification ability using Activated carbon block & Hollow fiber membrane which is NSF certified material

Filtered water

Drinking | Cooking healthy meal

Unfiltered water

Dish washing | Washing hands

## Feature

- Smart LCD display that only appear when use filtered water
- Large filter capacity with 900L
- Hollow fiber membrane & Activated carbon block used for great filtration
- Easy self installation & self filter replacement

## Specifications

Product name	PURIDAY Digital water purifier
Model name	BW9
Dimension	95x144x98(mm)
Weight	348g
Filter capacity	900L
Used filter material	Activated carbon block, Hollow fiber membrane
Maximum working water pressure	350Kpa
Purification ability	Free residual chlorine, Color, Turbidity, Chloroform, Trihalomethanes, 1,1,1-Trichloroethane, Trichloroethylene, Tetrachloroethylene, Benzene, Toluene, Ethylbenzene, Xylenes, Dioxin, Parathion, Fenitrothion, Carbaryl, Phenols, Mercury(Hg), Iron(Fe), Aluminium(Al), E. coli, 1,1-Dichloroethylene, 1,2-Dibromo-3-chloropropane, Trichloroacetonitrile

Proven purification ability & safety  
by using NSF certified material

LCD display for remaining filter  
capacity

HC500

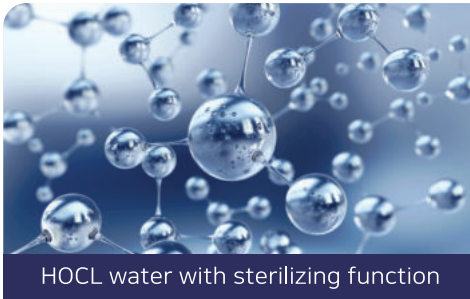

# STERILIZER PIK

The world’s first HOCL water flosser differentiated patent product to use HOCL water

It is a water flosser that has built-in HOCL water generator. With HOCL generator, it is a whole new different type of water flosser that bring an exclusive benefit to customers particularly in the removal of bacteria in the mouth

Built-In HOCL Generator

HOCL water with sterilizing function

## Features

※ When using children under the age of 13 special care of a guardian is required

- 3 operating mode (Normal / Soft / Pulse)  
Water stream with 3 modes
- Waterproof function (HC500-IPX5)
- Simply sit the unit on its wireless charging dock
- Battery lasts up to 2-3 weeks when fully charge

## Specifications

Product name	STERILIZER PIK
Model name	HC500
Power consumption	DC 5V
Rated power supply	100~240V, 50.60Hz
Operating time	2 mins
Configuration	main body 1ea, jet tip 4ea, wireless charger 1ea
Dimension	190*108*40(HxDxW)mm
water capacity	130ml
weight	350g

- Replace Jet tip easily by simply pushing release button
- Various water stream with 3 different mode, Select appropriate mode according to purpose of use.
- HOCL water is generated by pressing **separate button** on the device.

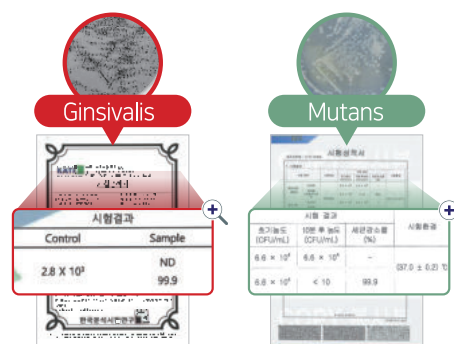

# STERILIZER PIK-S

Let's start differentiated oral care with STERILIZER PIK that removes oral bacteria

- Delicate oral care for braces, bridge and implants
- With the generated HOCL water, more effective to relieve bleeding and pain around the gum than string floss
- Remove plaque and debris caused by smoking and food debris
- More effective for oral care than brushing

## Features

※ When using children under the age of 13 special care of a guardian is required

- 3 operating mode (Normal / Soft / Massage)  
Water stream with 3 modes
- Simply sit the unit on its wireless charging dock
- Waterproof function (HC700-IPX7)
- Battery lasts up to 2-3 weeks when fully charge

