

The nature's gift : Sea Snack

Seaweed made by the clean sea on the west coast, warm sunlight and wind.  
The biggest repository of minerals the sea has ever given to humans.  
Let me introduce Korean superfood.

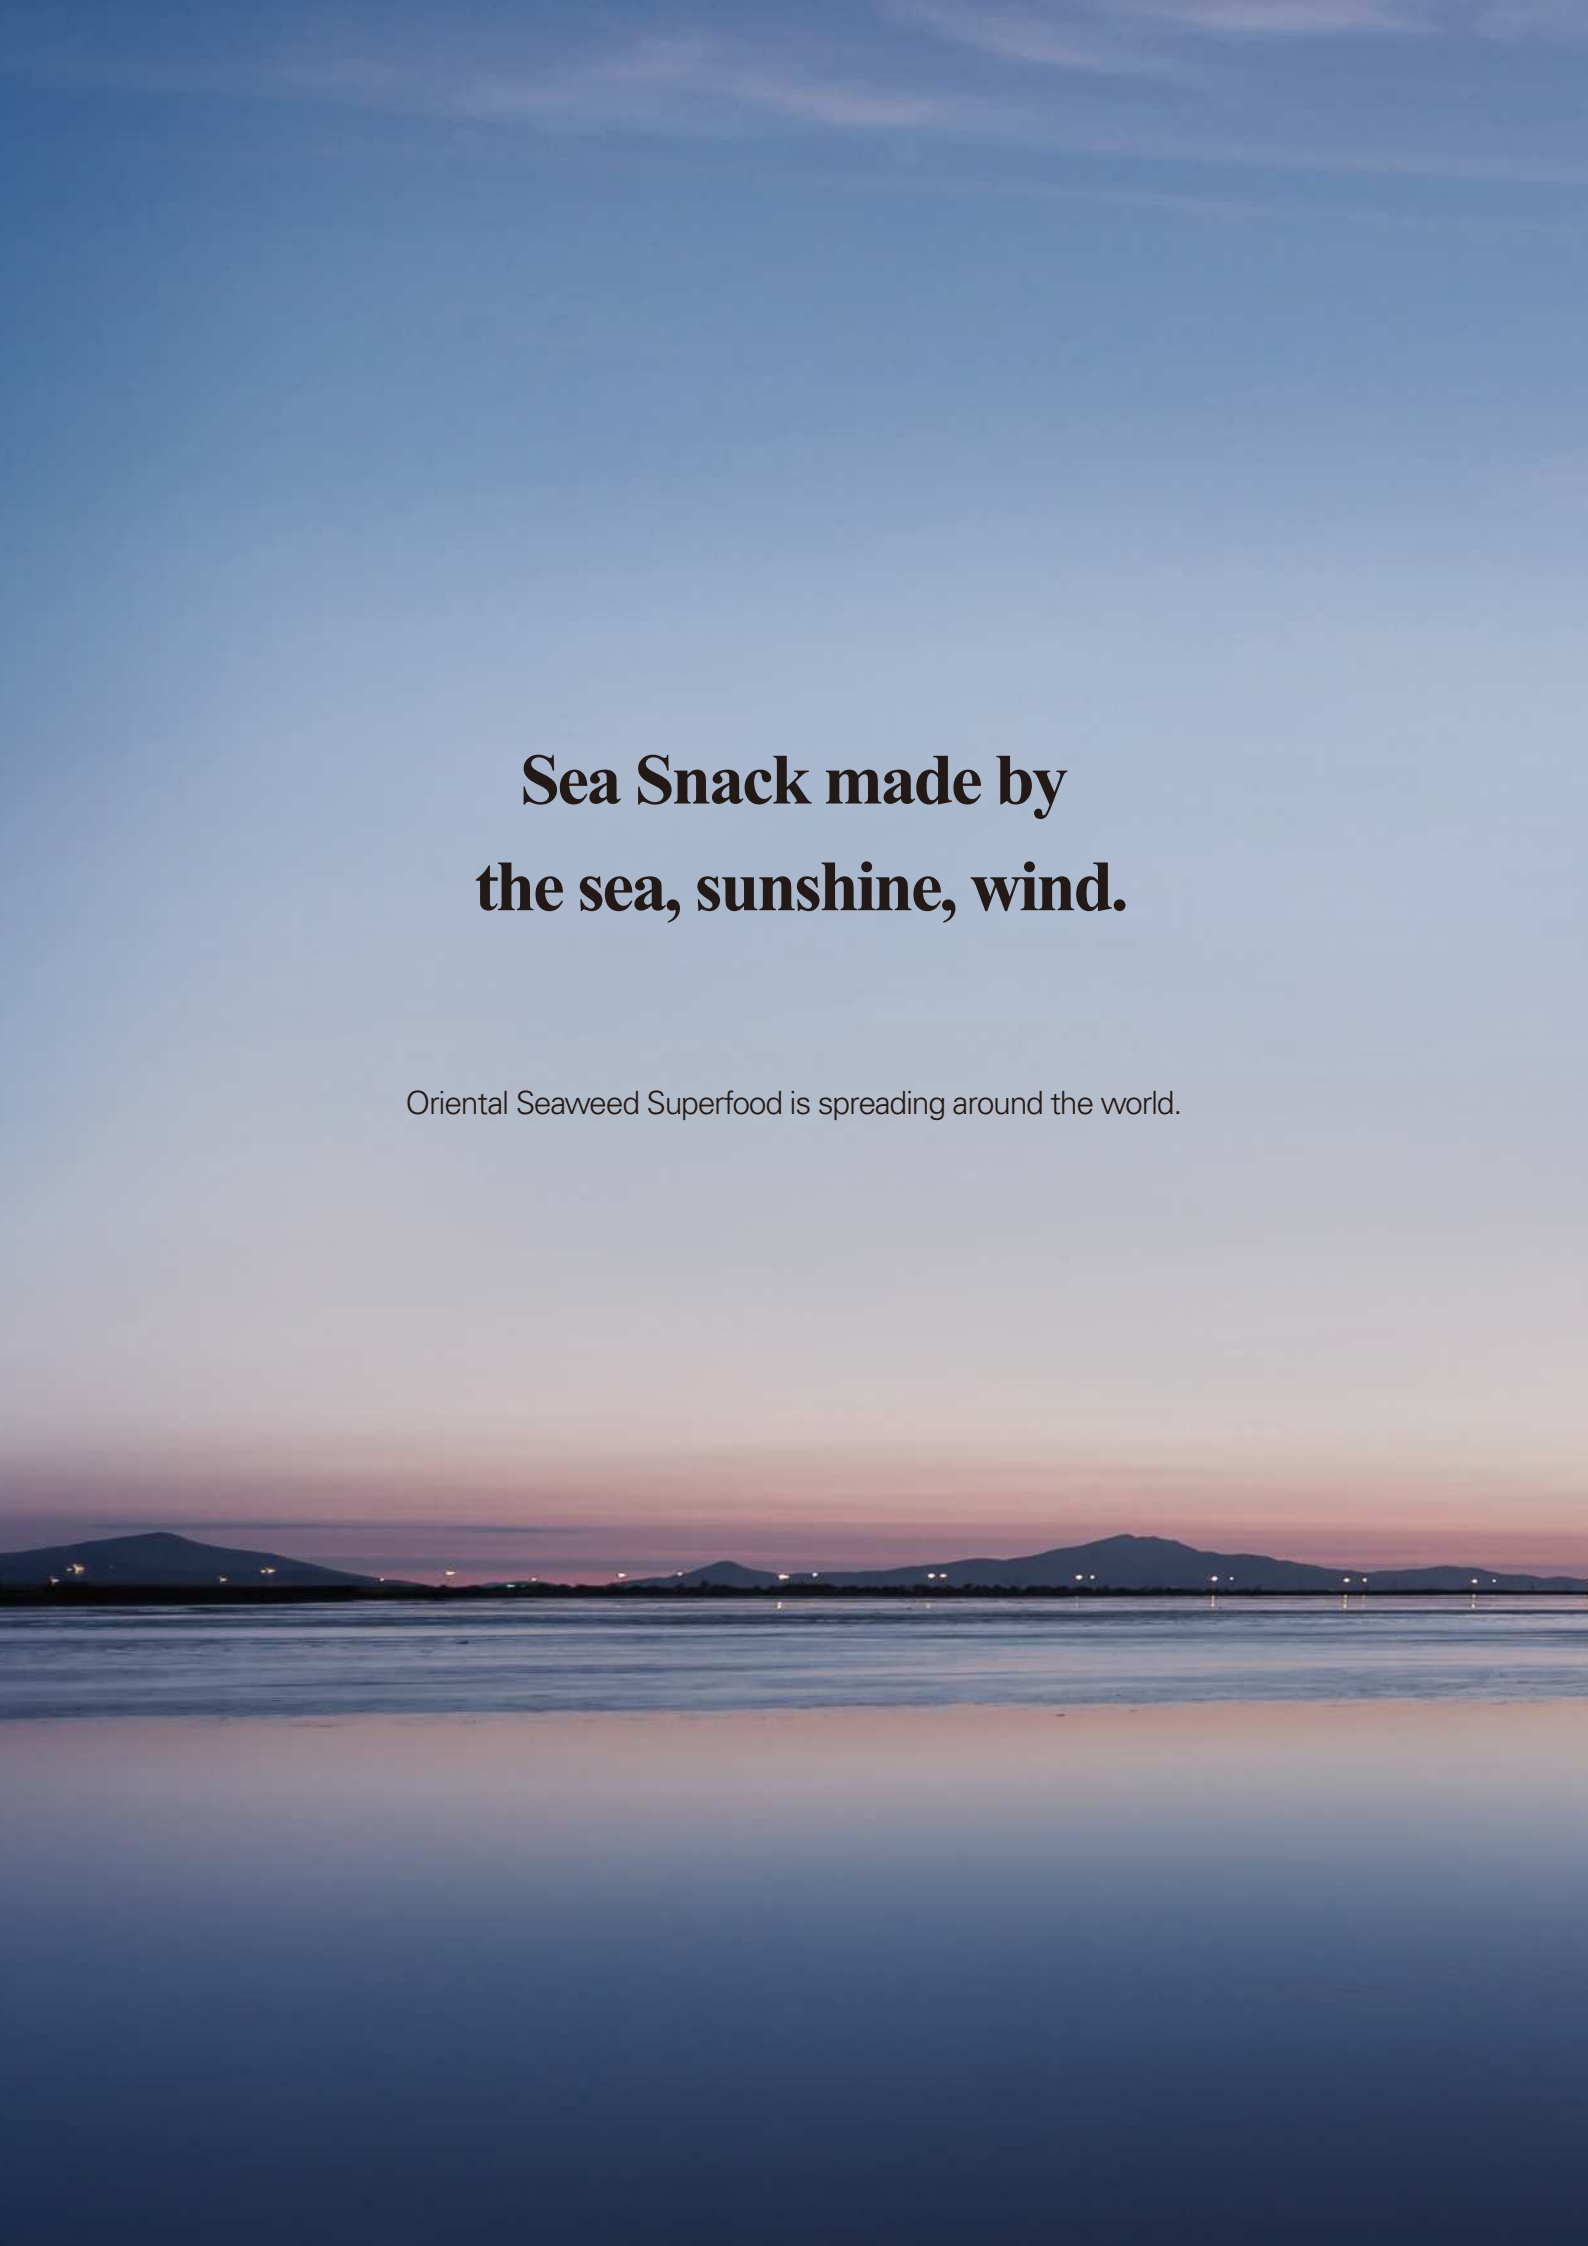

DYSSKOREA CO.,LTD

동양수산

DYSSKOREA

The background of the entire page is a photograph of a calm body of water at dusk or dawn. The sky is a gradient of soft blues and purples, transitioning into a warm orange and pink glow near the horizon. In the distance, a range of low mountains or hills is visible, with a few small lights reflecting on the water's surface. The water in the foreground is still, creating a clear reflection of the sky and the distant land.

# **Sea Snack made by the sea, sunshine, wind.**

Oriental Seaweed Superfood is spreading around the world.

