Qlight Gives You a Brighter Future!

Qlight has been a world-leading provider of visual and audible status indicating systems and solutions for the last three decades. We pride ourselves in developing products which help our customer's improvement, productivity, safety, and quality control in the industrial automation and commercial improve. Our strong dedication to innovative products, quality assurance, well-established supply chain, customizable manufacturing and strong customer relationships have helped us earn the top market share in Korea and China. These core values have also been fundamental to our continued growth into new markets.

Qlight's products are certified by the International Quality management System (ISO9001), IECEx, ATEX, UL, CE, Lloyd, KIMM, and KOSHA which display our dedication to stringent quality control and product development based on safety-pursuing industry standards. Our assembly lines in Busan, South Korea and Shanghai, China presently provide a variety of more than 450 of products to more than 40 countries, based on sales offices in South Korea (Seoul, Busan) China (Shanghai, Shenzhen, Shenyang, Tianzhen, Tianjin, Wenzhou), and the U.S. (Silicon Valley). The Qlight brand reflects 30 years of research and development, certification, and manufacturing experience. We will continue to establish ourselves as a industry-leading provider by pushing the boundaries of technology in order to enhance our customer's efficiency and safety in every industry and region of the world.

HISTORY

Qlight has been striving to accomplish our mission to provide visual and audible status indicating systems and solutions to enhance our customer's work safety and efficiency for the last three decades.

1986~1992

Business Foundation and Consolidation

- Established in 1986
- Nominated as the Company for development of Domestic Explosion-Proof Warning Light by Korean Ministry of Science & Technology
- Established Shanghai Qlight Electronic Co., Ltd. In China
- Quality Assurance Company Certificate acquired

1993~2005

Growing as a Signal Transmission Device Specialist

- UL (Underwriters Laboratory) certificate acquired
- CE (conformity marking within European Economic Area) certificate acquired
- Lloyd's (UK's maritime classification society) certificate acquired
- 17 types of ABS (American classification society) certificates acquired
- ISO 9001 and 2000 certificates acquired
- Products applied in KIA Motors automation equipment
- Products applied in KTX (Korea High Speed Rail)safety systems
- KR (Korean Register of Shipping) certificate acquired

2006~2010

A Great Leap Forward & Business Reconstruction

- Established Research & Development Center
- ABS and KIMM explosion proof certificates acquired
- Explosion proof certificate from Korea Industrial Safety Health Agency acquired
- Obtained a patent for revolving bulb warning light
- Obtained a patent for LED rotating warning light
- NEPSI (National Supervision and Inspection Center for Explosion Protection and Safety of Instrumentation) certificate acquired
- Products applied in Hyundai Motors factories in Beijing, India and Czech Republic
- Products applied in Hyundai Motors factory automation equipments in Alabama
- Products applied in highway safety signal system of Korea Expressway Corp.
- UL certificate for signal tower lights acquired

INNOVATION IN ALARM & SIGNAL

2011~2016

Continued Growth and Globalization

New Engines for Growth

- Obtained UL certificate for LED Signal lights Q series
- Obtained UL certificate for LED Work light (QPL, QPLC200/ 300/ 400/ 500)
- The second headquarter factory built
- Obtained RMRS(Russian Maritime Register of Shipping) certificates for three items including SW2TS limit switch
- Obtained UL certificates for LED work lights for QML150/250 and QMFL500/600
- ATEX (European certification of explosion proof) certificate acquired
- Venture company certificate acquired
- Technology innovation company (INNOBIZ) certificate acquired
- Commercialized LED work lights
- CCS (Chinese classification society) certificate acquired
- ICAO (International Civil Aviation Organization) certificate acquired - Selected as a promising export company by the Small & Medium Business Admin., Korea
- KGS certificate acquired

Qlight will continue to take chances for the second growth and globalization to establish itself as the world-leading provider in the industry.

VISION & PHILOSOPHY

Qlight strives to continue its lead in producing quality products for the industry by forming a compassionate corporate culture, fulfilling customer oriented needs, and maximizing manufacturing efficiency.

Global Network

We are able to maximize our management efficiency through the presence of our global network of production and sales sites. Our global teams are held accountable for short delivery times, industry leading customer service, cost competitiveness and quality products appropriate for any industry environment.

