BEUINS which stands for 'Beauty in Skin'  
aims to bring out the true beauty in your skin.

## Nature & Science

### Natural ingredients meet scientific research

I didn't seek to find cosmetics for myself.  
I sought after the ones for my own daughter.  
That's how Beuins started.

We've been studied for years to find the most genuine ingredients from nature.  
The research was conducted in a thorough and prudent manner.

For your beauty and life with good health,  
Beuins has never stopped its efforts to make a better product.

#### History of Beuins

- 2014**
  - 12 Established
- 2015**
  - 06 Certified by ISO 9001. 2008

  - 06 Participated in Vietnam K Beauty Expo (Ho chi Minh City, June 15th-17th)
  - 06 Released two new products from Beuins: Power Defense Sunscreen and Natural Skin BB Cream

## Beuins is Nature

A life close to nature is the healthiest one.

One's beauty as well shines when one lives in nature.

The world is developing day by day at a tremendous speed.

We are living in a time where efforts to seek beauty  
can be replaced with technology.

### Beuins turned to nature

We believe that the products we make should be something safe, reliable and healthy for both me and my child. Nature offers unlimited sources. Numerous ingredients that are already proven for their abilities are out there in the beauty market.

### Beuins started to look for better ingredients

We endeavored to look for more quality ingredients. Even it is in a foreign nation outside this country, we went for it wherever it is located.

### Beuins is different

Products of Beuins bring out natural ingredients to your skin. They don't irritate skin.

They are not cosmetic products with special technology. They are bland and healthy.

We spare no effort to deliver nature itself to you without any compromise. Beuins takes nature in it.

## Beuins is Science

Products of Beuins are made by using natural ingredients based on research. We transform fresh ingredient into cosmetic products based on systematic and scientific data. Just applying quality ingredients on your skin doesn't always guarantee positive outcomes. Beuins' research team studies ingredients and how they work with different combination and amount for each skin type and status, and makes its knowledge into actual products.

### Beuins goes deep into the world of ingredients with a methodological approach

We do research with quality ingredients in order to make them even more effective. Without data about optimal ratio of constituents or dosage forms, that is just a mix of ingredients, not a cosmetic. Researching is critical in completing the process of making quality ingredients into a product.

### Beuins makes most out of natural ingredients

We've carried out our work for years to make the most out of natural ingredients with better texture and enhanced effects on your skin. Just like people working to make safe and good foods we're focusing on good cosmetics.

### Beuins is different

Beuins transforms natural ingredients into cosmetic products for your skin and in that sense it's a result of collaboration between nature and science. Beuins is a cosmetic brand reflecting changes in the environment and lifestyle strictly based on science.

Nutrient  
Emulsion Skin  
130g | 36,000 KRW

The first step of your skin care routine after cleansing

## Nutrient Emulsion Skin

As basics are always important, you should take great care of the first step of your skincare routine after cleansing. 'Highly enriched nutrient emulsion skin' is a combination of a skin lotion and emulsion aiming to clarify skin tone and provide hydration and nourishment, a killing-three-birds-with-one stone item.

### CHECK POINT

- ✓ Giving benefits of emulsion and toner in one
- ✓ Anti-aging and brightening
- ✓ Calendula extract beneficial for skin repair
- ✓ Free of five additives
- ✓ Adenosine, niacinamide, peptide
- ✓ Rich in nourishment with a highly concentrated formulation

### Plus tip

For extremely dry or dry skin type or during winter season, it can be a great alternative to a skin toner; for normal, combination or oily type, or during summer season, it can be used as a skin emulsion.

### Calendula

Shakespeare wrote in his play, The Winter's Tale, that calendula "opens when the sun shines; goes to bed with sun and with him rises weeping." Since his time, the flower resembling of shining sun has been called a flower of sun. Calendula in the daisy family Asteraceae is also known as marigolds or pot marigolds and is rich in flavonoid that acts as strong antioxidants and thus makes an effective ingredient for a cosmetic formulation.

Provide hydration and give your skin a glow all day long

## Total Solution Essence

Having an essence that fits your skin just right like a tailored suit makes you free from worry about your skin care. Total Solution Essence is a reliable formula that brings vitality and nourishment back to dull and dry skin.

A calming scent of lavender oil is another plus.

### CHECK POINT

- |  |                          |
|--|--------------------------|
| ✓ Lavender extract mitigating skin irritation  | ✓ Hydrating and soothing |
| ✓ Gentle and smooth texture                    | ✓ Volume essence         |
| ✓ Adenosine, niacinamide, peptide, guaiazulene | ✓ Free of five additives |

### Plus tip

For extreme dry skin or during the change of seasons, Total Solution Essence can be as effective as a facial sheet mask, if you drench cotton pads in it and place them on prone to wrinkle areas such as around eyes and mouth, a great facial sheet mask experience.

