

Introduction
of EONE Biotech Co., Ltd.

Next Generation Company of In-Vitro Diagnostic

EONE Biotech aims to extend and value human life through early diagnosis of diseases.

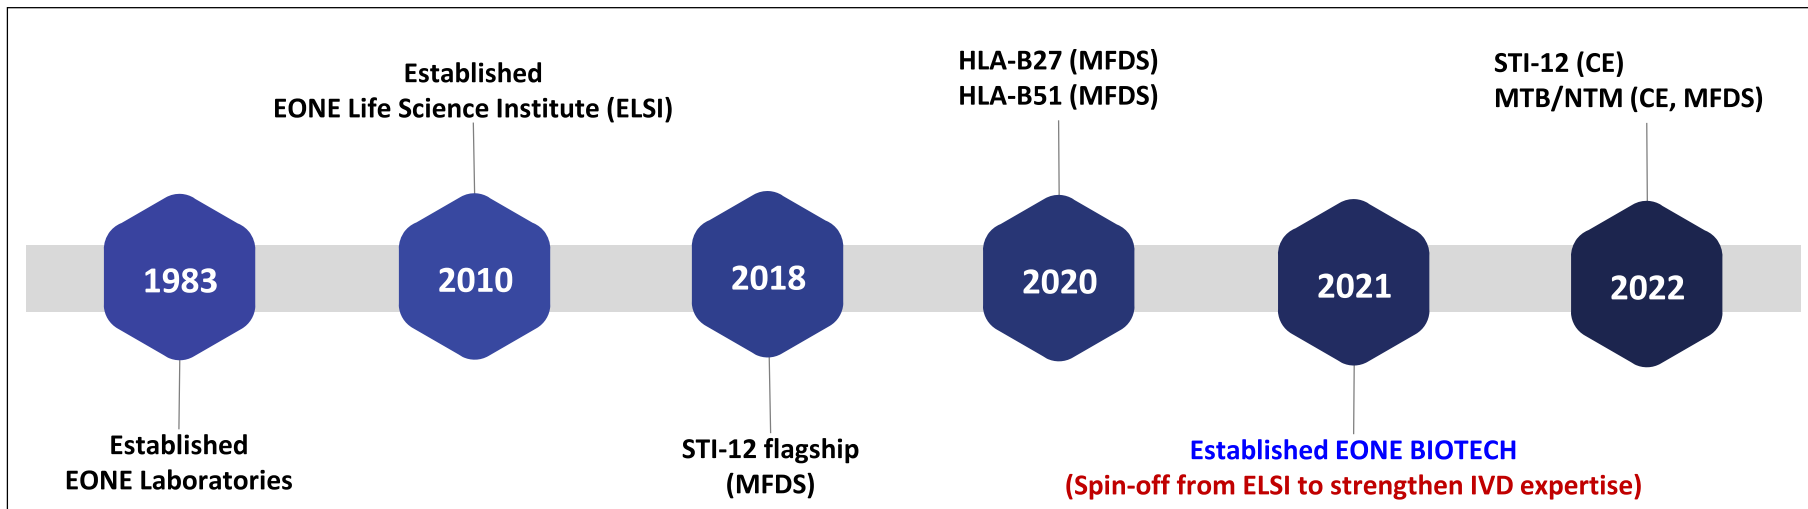

CONTENTS

1. Company Overview
 2. Core Competencies
 3. Industry Outlook
 4. Business Roadmap
-

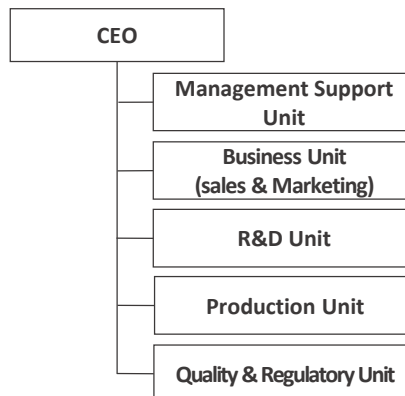

Company Overview

- History of EONE Medical Foundation (40th anniversary in 2023)

- Summary

Company	EONE Biotech Co., Ltd.
CEO	Dr. Jae Hyung (Jay) You
Founded	July 12, 2021
Revenue	\$ 5.5M (2022)
Employees	20 people
Website	www.eonebiotech.com

- Certification

IVD manufacturer certification (by MFDS)