Customer-Oriented Management

We aim to help our customers maximize their profits and work efficiency by providing them with a diversified product portfolio with an emphasis on innovation, quality assurance, and customer focused support.

Shared Management

We practice a "Business Sharing" policy by allocating a portion of our profit and time with the local community. We support organizations which encourage children's dreams and hopes through reading activities.

Differentiation

In order to support the critical needs of our customers, Qlight accomplishes cost efficiency by differentiating the business strategy in R&D, production, marketing, and customer service.

Specialization

We concentrate our management and R&D efforts on developing and improving the quality of signal transmission devices which make us the world's leading company and experts in our field.

Companionate Corporate Culture

With the cooperation of both company and employees pursuing a common goal, we promote and encourage many policies that support employee creativity, welfare, communication, vision sharing and motivation within the company.

R&D CENTER

Qlight's R&D Laboratory continually strives to enhance our technology in the areas of product miniaturization, unmanned operation, and strengthened durability in order to develop products that can satisfy our customer's sophisticated needs. Considering our customer's diverse operational conditions, we constantly pursue the best product quality by testing and measuring our products under the most extreme conditions. We achieve our high quality through standardized processes acknowledged by world-leading certificate organizations such as UL, CE, ATEX, IECEx and etc.

Research Achievements

- 01 Interchangeable layer type tower lights
- 02 Warning light globes applying optical-path direction lighting system
- 03 Floodlight with high efficiency LED for inspecting cracks in industrial sites and industrial machinery
- 04 A lens that helps deliver the LED's light in the lateral direction, and bulbs applying this lens (LR-transparent)
- 05 High intensity LED revolving warning lights applying multi-directional reflector
- 06 Explosion Proof electric horns applying sintered flame arrester
- 07 Brushless DC Motor
- 08 Rotors applying V-belt drive, featuring high energy efficiency and minimized noise
- 09 Multiple color LED warning lights
- 10 Signal lights applying LED bulbs as light source
- 11 Solar powered warning lights
- 12 Direct-drive warning lights
- 13 Special driving gear for revolving warning lights
- 14 LED Bulb applying special lens
- 15 Warning lights for heavy industry applying multi lens system
- 16 Signal horns embedded in the enclosure body that functions as a light source
- 17 LED work light bars specifically designed for machine tools with IP69K protection rating

Explosion Proof Testing Laboratory

To maximize our efficiency in developing products within market driven timelines, Qlight has invested our own explosion proof test facilities in order to quickly develop new technologies and conduct pre-certification testing. The pre-certification testing follows the strict IEC 60079-0, IEC 60079-1 standards to ensure our quality and smooth certification process when submitted to universal standards bodies.

Process of Explosion Proof Testing

Step 01	MAXIMIM SURFACE TEMPERATURE MEASUREMENT - DATA LOGGER - CONSTANT TEMP & HUMI CHAMBER	
	Step 02	TEST FOR THERMAL SHOCK & THERMAL ENDURANCE TO HEAT - CONSTANT TEMP & HUMI CHAMBER
Step 03	TEST OF RESISTANCE TO IMPACT - IMPACT TEST EQUIPMENT	
Step 04		AERATION MEASUREMENT - DIGITAL MICROSCOPE
	Step 05 REFERENCE PRESSURE MEASUREMENT & TEST FOR FLAME SPREAD	- EXPLOSION CHAMBER - GAS MIX CYLINDER - GAS ANALYZER - BLASTING MACHINE - GAS MIX TUBE
Step 06	PRESSURE TEST - WATER PRESSURE TESTER	

PRODUCTION CAPABILITIES

By adopting technology standards and quality assurance systems, Qlight has achieved quality gentrification and standardization with a wide range of products in order to to meet our customer's sophisticated needs.

■ Enterprise Resource Planning(ERP) system maximizes our management's efficiency

The comprehensive enterprise resource planning system allows Qlight to quickly understand, communicate, and manage current business conditions in an efficient and transparent platform.

