Innovative Aesthetic Devices & Products

# NOBAMEDI

## Product History

## Certification

## ■ HYCOOX

### Multi Suction Injector

HYCOOX Multi Suction Injector is an innovative aesthetic medical device with high-end quality. It improves the quality of treatments and increases the patients' satisfaction with safe system, less pain results, and prevention of solution leakage.

# Crystal Meso

## Cordless Multi Injector

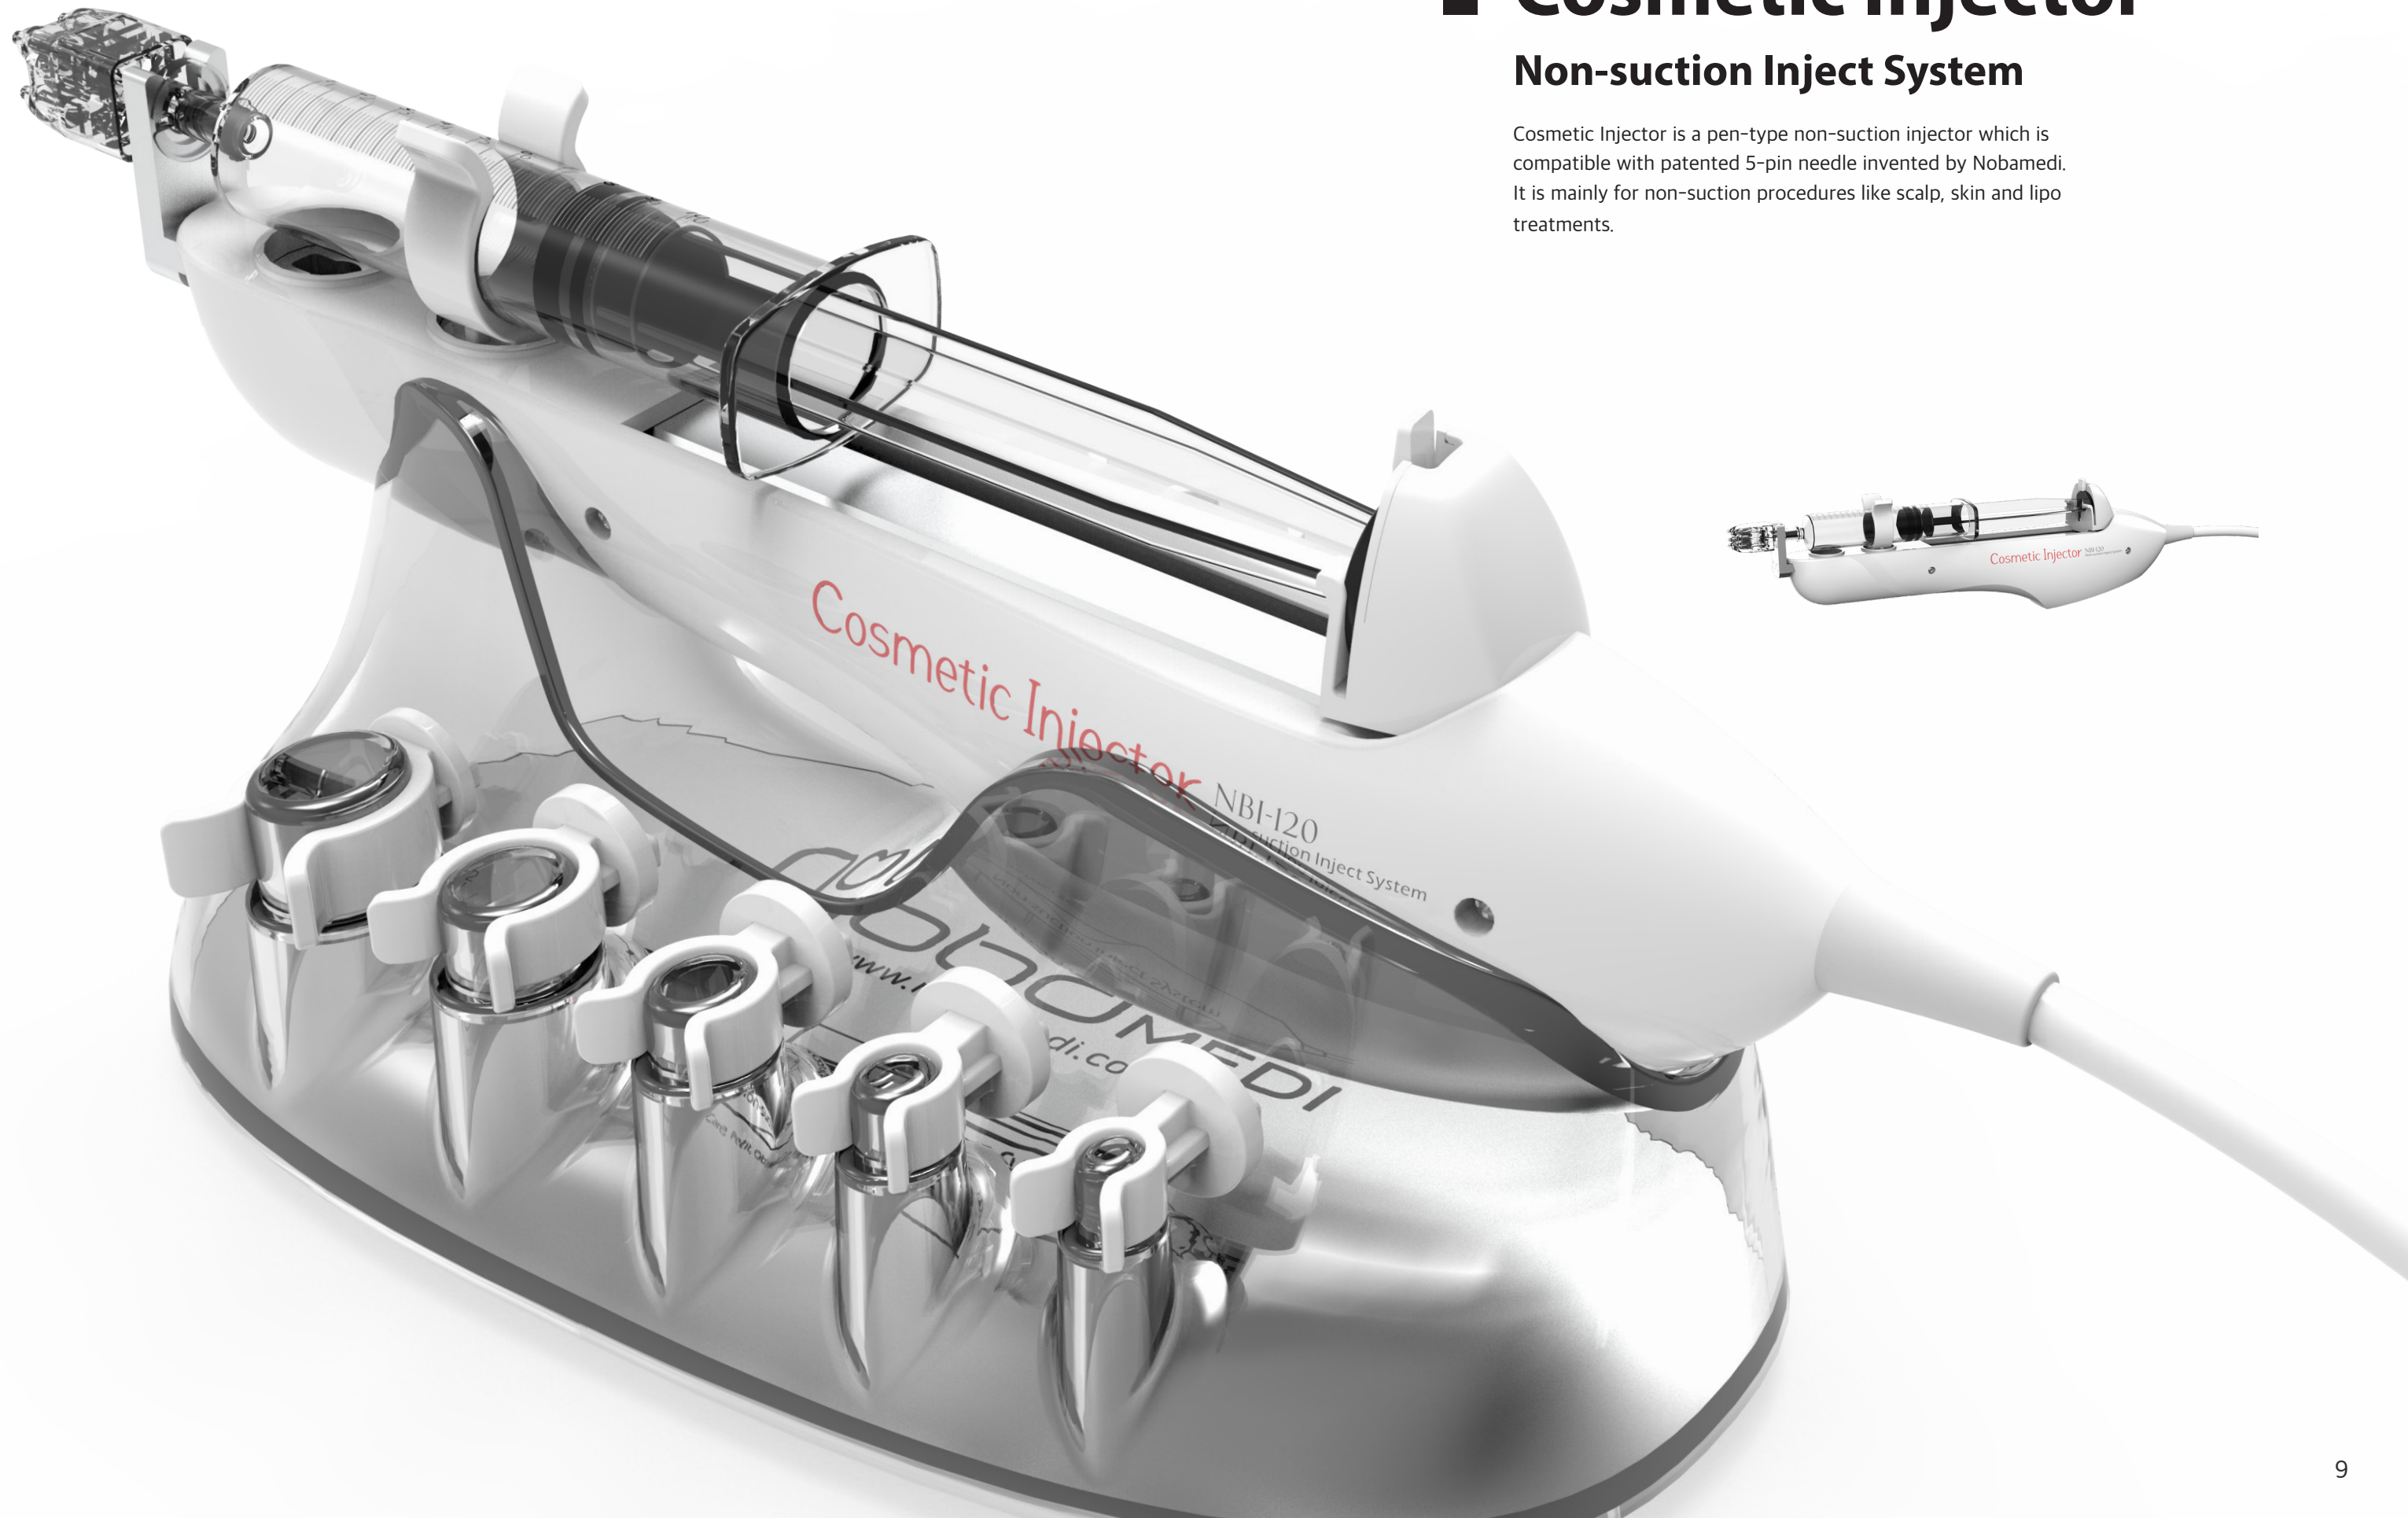