## Specifications

Product name	STERILIZER PIK-S
Model name	HC700
Power consumption	DC 5V
Rated power supply	100~240V, 50,60Hz
Operating time	2 mins
Configuration	main body 1ea, jet tip 4ea, wireless charger 1ea
Dimension	203*108*40(HxDxW)mm
water capacity	170ml
weight	450g

- Separating main body and water bottle for **better feel of grip**
- Easily change with **integrated power and mode button**.
- By separating body and water bottle, **much easy to clean** water bottle
- Independent button**(HOCL) for generating HOCL water

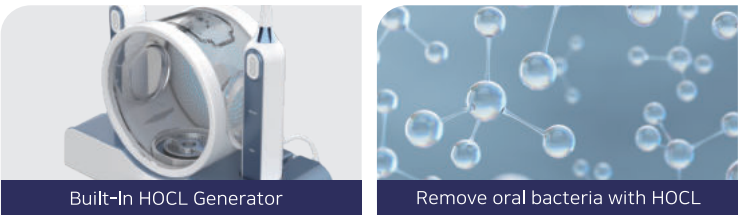

HC9000

# STERILIZER PIK-S<sup>+</sup>

Water flosser & Tooth brush system at once!  
The easiest way to make good habit for oral care

HOCL water is made by electrolysis water. When Hydrogen ions and chlorine ions are separated through electrolysis system, it generates HOCL water which has sterilizing effect. Sterilizer Pik-S<sup>+</sup> make HOCL water in short time, with large size of HOCL generator.

## Features

- 3 operating mode (Normal / Soft / Massage) with 10 advanced water pressure control system.
- Effectively remove food debris, plaque and bacteria behind
- Big water capacity with 400ml
- Sonic toothbrush and water flosser are combined to make more effective for oral care
- 5 Various Brushing mode(Clean, White, Polish, Gum care, Sensitive) available for your convenience

## Specifications

Product name	STERILIZER PIK-S <sup>+</sup>
Model name	HC9000
Power consumption	DC 5V
Rated power supply	100~240V, 50/60Hz
Dimension	210*100*260(HxDxW)mm
Water capacity	400ml
Comminication method	BLE 4.2

# Denster Denture Cleaner

No more Toxic and chemicals with Denster denture cleaner.  
Clean denture and retainers with HOCL  
that is made by electrolysis only tap water.

Denster denture cleaner prevents bad breath and gum inflammation which caused by remaining food and bacteria on oral device with HOCL water that has sterilizing effects.  
Keep your oral device clean using Denster denture cleaner.

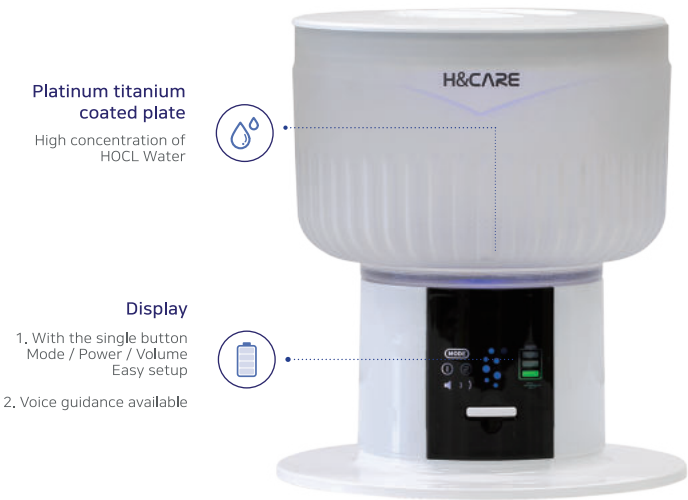

## Features

- Remove hidden bacteria on denture with HOCL water
- Use tap water to sterilize at any time  
Economically, as it does not require additional chemicals
- Use silicon for finishing material of lid to prevent water leaking

## Specifications

Model name	HC800
Product name	Denster denture cleaner
Power consumption	DC 5V 1A
Rated power supply	AC 100 ~ 200V / 50~60Hz
Operating time	Mode 1 : 10 mins    Mode 2 : 20 mins
Configuration	1 SET
Dimension	150*125*114 (HxDxW)mm
Weight	305 g