Korean GMP (by MFDS)

ISO-13485 (by BSI)

- Affiliates of EONE Medical Foundation

**Nation's Best Reference Laboratory
within South Korea**

- Conducting all kinds of diagnostic tests
- Nationwide test supporting networks
- Twelve (12) International accreditations
- All-in-one automating testing system
- One day result analysis services
- Appointed as COVID-19 testing lab in Incheon International Airport since '21

- R&D on new diagnostic tests and services
- Governmental funding projects

- R&D on IVDs, especially molecular diagnostics
- Global business unit for EONE Laboratories
- Total solution provider as diagnostic CMO/CDMO

- Integrated medical IT solution
- R&D on diagnostic software program

- Genomics & Bioinformatics
- Liquid biopsy for early diagnosis of cancer

- Business of EONE Laboratories (left) and EONE Biotech (right)

Clinical Laboratory Services

The all-in-one automated testing system

International Accreditation

Laboratory Medicine Dept.

Molecular Microbiology

Molecular Oncology

Chemistry

Immunology

Microbiology

Hematology

Flow Cytometry

Newborn Screening

R & D Dept.

Clinical trial research

In-Vitro Diagnostic Business

Next Gene™

Providing Molecular Diagnostic Kits

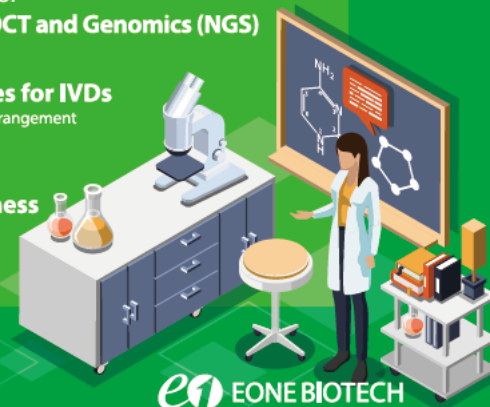

R&D – Manufacture – Product Approval – Global Sales

Exploring Cooperation with Global Distributors

Business Expansion for
Enzymes, Rapid, POCT and Genomics (NGS)

Global CRO Services for IVDs
including clinical specimen arrangement

Total Solution for
CMO / CDMO business
in the field of
In-Vitro Diagnostics

+86M

Test orders
from hospitals and
clinics in 2021

400K

Tests / day
The largest scale
automated testing
systems in Asia

+600

Human resources
Medical staff(23),
Medical technician(246),
R&D(20),
Marketing department(316)

36

Quality management
certifications
Global(12), Domestic(24)
Accredited in all
29 areas from CAP

e1 EONE Laboratories since 1983

e1 EONE BIOTECH

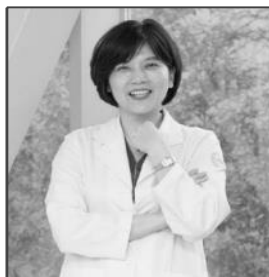

1) Diagnostic & Laboratory Experts

*Management Team

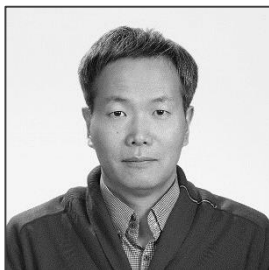

Jae-Hyung (Jay) You - Chief Executive Officer

- Chief Executive Officer, SolGent
- Executive Vice President, EDGC
- Marketing Director & CTO, Seegene
- Business Director & Head of R&D, Bioneer
- Ph.D, Microbiology, Chungbuk National Univ.

Dr. Gwi-Young Oh - Executive Vice President

- EONE Laboratories – Chief Lab. Director
- M.D./Ph.D., Laboratory Medicine, Ehwa Woman's University Hospital

Dr. Woo-Jin Kim - Scientific Advisor

- EONE Laboratories - Medical Doctor
- M.D./Ph.D., Laboratory Medicine, Hanyang University Hospital
- Fellowship, Yale Medical School

