**Just 1 minute**

**After dyeing**

※The brightness of brown can be different according to color choice.  
You can increase the dyeing time to get more light color.

# candyspeed Product discription 1

## 1. Introduction

- 1 Minute Hair Color Cream is a new—concept hair dye minimizing hair damage by shortening the hair dyeing process and enhancing the treatment function after dyeing.
- 1 Minute Hair Color Cream is mild and not irritating because it doesn't contain ammonia. It also offers a refreshing scent during and after application. Natural oils and vegetable ingredients make hair smooth and glossy after application.

## 2. Features

### ► Safety

- 1 Minute Hair Color Cream minimizes the contact time of the hair dye and hair as well as hair damage and reduces the factors causing hair damage by a lower pH than other hair dyes.
- 1 Minute Hair Color Cream has no irritating scent because it contains no ammonia and the natural plants extracts, including aloe vera leaf juice, give a mild and soft feeling.
- The mixture of ingredients relieving and preventing irritation minimizes allergic reaction.

### ► Rapid Action

- 1 Minute Hair Color Cream dyes hair in a natural color 1~2 minutes after application over the entire hair area by making pigments quickly penetrate into the cortex inside cuticles and evenly saturate on the basis of a patented technology (hair color composition, Patent No. 10-0633439).

### ► Durability

- Keep glossy hair without loss of color after hair dyeing.

### ► Treatment

- The treatment function using polymers, natural oils and vegetable extracts makes hair smooth and shiny after dyeing.

### ► Convenience

- Mix Agent 1 and Agent 2 at the ratio of one to one and apply just like combing your hair. It is easy to apply. The hair color is changed by mixing the agent 1 including 1N, 3N, 4N, 5N or 5RN with Agent 2 by 70%, and 8N by 30%. For a darker color, reduce the amount of 8N. For lighter color, increase the amount of 8N.

### 3. Applicable Hair

- 1 Minute Hair Color Cream can be used for all kinds of hair for men and women including damaged hair, healthy hair or long and thin hair.

### 4. Ingredients and Efficiency

#### 1) Ceramide

- Ceramide acts like 'cement' strengthening adhesion to cells, the essential function in the hair structure, significantly improves volume, gloss and health of hair and restores the microstructure of hair by effectively protecting damaged hair caused by permanents or dyeing.

#### 2) Olive Oil

- Olive oil is good for dry or damaged hair as it makes hair smooth and effectively penetrates the hair structure because it contains vitamin A, D and E. It is excellent in inhibiting and soothing inflammation or itching of scalp. It also enriches color.

#### 3) Aloe Barbadensis Leaf Juice

- Juice extracted from aloe vera leaf helps to moisturize and whiten skin, block ultraviolet rays, accelerate healing of wounds and reduce allergic action.

#### 4) DL-Panthenol

- DL-Panthenol accelerates wound healing and strengthens the ability to overcome all kinds of infectious diseases.

#### 5) Polyquaternium-7

- Polyquaternium-7 makes hair glossy, smooth and silky and helps in combing wet hair without damage (snag-free) and to easily comb hair after drying hair.

#### 6) L-Arginine

- L-Arginine, the basic amino acid comprising hair, is quickly absorbed into hair with high affinity, penetrates into hair and swells it, relieves irritation and heals wounds.

#### 7) Acorus Calamus Root Extract

- Acorus Calamus root extract facilitates nourishing the scalp and strengthens hair roots by thoroughly cleaning excessive sebum, dandruff germs and dead cells from the scalp through antibacterial function.  
It protects scalp and hair from harmful substances such as free radicals and inhibits the activation of harmful substances.