■ Highly efficient Supply Chain Management (SCM) ensures quick delivery time

The comprehensive enterprise resource planning system allows Qlight to quickly understand, communicate, and manage current business conditions in an efficient and transparent platform.

■ Cell Based Manufacturing Systems applied where operators are responsible for the entire production procedure from beginning to end

The comprehensive enterprise resource planning system allows Qlight to quickly understand, communicate, and manage current business conditions in an efficient and transparent platform.

■ Flexible Customer-Driven Small Quantity Batch Production System (FMS: Flexible Manufacturing System)

The comprehensive enterprise resource planning system allows Qlight to quickly understand, communicate, and manage current business conditions in an efficient and transparent platform.

■ One-Stop System which allows Qlight to respond quickly to market needs

The comprehensive enterprise resource planning system allows Qlight to quickly understand, communicate, and manage current business conditions in an efficient and transparent platform.

PRODUCTS

Warning/ Signal/ Stackable Lights

We produce a diverse portfolio of xenon and LED warning/ signal/ stackable light products that vary in size from 50mm to 180mm in diameter. The xenon and LED filaments are used to improve the lifetime and brightness of the products.

Signal Lights & Electric Horns/ Speakers

Excellent products that provide visual signals and audible sound. These products recently added an SDcard slot which allows users to input their own sound suitable for their application condition.

Vessels and Heavy-Duty & Equipment

Products for vessels, heavy-duty, and heavy equipment require anti-vibration, corrosion, and waterproof qualities. Qlight's products are compliant with ABS, LR, CCS, KR, CE certifications.

Explosion Proof

Explosion proof products are used in places such as offshore plants, petrochemical plants and gunpowder factories where lingering explosive gas/chemicals pose a higher risk for fire and explosion. Qlight produces products which are compliant to IECEx, ATEX, NEPSI, KGS, KOSHA standards.

PRODUCTS

Warning Light Bars

Warning light bars require various shapes and sizes depending on the vehicle and purpose. Qlight's products can meet varying requirements due to the modular design of the light bar.

Aviation Obstruction Lights

Aviation obstruction lights are placed in high locations that can be costly for repair and inspection. Qlight's products use LED lights which provide long lasting durability and are virtually maintenance free. Qlight's products can meet the mid, low brightness and flame proof standards.

Signal Tower Lights

Signal tower lights can be used for a wide variety of industries and environments that require the transmission of visual and audible signals. Qlight tower lights are available in a number of shapes and also offer options for built-in sounds and melodies.

Wireless Control Product

The wireless network system helps users to remotely monitor and control the operation status of the signaling device through a PC or smartphone. By applying this wireless connected signaling system, users can improve the efficiency of their production environment.

USB, ETN Signal Tower Lights

USB LED tower lights do not need a power source when connected via USB to a PC. Our Ethernet communication LED tower lights can be controlled over long distances by internet or LAN.

Electronic Horns/ Speakers/ Motor Sirens

Electric horn products include 7 warning sounds, 13 melodies, and 30 MP3 sounds (via multiple channels) built-in. Products with the MP3 option allow users to input the proper sound for their working condition and environment.

Industrial LED Lights

Qlight produces industrial LED work lights for machine tools that are durable and water-proof. These industrial work lights can also be used in distribution panels and are IP67/IP69K compliant for high pressure water cleaning environments.

Water / Explosion Proof Limit Switches

Qlight provides compact size limit switches suitable for the petrochemical industry, food processing machineries, and machinery tools for compact applications. These products are impenetrable to water, oil, and particles with a protection rating of IP56. We also provide heavy-duty limit switches with bronze housing perfectly suitable for heavy industry which require excellent corrosion resistance.

QUALITY CERTIFICATIONS

Qlight products are designed to meet strict quality and technical standards. Thus, the Qlight brand is widely recognized for its high quality and technical innovations from leading institutions around the world.

ISO

International Organization for Standardization

Qlight quality assurance systems have been certified by ISO by applying the ISO 9001:2008, KS Q ISO 9001:2009 regulation.

IECEX

International Explosion Proof Certification

Certified that Qlight's products are being manufactured and managed according to international standards.

ATEX

The European Regulatory Framework or Manufacture, Installation and Use of Equipment in Explosive Atmospheres

Qlight explosion proof products comply with ATEX Directives 94/9/EC.