Crystal Meso is a lightweight and portable gun type injector which can be used with any types of syringes and be connected with our Crystal Multi Needle series for suction (auto injection) and non-suction (manual) modes.

# ■ Cosmetic Injector

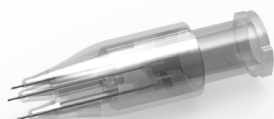

## Non-suction Inject System

Cosmetic Injector is a pen-type non-suction injector which is compatible with patented 5-pin needle invented by Nobamedi. It is mainly for non-suction procedures like scalp, skin and lipo treatments.

# Crystal Multi Needles

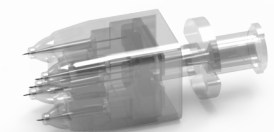

Crystal Multi Needles include 3-pin, 5-pin, 9-pin and 9-pin adjustable multi needles that come in different gauges and lengths. Our special needle technology of ETW and triple cutting bevel shape increases dispersion of the active ingredients into the skin and prevents solution loss.

## 3PIN

Target area: Skin/Scalp

Compatible with Hycoox Multi Suction Injector/  
Crystal Meso/ Cosmetic Injector/ Manually by hand

## 5PIN

Target area: Skin/Scalp

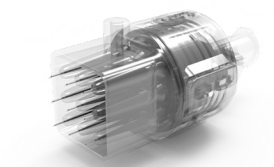

Compatible with Hycoox Multi Suction Injector/  
Crystal Meso/ Cosmetic Injector/ Manually by hand

Target area: Skin

Compatible with Hycoox Multi Suction Injector/  
Crystal Meso

## 9PIN ADJUSTABLE

Target area: Skin

Compatible with Hycoox Multi Suction Injector

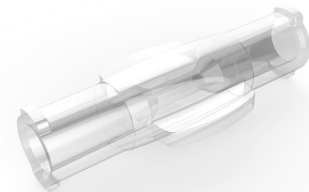

# CRYSTAL MULTI NEEDLE

5PIN 3PIN(R) 3PIN(L)

## ■ Syringe Mixing Tube

Syringe Mixing Tube is a solution mixing connector that mixes two different viscoelastic solutions together and subdivides the solution from the big syringe into the several small syringes.