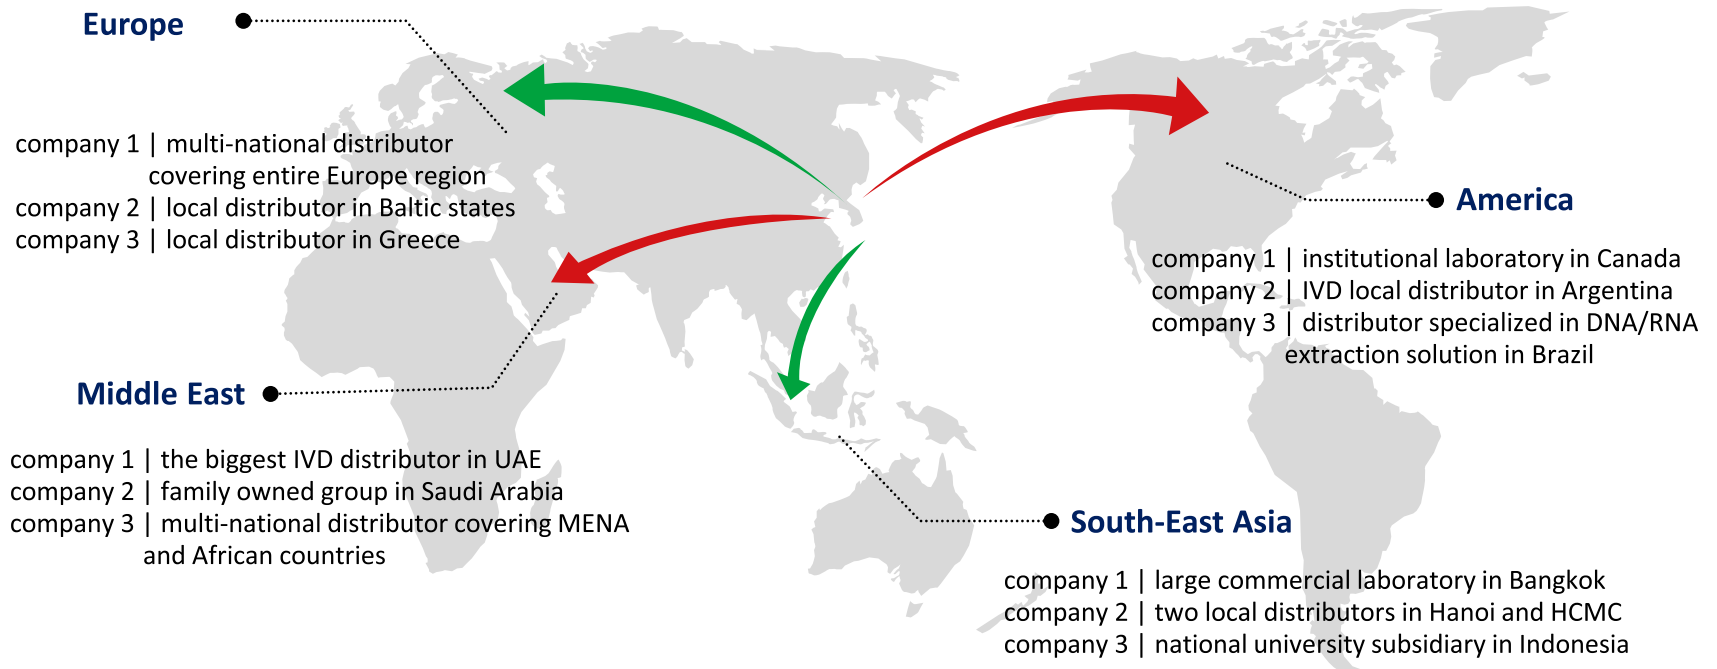

**Record of R&D activities & Governmental tasks

Year	Track Record
2022	[Ministry of Trade, Industry and Energy] Development of pre-processing and diagnostic system technology
	[Ministry of Trade, Industry and Energy] Development of Point-of-care testing system
2019	[Ministry of SMEs and Startups] Development of carbapenem-resistant intestinal bacteria diagnostic kit
2016	[Ministry of Trade, Industry and Energy] Development of rapid diagnosis technology for severe bacterial infections
	[Ministry of Science and ICT] Development of virus differentiation diagnostic kit
2015	[Small & Medium Business Administration] Development of Tuberculosis combo diagnostic kit