NEPSI

National Supervision and Inspection Center for Explosion Protection and Safety of Instrumentation

Qlight's design and manufacturing system meets the People's Republic of China National explosion proof Standard. (Chinese Standard-GB3836/GB12476)

KGS

Korea Gas Safety Corporation

Approved from "Korea Gas Safety Corporation" that Qlight's design and manufacturing system meets the standard of KGS.

KOSHA

Korea Occupational Safety and Health Agency

KOSHA

Approved by the "Korea Occupational Safety and Health Agency" that Qlight's design and manufacturing system meets the standard of KOSHA.

ABS

American Bureau of Shipping

Qlight's design and quality assurance system has been certified by the American Bureau of Shipping.

LR

Lloyd's Register

Qlight design and quality assurance system has been certified from Lloyd's Register.

CCS**China Classification Society**

Qlight design and quality assurance system has been certified by the China Classification Society.

RMRS**RMRS Russian Maritime Register of Shipping**

Qlight design and quality assurance system has been certified from Russian Maritime Register of Shipping.

KR**Korean Register of Shipping**

Qlight design and quality assurance system has been certified by the Korean Register of Shipping.

CE**European Commission**

Qlight has been certified by the European Commission.

UL**Underwriters Laboratories**

Qlight design and quality assurance system has been certified from UL to ensure the stability of consumption goods and to protect consumers.

KC**Korea Safety Certification**

Qlight products are certified by KC for preventing accident caused by fire.

CCC**China Compulsory Certificate**

Qlight has obtained CCC which guarantees safety, protection against fraud, environment, etc.

ICAO**International Civil Aviation Organization**

Qlight guarantees our products satisfy the criteria regulated by the International Civil Aviation Organization (ICAO, FAA).

E-mark**E-mark Commission Directive Regarding Vehicle Industry**

Qlight has obtained EU mark for approved vehicles and vehicle components sold into the EU (EEA : European Economic Area)

RoHS**Restriction of Hazardous Substances Directive**

Qlight complies with the Restriction of Hazardous Substances Directive by limiting its use of hazardous materials.

QUALITY ASSURANCE & CUSTOMER SERVICE POLICY

Qlight follows a quality assurance policy that supports our customer's work efficiency by implementing state of the art quality control and customer service systems.

By adopting an ISO9001 quality management and assurance system, Qlight has achieved certified standards in quality.

This adoption of strict technology standards and test systems minimizes production issues and allows us to focus our attention on customers needs to ensure their success.

Quality Assurance Policy with Embrace and Understanding

- Cost competitiveness through cost reduction
- Short delivery through applying time-efficient SCM system
- Enhanced empowerment of employees dealing with customers
 - allows for shortened service time to serve customer
- Customized product production capability to support specific customer application needs

Customer-Oriented Service Policy

- Provide fast and accurate customer service
- Strong technical teams that tackle issues when they occur
- Embracing customer service that understand customer's situation
- Open technical data available so customers can select the most suitable products for their application site

Customer Service Policy

- All Qlight products offer free warranty for the first year after purchasing
- RMA tickets are initiated within a week after a customer claim is filed - customer fault excluded

Warranty Timelines and Conditions

Support under Warranty

All products	Timeline	Support Conditions
All products	One Year	Failures that occur with normal operation within warranty timeline

Out of Warranty Support

Timeline	· One year after the expired warranty date
Wear	· Warranty does not support Parts and options which are not from Qlight
Customer Faults	· Case where parts break as a result of customer negligence · When instructions are not followed · Parts that are modified by customer
Etc.	· Customer's inspection request without product failure (It will be charged even under warranty) * Installation and cautions are important to follow to avoid problems

Customer Service Process

Customer Service Request and Repair

- Please contact distributor's office or Qlight head office.
- Send us a customer service request note along with the defected product for smooth processing.

Contact Point Tel : +82-55-328-4082 | e-mail : trade@qlight.com

GLOBAL SALES NETWORKS

Thanks to Qlight's outstanding technology and excellent customer service, our products have been served in more than 40 countries, and the market share is continuously increasing throughout the world.
