

ECO-FRIENDLY WOOD CUTLERY

Green Circle Cutlery SIA

Our company

We are a wood product manufacturing and trading company based in Latvia. Our dedicated team with many years of experience within the wood industry is always focused on reaching customer needs.

As the main goal for us is customer satisfaction, our main goal is to bring the best quality at affordable prices to the market.

All our production is fully compliant with the existing quality certification requirements including TÜV Rheinland, FSC, SGS and is ready for rapid distribution and constant deliveries.

Precisely Right.

Wooden tableware

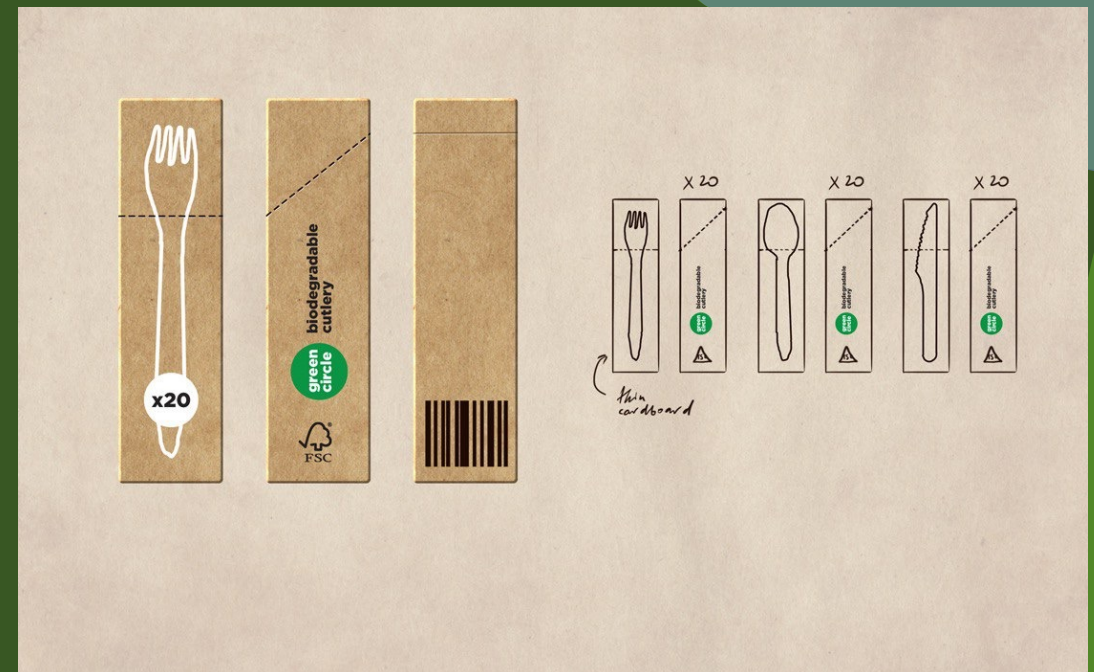

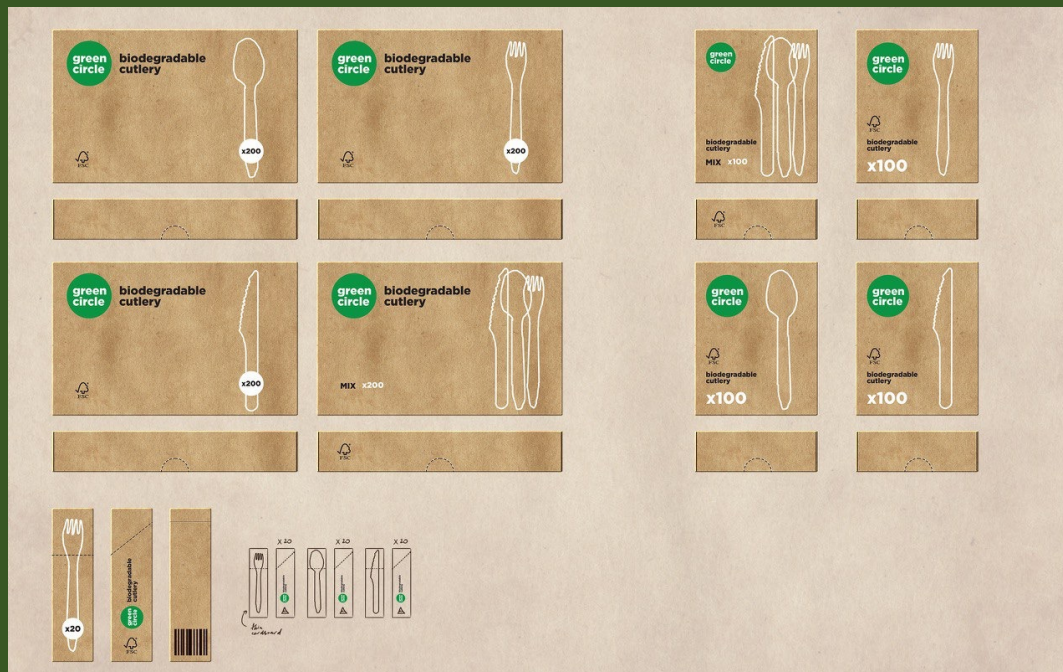

As you might know, single-use plastic cutlery is banned in European Union starting from 2021, other countries are also increasingly imposing strong restrictions on single-use plastic items.

We provide a great price-competitive solution to chain stores and food distributors, high-quality biodegradable, environmentally friendly wooden tableware.

All cutlery products are made from birch veneer, where Roundwood is supplied by FSC certified sustainable forestry companies.

Packaging

Usually, the goods are delivered in standard packages, the information about their sizes could be find in the next slides, but all the details are negotiable and packaging / sizes and design options can be tailored to client needs.

Available delivery capacities

- Available capacity now: 10 million pieces/month
- Currently under construction is our second production facility, planned annual output started with the year 2022 – 400 million pieces / annually