*Candy Speed 1 Minute Hair Color Cream offers hair clinic care and dyeing at the same time.*

# CandySpeed 1Minute Hair Color

## Advantages

- Being very mild and gentle due to ammonia-free and botanical extracts contained  
암모니아가 없고 천연식물 추출물을 함유하여 닿는 순간부터 순하고 부드러운 느낌을 줍니다.
- Requires just 1 minute waiting-time after applying onto hair completely  
염색속도가 매우 빠릅니다. - 1분완성
- Causes minized damages to hair & scalp by shorter waiting-time as well as lower pH degree(at pH 9.7 in comparison with other products ranging pH 10.5 to 11.0)  
방치시간이 매우 짧고 pH가 낮아 모발 손상이 없고 두피자극이 없습니다.  
(일반제품은 pH 10.5~11.0인데 비해 pH 9.7수준에 불과합니다.)
- Helps hair turn smooter and milder after coloring due to genuine treatment effects  
염색에 함유된 고유한 트리트먼트 효능이 발휘되어 염색 직후부터 오히려 부드럽고 찰랑거리는 머리결을 만들어 줍니다.
- Patent registered for its genuine mechanism of high-speed and hair-treatment effects  
빠른 염색속도와 모발 보호를 위한 고유한 메커니즘이 특허 등록되었습니다.

Any colors in black / brown / auburn categories, all for 100% grey cover up

### Q Is it true that hair can be dyed in 1 minute? 정말 1분 만에 머리 염색이 가능한가요?

Yes, CandySpeed 1 minute hair color contains patented penetration enhancer of colorant, which facilitates colorants to penetrate into hair quickly deeply and evenly. Therefore, it helps vivid and natural color last longer.

네, 캔디스피드 1분 헤어 컬러는 착색제에 특허 침투 촉진제가 포함되어 있습니다. 이것은 머리 카락에 침투해 진하고 균일하고 작용합니다. 따라서 선명하고 자연스러운 색을 오래유지하는데 도움이 됩니다.

### Q Fast coloring is likely to do damage to hair, isn't it? 빠른 염색은 머리카락에 손상을 줄 수 있습니다. 그렇지 않은가요?

No, on the contrary, longer dyeing time is the main cause of damage to hair. Moreover, the product contains patented hair protection stuffs, which can prevent hair damage due to combined effects of aloe vera gel, ceramide, hair keratin, and other carefully selected ingredients. By this, hair becomes milder and smoother after coloring.

아니요. 반대로 더 긴시간 염색이 모발손상의 주요원인입니다.  
또한 제품에 알로에 베라 젤, 세라마이드 케라틴 및 기타 엄선된 성분들의 조합효과에 의한 모발손상을 방지하는 특허 모발 성분이 포함되어 있습니다. 그래서 시술 후 더욱 부드러워집니다.

### Q Won't it stain scalp or skin? 두피와 피부에 얼룩이 남지는 않을까요?

No it will not, if your scalp and/or skin is stained with hair color, wipe off before or while shampooing. The required waiting time before shampooing is only 1 minute, so the stain will be easily removed.

아니요, 그렇지 않습니다. 당신의 두피와 피부에 염색이 된 경우 샴푸하면서 또는 그 이전에 닦아주십시오.  
샴푸전에 필요한 대기 시간은 불과 1분 이므로 얼룩은 쉽게 제거됩니다.

### Q if the waiting time is shorter or longer than 1 minute what will happen to hair? 대기시간이 1분보다 짧거나 긴 경우엔 머리에 어떤 영향이 있을까요?

1 minute is optimum for the color you expect, if the waiting time is shorter then 1 minute, color will be thinner and will last shorter than expected. But when the waiting time is longer, color will be thicker.  
1분은 당신이 기대하는 색상에 적합합니다. 대기시간이 1분보다 짧은 경우 색상이 밝아지고 지속시간은 예상보다 짧아집니다.  
대기시간이 긴 경우에는 색상도 진해집니다.

### Q What should be different when I use this product in comparison with other products requiring longer waiting time? 헤어컬러 제품에 알레르기가 있는 사람에 대해 주의점이 있나요?

There is no difference. Just start with hair surrounding ears and sides of head (whiskers), after that, apply to all other gray hairs completely.  
그런분들의 사용은 권장하지 않습니다. 그들은 반영구제품 및 특수 알레르기 방지 염색제를 사용해야 합니다.

### Q is there any problem for those who are allergic to hair color products? 더 긴시간을 필요로 하는 다른제품에 비해 이 제품을 사용할때 다른점은 무엇인가요?

it is not recommended for them to use it. They should use semi-permanent hair colors or special allergy-proof hair colors.  
차이는 없습니다.  
단지 귀 주변의 머리카락과 주위의 측면에서 시작합니다. 그 후 다른모발에도 완전히 적용합니다.