### Lavender

Lavender is the most well known herb that is often referred to as 'the queen of herbs,' whose oil distilled from the purple flowers is broadly used as an ingredient for a perfume or cologne. Thanks to its calming and nourishing effects, it is also used for a wide range of cosmetic products. The subtle scent of lavender helps relieve stress and refresh skin.

Maintain ideal water and oil balance of your skin

## Water&Oil Blending Essence

The health of your skin is directly linked to the right balance between acidity and alkalinity. Water & Oil Blending Essence helps prevent excessive sebum by forming a layer on your skin to retain moisture, maintaining your skin hydrated and glow all day long.

### CHECK POINT

- ✓ 2-PHASE formula retaining moisture
- ✓ Separated upper and lower layers
- ✓ Free of five additives
- ✓ Clove flower extract helps balance pH levels
- ✓ Light and smooth texture with oil and essence
- ✓ Trehalose, hyaluronic acid, ceramide, argan oil

### Plus tip

Mix the separated upper and lower layers well before use, so you can evenly apply the oil and moisture on your skin.

### Clove flower

Clove is the aromatic dried flower bud of a tree in the family Myrtaceae, also known as 'jeonghyang' in Korean, originated from Indonesia but now is grown in other places like West India, Zanzibar and Madagascar. The dried flower with sweet, refreshing aroma is a popular cosmetic ingredient as it helps get rid of free oxygen radicals and soothe irritated skin.

Water&Oil  
Blending Essence  
45g | 38,000 KRW

Makeup remover, foaming cleanser and facial massage oil, all in one bottle

## All-In-One Facial Cleanser

"Removing your make-up is more important than putting it on" is a well known truth in the cosmetic world. The trend is enhancing performance of cosmetic products while making them easy to use. All-in-one Facial Cleanser is a smart one-step solution to makeup removing, cleansing and facial massaging.

### CHECK POINT

- ☒ Free of five additives
- ☒ Multifunctional one-step cleanser
- ☒ Natural moisturizing ingredients
- ☒ Goopy gel texture turns into a foam upon application
- ☒ B-Algae oil, betaine, vitamin E acetate, green tea extract

**Plus tip** If you want to use it as a make-up remover before wash your face, pump it without water, apply it on your face and massage and then wash it off with water. If you would like to use it as a one-step cleanser, mix it with water to create foam, massage it and wash it off.

### Brown Algae

Seaweed such as sea mustard and kelp containing with powerful absorption capacity towards heavy metals help not only remove toxic materials on your skin, but make your skin healthy and flawless with abundant minerals in it. Furthermore as they hydrates dry skin, brown algae extracts are commonly used cosmetic ingredients.

All-In-One Facial  
Cleanser  
200ml | 19,800 KRW

A smart multi-cleanser: from makeup cleansing to pore clearing

## Make-up Crush Bubble Cleanser

Have you ever heard of 'smart multi-cleaser'? Bubbles in Make-up Crush Bubble Cleanser only get activated and response to impurities and makeup residue to melt them down immediately. Do you worry if its powerful effects might dehydrate your skin? No. If anything, you will get more hydrated, smoother skin.

### CHECK POINT

- ✓ Free of five additives
- ✓ Natural moisturizing from olive oil
- ✓ Used naturally originated surfactant
- ✓ Orange blossom extract, masic olive DE, potassium cocoate, tocopheryl acetate
- ✓ Bubbles coming into effect right away to makeup residue and impurities

### Plus tip

Apply cleansing bubbles on your face and massage it gently with fingers, then it will not only wash off any residue, but provide calming and refreshing effects.

### Orange Blossom

Orange blossom has a refreshing citrus scent, making it one of the most frequently used herbs in making a perfume or cosmetic product. With the meaning of 'purity' in the language of flowers, orange blossom is a pure and safe ingredient even good for children that stabilizes your skin tone and provides nourishment

Honey  
Scrub Mask  
30ml | 9,800 KRW

To removes dead skin cells and get healthy glowing skin

## Honey Scrub Mask

Dead skin cells are the biggest enemy of makeup, aren't they?

The first thing to do is to clarify the surface of your skin. Prep your skin for makeup with Honey Scrub Mask that exfoliates dead skin cells off and brings you back a healthy, glow skin.

**Plus tip** Honey Scrub Mask brings a brighter by promoting in the cold winter time as well as gets rid of dead skin cells.