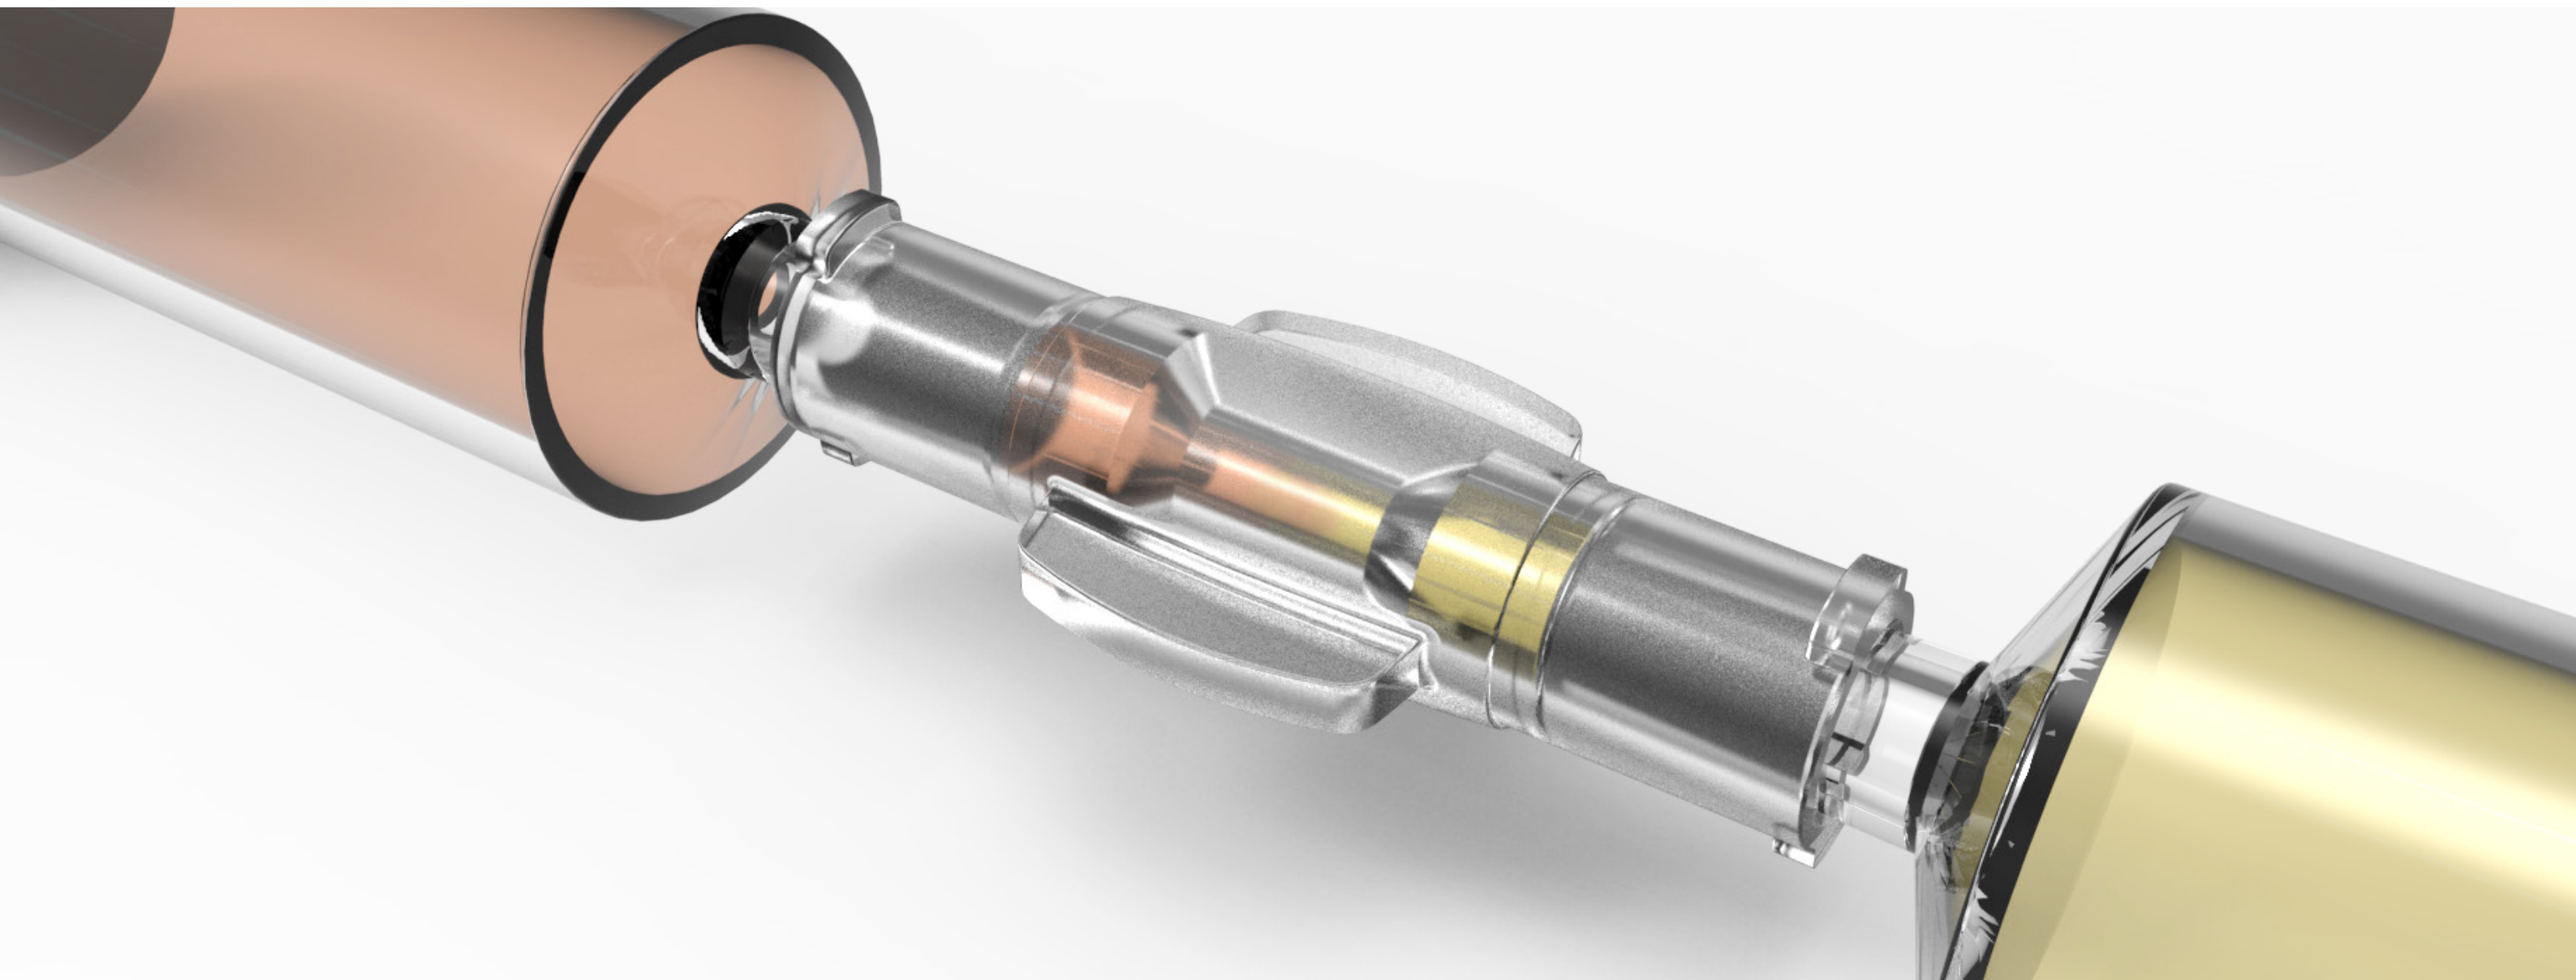

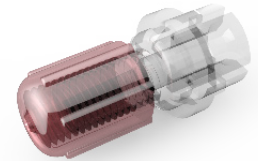

## ■ Needle Stopper

Needle Stopper is a convenient and safe needle length adjustor for single pin needle injection. It is accurate adjustment of a needle length, precise and safe for mesotherapy treatments.

\*Adjustable Range: 0~5.0mm and adjust a needle length using an undulating cap (one rotation is for 0.5mm).

\*For 1/2" single needle only.

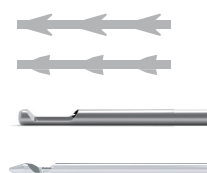

# Crystal Care Threads

## Premium White PDO
