

HAYON

Persistent in Nature

Persistent HAYON

A close-up photograph of several pink roses in a rustic, light-colored wooden bowl. The roses are covered in water droplets, giving them a fresh and vibrant appearance. The background is a soft, out-of-focus light gray.

Persistent in Nature

Persistent HAYON

The natural vitality!
with our pride in
'the true natural' products,
we will be responsible for
your healthy beauty.

HAYON is a pure Korean word that means 'intact nature'.

HAYON was established after a long persistent
research to add only the pure natural ingredients
without any harmful substances.

We only added the ingredients that let skin relax,
breath, and illuminate.

Skin that suffered from chemicals will recover
its natural bright complexion.

HAYON insists on adding only natural ingredients
that are good for skin without chemicals
for fast absorption, good scent,
long expiry date, and favorable formulation.

Recover your natural skin with **persistent HAYON**.

HAYON

Persistent HAYON'S promise

We research cosmetics more
circumspectly than food.
Thinking our family's health.

Be healthy, happy and beautiful with Natural Cosmetics

Chemical ingredient poisons the human body.

Our body can not be healthy using cosmetics
made of harmful ingredients.

HAYON will be a front-runner of natural cosmetics
that can be used with trust.

Natural cosmetics designed to be used by the whole family.

There is no such apple like father's apple, mother's apple and
baby's apple, but why should the cosmetic has to be sorted?

If the cosmetic doesn't have any harmful ingredients,
there is no need to be sorted.

Cosmetic, which is absorbed into blood vessel through the skin,
should be more careful than food.

HAYON will produce natural cosmetic more carefully than food.

We always study new ingredients beneficial to skin.

We will persistent our effort to find ingredient that can make our skin more beautiful
and healthy like unaging skin or making skin
glossy and glow from the inside.

Created Cosmetics formulated
with the philosophy of
Kim Gyeong-ae who studied
“the true natural”
product for 20 years

“

You can make your skin look good easily
and fast with chemicals.
But it will only be ultimately poisonous to your skin.
All answers can be found from nature.
Although it might be a long and difficult way.

”
