# A-case

## Mask storage antibacterial case

Composition: Antibacterial (both sides) case, necklace, adhesive tape

Material: PET(antibacterial)

Color: (default: translucent) Lime, mint, light pink

Size : 80 x 120 x 6mm

Weight : 17g

Write your name.

## Compact Mask Antibacterial Case

- I use one sheet per day, but depending on the situation, the mask can be removed several times.
  - It is not safe to wear a neck mask when eating, outdoors or talking.
  - External viruses, fine dust, foreign matter, food, etc. can enter and leave the mask, and moisture is generated inside the mask through breathing, making it a good environment for bacteria to live.
  - Our mask antibacterial case is a material developed by applying an antibacterial coating on both sides (all) of the case.
  - In addition, the structure design that adheres to the case surface both inside and outside of the mask suppresses and kills bacteria. It also protects the mask from external viruses and fine dust.
  - The company's newly developed case has developed a structure design that folds into a small size while making antibacterial close contact to the inside of the mask. (Patent)
  - It's half the size of your palm and can be hung around your neck, attached to your phone, or fits easily into your pocket.
- IMPORTANT:
- Wearing a neck mask with a lanyard is very dangerous due to exposure to foreign matter, bacteria, fine dust, foreign matter, food and air secretions.
- The inside is more dangerous, especially close to the mouth.
- Putting on and taking off your mask again while exposed is like going on a dangerous adventure.
- The mask should be stored in a case with antibacterial function all the way to the inside of the mask to keep it safe from viruses and bacteria.
- B2B: Promotions, events, giveaways, special sales, etc. can be printed as you like.

# Grip Belt Case-T

- Hand Grip Belt
- Pocket : Pen, Earphone, USB Cable
- Stand
- Hang
- Other...

Size : The model  
(Belt Thickness 4mm)  
Color : Black, White
