Ultra light | Skin shoes | Quick dry

Motto – 3C  
Comprehension Cooperation Creation

## About us

DiCAPac is the leading manufacturer of waterproof cases for digital devices such as smartphone, DSLR camera and tablet PC, etc. since 2005. With our extensive business partnerships worldwide, DiCAPac exports to more than 60 countries around the world.

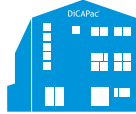

In May 2015, DiCAPac extended its ambition to launch a premium aqua shoe brand, Aqurun, which the R&D team took 2 years to develop.

Made with stretchy spandex skin and TPR outsole, Aqurun presents light, firm aqua shoes with strong grip that protect your feet from various substances, slips and falls especially at the beach. To overcome poor adhesion of existing aqua shoes, Aqurun manufactures its shoes by single-molding injection, making upper and outsole permanently intact.

## The best aqua shoes for various sports

Make unforgettable memories with Aqurun while enjoying various water activities. Protect yourself from slips and falls, and foreign substances with non-slip Aqurun shoes. Meet the brand new premium aqua shoes, Aqurun.

SCUBA DIVING  
SNORKELING  
SWIMMING  
KAYAKING  
YACHTING  
SURFING  
FISHING  
YOGA  
ETC

Wear your color  
Be ready for the beach

Try wearing Aqurun, the shoes that actually fit. Its specially designed drainage system in TPR easily drains sand and water from the shoes. Its skin is made of spandex, a stretchy and lightweight fiber, which protects your feet well. To remove water, simply roll it up for a few times and let it dry for a day.

**Flexibility**

## Water Grip TPR outside

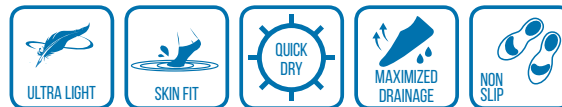

Aqurun produces upper and outsole as a single unit without any stitching or gluing.

TPR outsole for firm water grip and elasticity.

How to use aqua shoes

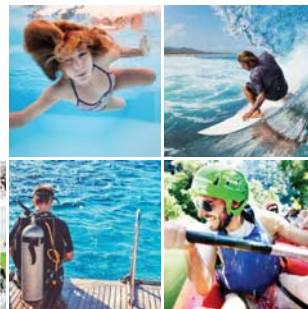

## Drainage System

- Drainage hole  
Aqurun's enhanced water drainage system minimizes water and sand inside the shoes.
