# WHO WE ARE

Based on its know-how from being the world-best automobile logistics provider, C'S Korea is expanding its customer base into various industries including steel, machinery, heavy industries, chemical, energy, and construction. C'S Korea is also playing a core role in global automobile production systems through its CKD business. Its used-car auction business is contributing to the modernization of Korea's domestic used-car market.

C'S Korea plans to become a global total logistics provider by continuing to expand its ocean transportation business and strengthening competence in the third-party logistics. C'S Korea's endeavor will continue to create customers' value.

And we will constantly challenge to be a global leading company through eco-friendly administration of development and circulation of resources, distribution business, as well as general logistics.

As a leading company in the 21st century, we will strive to find and offer what our customers want since the value of C'S Korea depends on their success. C'S Korea will always be with our customers. A customer-friendly company, C'S Korea is with customers for their success.

Thank you

# CORPORATE PHILOSOPHY

## Core Values

By putting our core values into action, C'S Korea will lead the way to a better future.

### Customer

We promote a customer-driven corporate culture by providing the best quality and impeccable service with all values centered on our customers.

### Challenge

We refuse to be complacent, embrace every opportunity for greater challenge, and are confident in achieving our goals with unwavering passion and ingenious thinking.

### Collaboration

We create synergy through a sense of "togetherness" that is fostered by mutual communication and cooperation within the company and with our business partners

# FOCUS AREAS OF USED CARS

# HOW COME WE FOCUS ON BANGLADESH

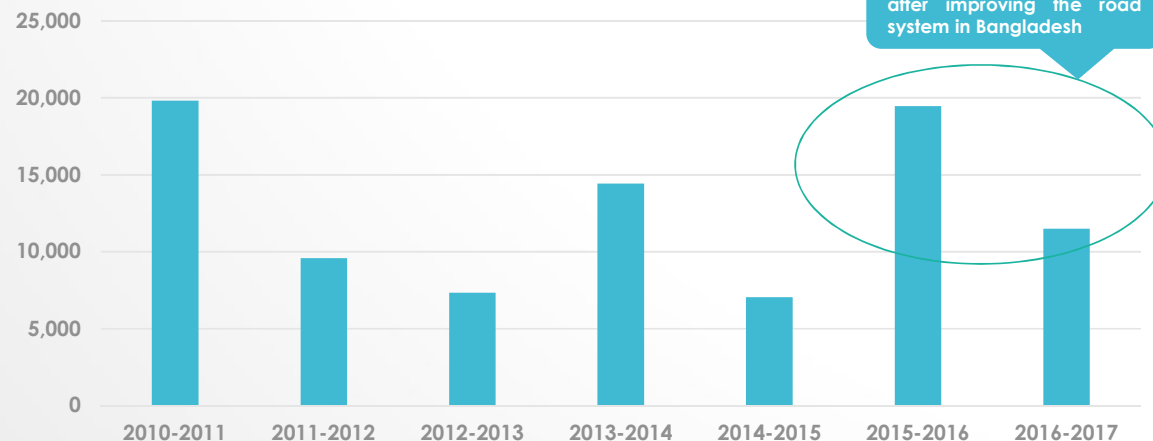

## Growth Potential

Although It has bad roads and lack irrigation systems for used cars, Bangladeshi government would love to try to improve the situation. In the future, we can expect for vehicle demands and capabilities to continue to increase, especially if the government improve the roadway widening and the tax burdens (depreciation costs) as follows:

NUMBER OF  
RECONDITIONED  
VEHICLES IMPORTED

Data source : The daily star

SALES VOLUME OF USED CARS  
IN BANGLADESH

# BUSINESS FOR USED CARS
