Technical features

HPL surfaces are made of high-tech polymeric materials that offer excellent durability for both indoor and outdoor use.

The core of the product consists of thin layers of KRAFT and DECOR phenol paper and melamine resins, compressed under high temperature and pressure.

HPL surfaces are suitable and have features that make them ideal for any kind of indoor or outdoor use, hotels, cafes or restaurants.

Additional UV protection enhances use for outdoor space.

All HPL surfaces have center table support guides. Included in the price.

Sleek & Modern
The tabletop finish is thin and stylish, while its center has normal thickness, as in all Isotop tabletops for better base support.

Dry matte finish
Laminate designs become more realistic with dry matte finish.

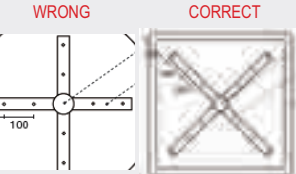

Live Laminate - Resistance to bending
The bottom side of the tabletop is covered with a black laminate of special composition that prevents it from bending. Surface gains the "ability to feel" when it tends to bend due to excessive heat and UV absorption (especially dark colors) and constantly returns to the correct straight position.

STABLE

Neither too heavy nor too light, very stable when assembled with the correct base*, strong wind tolerance.

BURN RESISTANT

Hot utensils will not leave a mark on your tabletop.

CIGARETTE BURN MARK RESISTANT

If a cigarette falls on the surface it will not affect the tabletop and it will leave no mark.

STAIN RESISTANT

Unchanged from contact with corrosive and sticky materials as well as liquid or solid food.

SCRATCH RESISTANCE

Withstands scratches by forks and kitchen knives.

SLICK AND ELEGANT

Smooth and in a variety of colors to fit every room. Rounded edges and corners for safety.

RESISTANT TO MOISTURE

It is not affected by moisture as the surface as well as the edges are insulated..

CREATIVITY

Tabletops are available in a variety of colors and shapes.

MINIMUM MAINTENANCE

A simple pass with a damp cloth or detergent is enough to remove the stains.
