

## What is special about Father's Hill?

The young father who used to be an engineer became a farmer for his daughter's sake.

He started farming in Goheung with its clear water and air.

Sugar-free! A naturally-derived sugar from grains was born!! After much research and thought, we developed a grain-derived sugar that is free of granulated sugar that can be healthily and tastily consumed.

A dad's gift to his daughter  
Father's Hill began with the hope that the founder's daughter would be able to eat to her heart's content. Today, Father's Hill presents grain sugar, sugar-free jam, sweet potato latte, and other foods that everyone can eat without worries.

Healthy foods created by a father for his daughter struggling with atopic condition

“ 0% sugar!!! A naturally derived grain sugar free of sugarcane was born ”

We developed a naturally processed grain sugar that can add sweetness without using sugarcane. It is a type of healthy sugar derived from natural grains such as rice, barley, black beans, glutinous rice by activating the amylase enzyme of barley grains.

Grain sugar contains healthy fiber and can help digestion when consumed with bread, and is gentle to the stomach.

“ Production technology patent pending after six years of trial and error ”

We experienced countless failures for six years to achieve the perfect balance between taste and health and after relentless experiments, we were able to create the Father's Hill products that we now proudly present.

“ A father's gift to his daughter Staying true to dad's promise ”

“ We present our products in economical and convenient sizes ”

We produce them in a variety of containers tailored to consumers' needs.

“ Father's Hill sugar-free jam does not use sugarcane, but rather uses natural sugar made from grain. ”

“Father's Hill Sugar-free Jam” made with natural grain sugar stays true to its inception as a gift to the founder's daughter, and is produced strictly with fruit-derived ingredients without any coagulants, preservatives, and additives.