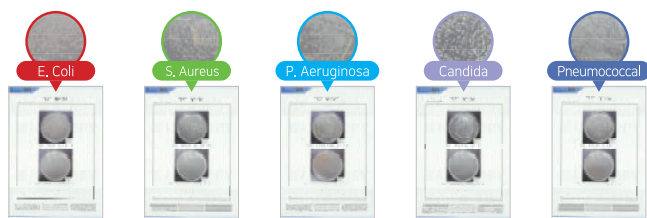

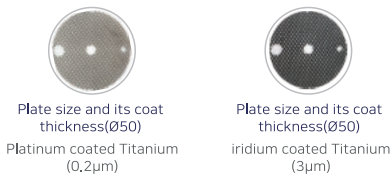

HC310 / HC900

# HOCL Water maker

With only tap water sterilizing and deodorizing possible

## Largest Electrode Plate Used

## Features

- Can be sterilized and deodorized quickly and powerful with HOCL water.
- Anytime, anywhere sterilization using tap water
- Convenient management and economic feasibility increases as the period of use increases
- Stylish design that fits anywhere in your life

## Specifications

Model name	HC310 / HC900
Product name	HOCL WATER MAKER
Power consumption	DC 5V 1A
Rated power supply	AC 100 ~ 200V / 50~60Hz
Operating time	Mode 1 : 3 mins    Mode 2 : 5 mins
Configuration	1 SET
Dimension	HC310 : 265*75*75 (HxDxW)mm HC900 : 266*108*40 (HxDxW)mm
Weight	305 g

HC310

HC900

### Display

1. Voice guidance with 3 language (Korean / English / Chinese)
2. Industry's first "HOCL Water Generator with LED display" Patented
3. IPX7 Waterproof Function(HC900)

## H&Care Auto spray

3 minutes operation with just one button!  
Gives the best convenience with automatic sprayer

The Baru's automatic spray is compatible with The Baru's HOCL Water Generator products and third-party products as well.

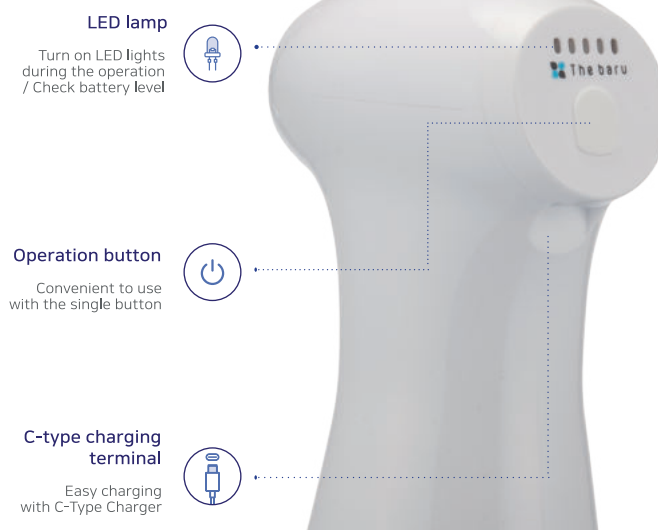

### Features

- H&Care Auto Spray allows you to spray for 3 minutes with a single touch
- LED light illuminated during operation
- Check the remaining battery quantity with the LED lamp
- 100% compatible with our HC series and third-party products and even general bottles
- A stable grip on the hand

### Specifications

Model name	HC-S1000
Product name	H&Care Auto Spray
Power consumption	DC 5V 1A
Rated power supply	AC 100 ~ 200V / 50~60Hz
Operating time	3 mins
Configuration	1 SET
Dimension	100*40*70 (HxDxW)mm
Weight	110 g

BW900 / BW900S

# Blue water Tumbler 900 / 900S

Eight cups a day, a health caregiver  
Hydrogen Water Generator tumbler

It is a portable hydrogen water tumbler that can be used semi-permanently and offers a variety of options through the smart display.  
It is easy to drink hydrogen water anytime, anywhere, which has an excellent effect on removing active oxygen and waste from the body.  
Drink 8 glasses of hydrogen water a day using blue water and check your body for changes

High molecular  
Hydrogen  
(1000~1300ppb)