### CHECK POINT

Start anti-aging treatment with plasma energy

## Beuins Plabeau

### Are you familiar with the word 'Plasma'?

Beuins Plabeau makes use of an energy called 'plasma' in which atoms are ionized and the generated ions in a size smaller than that of skin pores deliver the energy to skin. This makes your skin healthier. In addition to that, the energy slightly stimulates the skin to get rid of dead cells, to be moisturized, and to reduce itchiness caused by dryness. As Beuins Plabeau is safe enough for kids as well as for adults, it can be used for those with atopic or dry skin.

Beuins Plabeau

### Why Plasma?

Delivers energy  
to your skin

Helps increase  
elasticity

Stimulates  
skin

Helps your skin  
hydrated

Mitigates  
skin irritation

“**BEUINS?**

I made BEUINS cosmetics for the healthy beauty of myself and my child.

- BEUINS CEO Cho, Sang Eun

BEUINS'S PEOPLE

## BEUINS Creators

There are lots of expensive cosmetics made with natural ingredients out there. What I wanted was to make cosmetics made of organic ingredients with a reasonable price. It's something you put on your skin every day, so of course every woman would want to use a product made with good ingredients. Cosmetics are so special to me because I'm a mother of a young daughter as well as a woman myself. My vision became much clear when I saw my little daughter suffering from atopic eczema. I thought "Let's make cosmetics safe for my kid and affordable for all." My idea is people can never mess with food. That's why I thought cosmetics brands should make products as honestly as food producers should, because cosmetics are something you put on your skin. I have three basic principles: "honesty, quality ingredients,

and affordable prices" Whenever I got down, I kept working on it, thinking of my daughter. Finally, I launched BEUINS, short for Beauty In Skin. BEUINS utilizes quality natural ingredients based on scientific data so that the products perform the best for your skin. We significantly invested in such ingredients and provided a package option with a reasonable price in launching naturalism cosmetics. That's how we came up with cosmetic products made of natural ingredients at a reasonable price. My daughter uses "BEUINS Hydro Sleeping Mask" whenever she gets skin trouble or eczema symptoms. BEUINS's the one for us. Just applying the product can make the itch go away and add moisture back into your skin. I'm confident to recommend BEUINS products for my customers as my kid is using it.

beuins  
People

### PEOPLE

“BEUINS is cosmetics from the nature

- Aroma Therapist Bok, Yeong Oak

I first met with BEUINS CEO Cho Sang Eun while doing some prep-work to open Forest Healing Garden and Aroma Therapy Museum in Gwangyang, Jeollanam-do based on my 19-year career as an aroma therapist. She was preparing for launching her brand BEUINS, and got her employees take courses on aroma therapy. Mrs. Cho wanted to make natural cosmetics with no preservative with curing features as well as good scent. Since then, we've carried out blending tests multiple times to develop cosmetics applying aroma therapy. Essential oil products originally have natural scents extracted from medicinal herb. Typically, artificial scents are applied to such cosmetic products to satisfy customers' preference. But BEUINS wanted to use natural scent only to realize a strong aroma as powerful as artificial scent. Well, each time, we faced cost issues, but Mrs. Cho insisted on making an honest and quality product regardless of high cost. That's why I joined her project, impressed by her passionate will. We've been together in launching the BEUINS products of today. I'm so happy to present BEUINS on the market with such a strong confidence. I'm 100% sure that BEUINS is an honest and quality cosmetic brand, deserving customer trust.

“BEUINS is cosmetics from a systematic and scientific research

- CEO/Director of Research Center at Dan Joung Bio, Jung, Euisoo

I've studied natural ingredients for cosmetics over the 24 years. When I first met with BEUINS CEO Cho Sang Eun, she expressed a strong will to make natural and mild cosmetic products displaying a great functionality. Watching her tireless effort, I helped her research with my knowledge and ideas. Such effort was finally turned into "BEUINS." In particular, she showed passion in developing a cosmetic product with high functionality, which was a weak point of natural ingredients. She was especially interested in herb, Dong Quai (Korean angelica root). She wanted to develop a cosmetic product not only with mildness but also with high functionality. Most cosmetic brands focus mainly on marketing, but BEUINS was different. Watching her working really hard to develop a functional and safe product, my research team couldn't help joining her effort. All natural cosmetics are not necessarily good for all. No matter how great ingredients are, it takes a constant and systematic research based on scientific data. For example, such research effort includes finding out which texture can absorb quickly and maximize effect. The birth of "BEUINS" is like a discovery of a hidden gem followed by tireless research and tests.