Taste the gift of the winter sea

## **DYSSKOREA** is

The clean nature and water are preserved intact, and it is located in Boryeong-si, Chungcheongnam-do, South Korea, where the four seasons are distinct. It is a seafood manufacturing and distribution company with 30-year history since its foundation in 1989, and it is a seasoning seaweed production and seafood vendor that strives to preserve the original flavor of seaweed. In 2007, COMPANY established a new company called "DYSSKOREA" with hygienic facilities and automatic systems. It has HACCP and FSSC22000 certification and has seaweed's process R&D team. COMPANY does not seek short-term corporate profits, and COMPANY produce and sell products that contain the flavor and rich nutrition of Korean traditional products from all over the world. COMPANY is committed to providing hygienic, simple, and nutritious, safe marine products to fit the needs of busy modern people. COMPANY will do best to produce the best products until the day you all are all happy.

Taste the gift of the winter sea

## Company capability

### Safe and Sanitary Quality Control

Due to the nature of the dry seaweed concentrated in winter, we store fresh raw materials to be produced during the year at cryogenic storage facilities. Therefore, high-quality condiments can be provided throughout the year, and it is stored in low-temperature storage facilities until sea snacks were delivered to you. It is based on the international food safety certification HACCP and FSSC22000 and produces products with hygienic and systematic facilities and automatic systems.

### Universal Food

Based on Korean traditional seasoned seaweed manufacturing, COMPANY are developing seasoned laver products that suit the tastes of people all over the world. First of all, COMPANY developed CRISPY sea snack with Cumin in the Asian continent, and secondly, COMPANY is developing seasoned seaweed for world. COMPANY is trying to make favorite seasoned seaweed of the world based on Korean original food.

### First, Customer and Last, Company

COMPANY adheres to the principle of selling directly to Korean consumers, rather than choosing large distribution companies for growth. COMPANY is growing slowly, but through direct consumer reviews.

### The Organic Foods

COMPANY ultimately pursue the use of organic materials for their customers ' health, efforts to produce eco-friendly products, catering to catch the world to produce food.

FRESH & BEST  
CRISPY Sea Snack Korean original flavor

## 1 CRISPY Sea Snack Korean original flavor

Carefully selected raw seaweeds(lavers) are seasoned and roasted twice, and cut into the proper size to be packed in plastic containers. COMPANY "CRUNCH" and "CRISPY" original seaweed snack two kinds. Koreans use whole size(20g) seasoned seaweed as a side dish of rice. However, in countries other than South Korea, small amounts of seasoned seaweed are sold for snacks. It is the most popular traditional seasoned seaweed in the world, and its texture is soft and crispy. The quality of Korean traditional seasoned seaweed is determined by the quality of raw materials. We do not use raw materials of poor quality to provide some low prices, but we follow the principles of using high quality raw materials. In addition, we comply with HACCP and FSSC22000 sanitary systems and produce and provide the best products. This product feature smaller size than Whole size packing seaweed so as to enjoy conveniently. It also harmonizes well with other cuisines or as a snack with drink.

<b>Ingredients</b>	Seaweed(Laver), Corn oil, Sesame oil, Refined salt , Monosodium glutamate.

FRESH & BEST

CRISPY Soy sauce sea snack with sprouted oats

## 7 CRISPY Soy sauce sea snack with sprouted oats

General seaweed snacks have been pointed out as a problem with the excessive use of cooking oil and sodium. For consumers, DYSSKOREA introduce a new soy sauce seaweed snack that uses Korean brewed soy sauce without the use of cooking oil or salt.

By reducing sodium by more than 1/2 compared to existing products and not using edible oil, severe neurological symptoms and excessive fatty acid intake caused by excessive sodium intake are prevented in advance.

It is a product made to enhance the immune system of consumers by adding organic sprouted oat powder rich in beta-glucan ingredients.

DYSSKOREA hope you will take care of your health while recalling the memories of dried seaweed, which was dipped in Korean traditional soy sauce.

**Ingredients** | Seaweed(laver), Soy sauce, Fructooligosaccharide, Organic sprout oat powder

**Specification** | 3g per pack

**Daily output** | 3g × 50,000 packs

**Others** | Packing options are available