Innovative design and  
Various displays

Through the oxygen exhaust hole,  
More pure and rich hydrogen water

BW900

## Features

- 4 language (Korean / English / Japanese / Chinese) available
- Two stages of hydrogen water generation for your preference(3/10 minutes)
- Smart display allows you to check the remaining battery volume, electrical movement and adjust the volume
- Easy to carry around in a bag when going out or working out
- You can insert a normal water bottle available on the market by using a bottle gender comes along to use it conveniently instead of the existing water bottle

## Specifications

Power consumption	DC 3.7V
Rated power supply	AC 100 ~ 220V / 50~60Hz
Operating time	Mode 1 : 3 mins    Mode 2 : 10 mins
Configuration	1 SET
Dimension	BW900 : 272*72*65 (HxDxW)mm BW900S : 200*72*65 (HxDxW)mm
Weight	400 g

BW900S

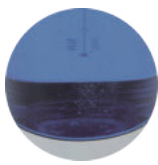

BW700M

# Blue water Tumbler 700M

Blue Water 700M makes it easy to use anything, anywhere  
Drink Rich Hydrogen Water

You can use it anytime, anywhere by combining general bottled water, fruit juice, coffee, etc through the bottle gender.  
Through the oxygen discharge hole, you can get more pure and rich hydrogen water.

High molecular hydrogen (1100ppb)

Easy one touch button

Through the oxygen drain hole, More pure and abundant Hydrogen water

## Features

- Easy one-touch method
- Providing rich hydrogen water, using the same core-technology with BW900
- Easy to carry around in a bag when going out or working out
- Insert a normal water bottle available on the market using the built-in bottle gender to use or conveniently instead of the existing water bottle
- Core Technology (PEM) : By using a membrane produced by Dupont, harmful substances are removed and pure hydrogen water (H2) is generated

## Specifications

Model name	BW700M
Power consumption	DC 3.7V
Rated power supply	AC 100 ~ 220V / 50~60Hz
Operating time	5 mins
Configuration	1 SET
Dimension	265*72*65 (HxDxW)mm
Weight	350 g

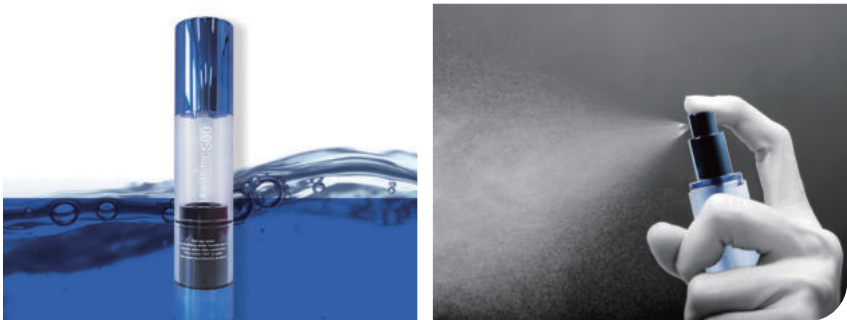

BLUE WATER 500

# Blue water 500

HOCL water mist that can be used semi-permanently!  
Portable HOCL water mist, a must-have item for daily life

A semi-permanent HOCL Water mist with built-in HOCL Generator.  
It is a portable sterilizer that creates sterilizing water that sterilizes all kinds of bacteria.  
Use tap water to streilize anywhere at anytime.

## Features

- Effective sterilization water generation with just tap water itself
- Ultra fine particle spraying.
- Easy to generate sterilizing water with a single power on/off button
- Portable sterilizer that is easy to carry out anywhere at anytime
- Unlike thrid-party products, it contains built-in battery that can last up to 2 weeks in a single charge

## Specifications

Model name	BW500
Power consumption	DC 3.7V
Rated power supply	AC 100 ~ 220V / 50~60Hz
Operating time	1 mins
Configuration	1 SET
Dimension	165*30*30 (HxDxW)mm
Weight	96 g

