

Optimise your people, powder processes, productivity and profit

Utilising an easy-to-follow Understand, Monitor, Control methodology, Hosokawa Gen4 provides a flexible digital toolkit to convert live data from sensors and controls into a scalable and secure solution to optimise your production processes.

Meeting Powder Processing Challenges

We blend operational technology (OT) and information technology (IT) with Hosokawa's processing industry expertise to effectively address the business challenges that companies in dry end processes face.

Measurable Manufacturing Improvements

Combining human, machinery and controls know-how, each solution is tailored to the individual customer's needs, using best-of-breed components to achieve measurable manufacturing improvements:

- ✓ Health Checks
- ✓ Data Discovery Assessments
- ✓ Co-Development of Digital Strategies
- ✓ Plant Upgrades
- ✓ Instrumentation Reviews/Upgrades
- ✓ Control System Reviews/Upgrades
- ✓ Advanced Automation
- ✓ New Plant Design & Specification

Data from assets & systems: collect, store, structure

and deliver data to support key decisions.

Insights from analytics: convert key datasets into

proactive, predictive maintenance & control.

Deliver value: digitise cumbersome

manual processes and shift effort to higher-value activities.
