

The Gift from Nature

Pozzolan Skin Care

What is Pozzolan?

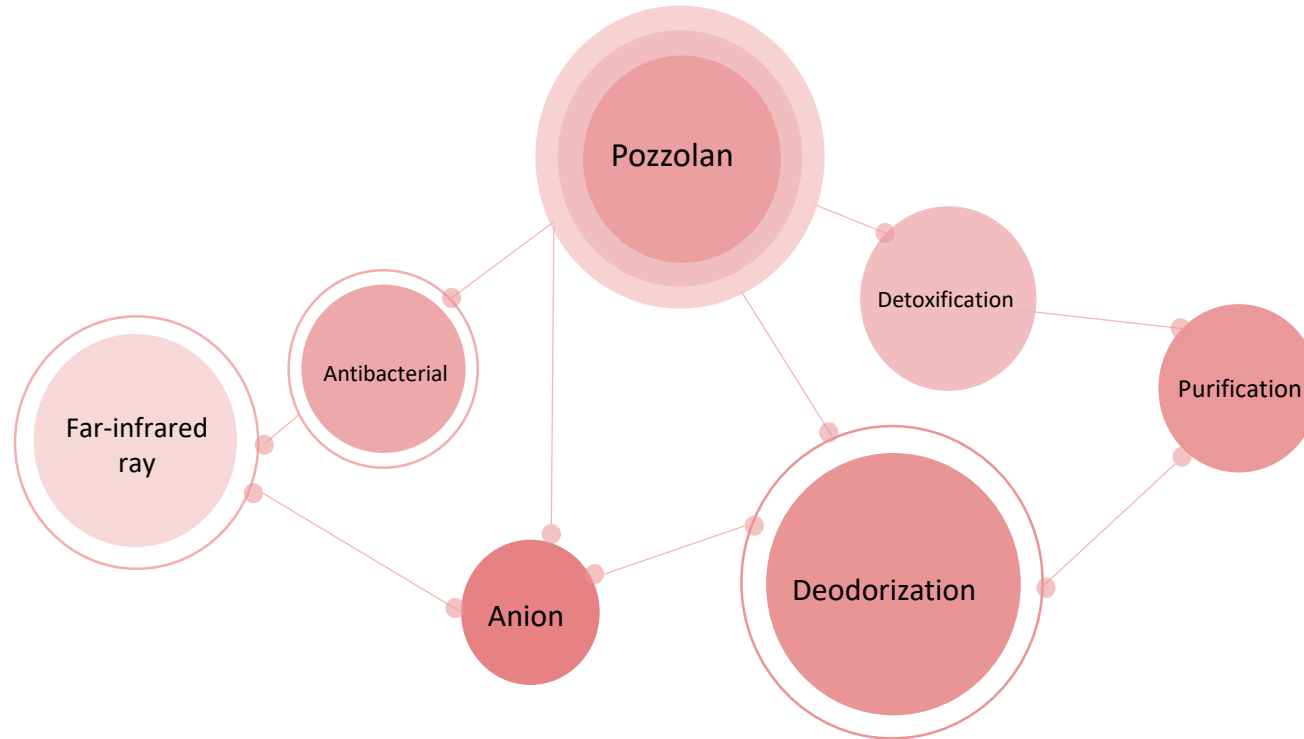

“Pozzolan is Nature’s best gift”

Pozzolan is a white-ear igneous rock named after the village of Pozori in Italy. It is **only produced in five countries** around the world (South Korea, India, Italy, USA, Malaysia) and is a highly rare premium natural material.

Among them, the distribution in Korea is proven to be the best for the human body and skin.
ONE PERCENT generously combined natural material to our products.

Pozzolan

Effect of Pozzolan

Pozzolan is a rare mineral of volcanic rock that has high organic matter, minerals, and far-infrared radiation. In particular, it is found to be certified as having high antibacterial benefits, along with deodorization, and detoxification.

It is **187 times** more effective than Hwangto, a well-known eco-friendly material, as it has been proven by Hwangto researchers to have excellent efficacy. It has been studied as a mysterious, eco-friendly material.