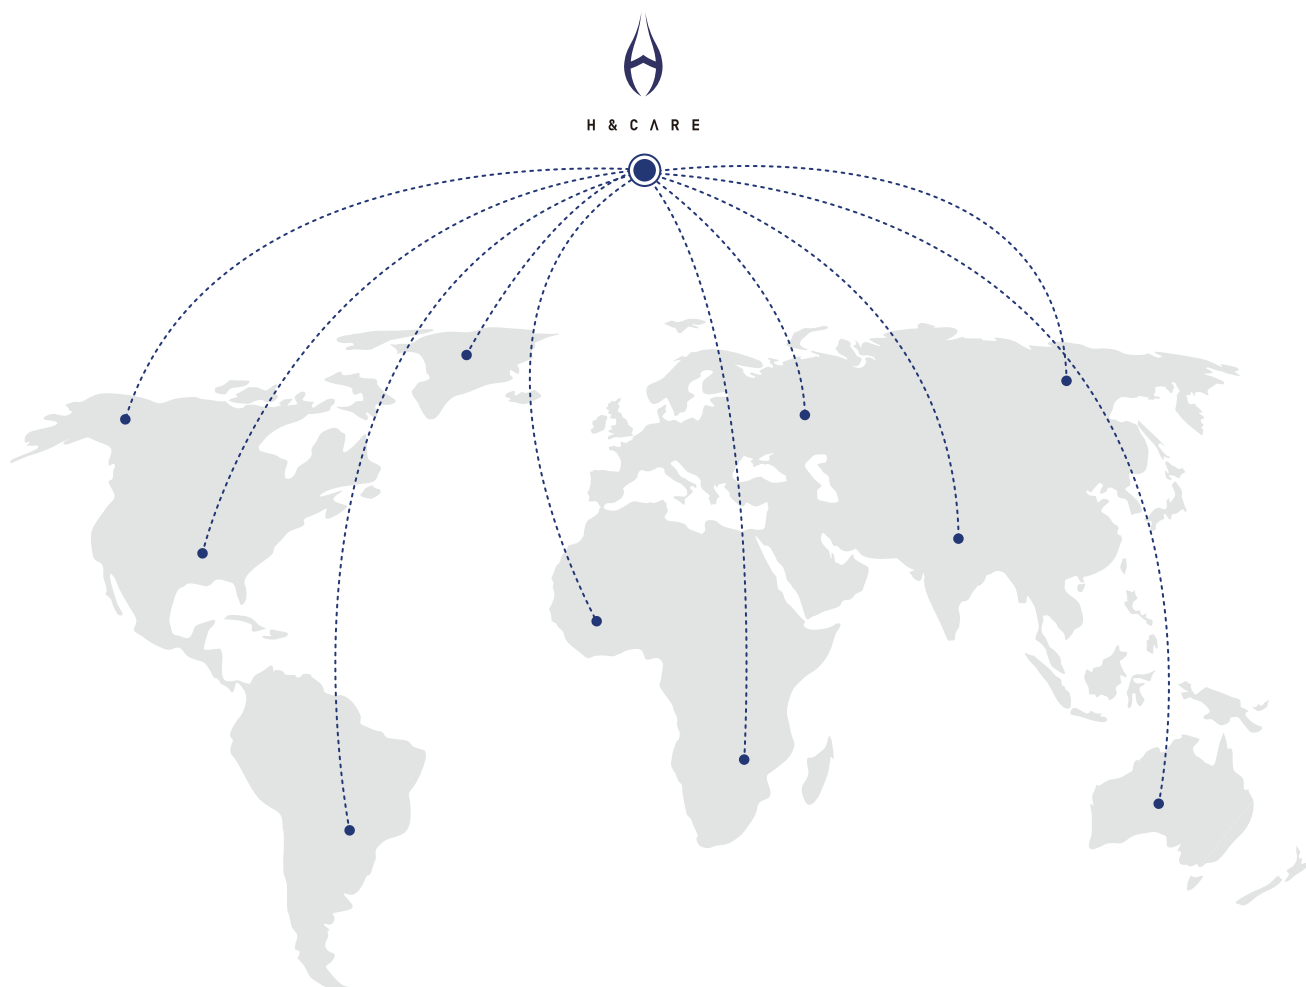

H&Care Co.,Ltd is moving toward

## THE WORLD'S NO.1 manufacturer in the healthcare industry

H&Care Co.,Ltd specialized in **healthcare industry** have only one path to contribute to the **health and life of mankind** through the production of healthcare products.

We are constantly **running towards our goal**, and H&Care Co., Ltd will continue to walk this path our products will **bring value to your life keep your health** and revitalize your life with H&Care Co., Ltd

We think **environment**  
**human health** and **clients first**.