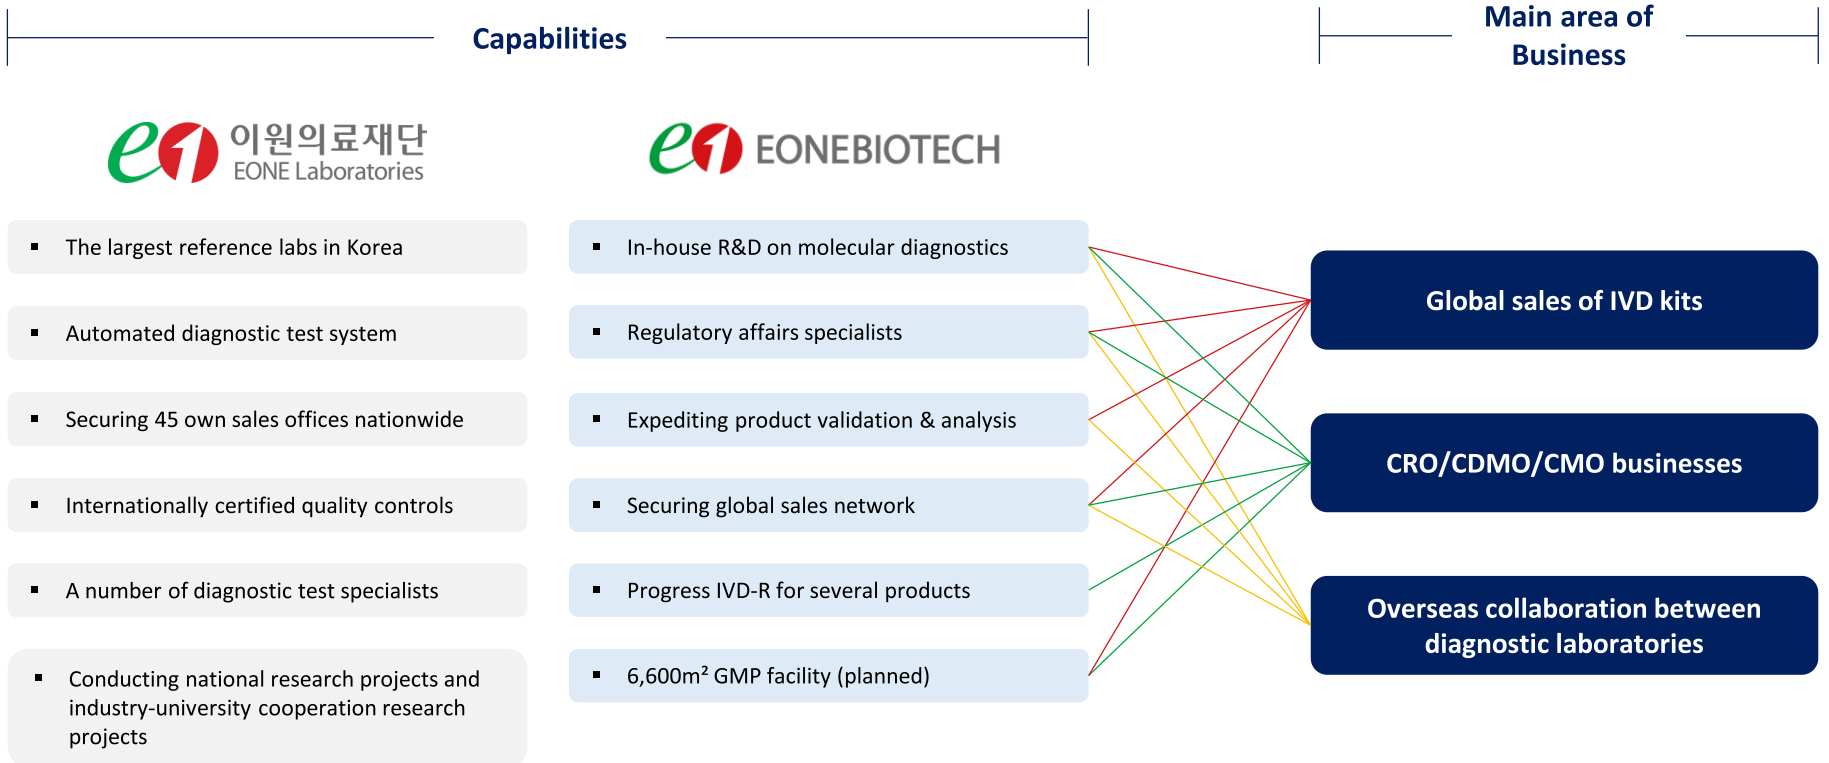

2) Global Sales Network

“Continue expanding supply chain for the sale of diagnostic products and services”

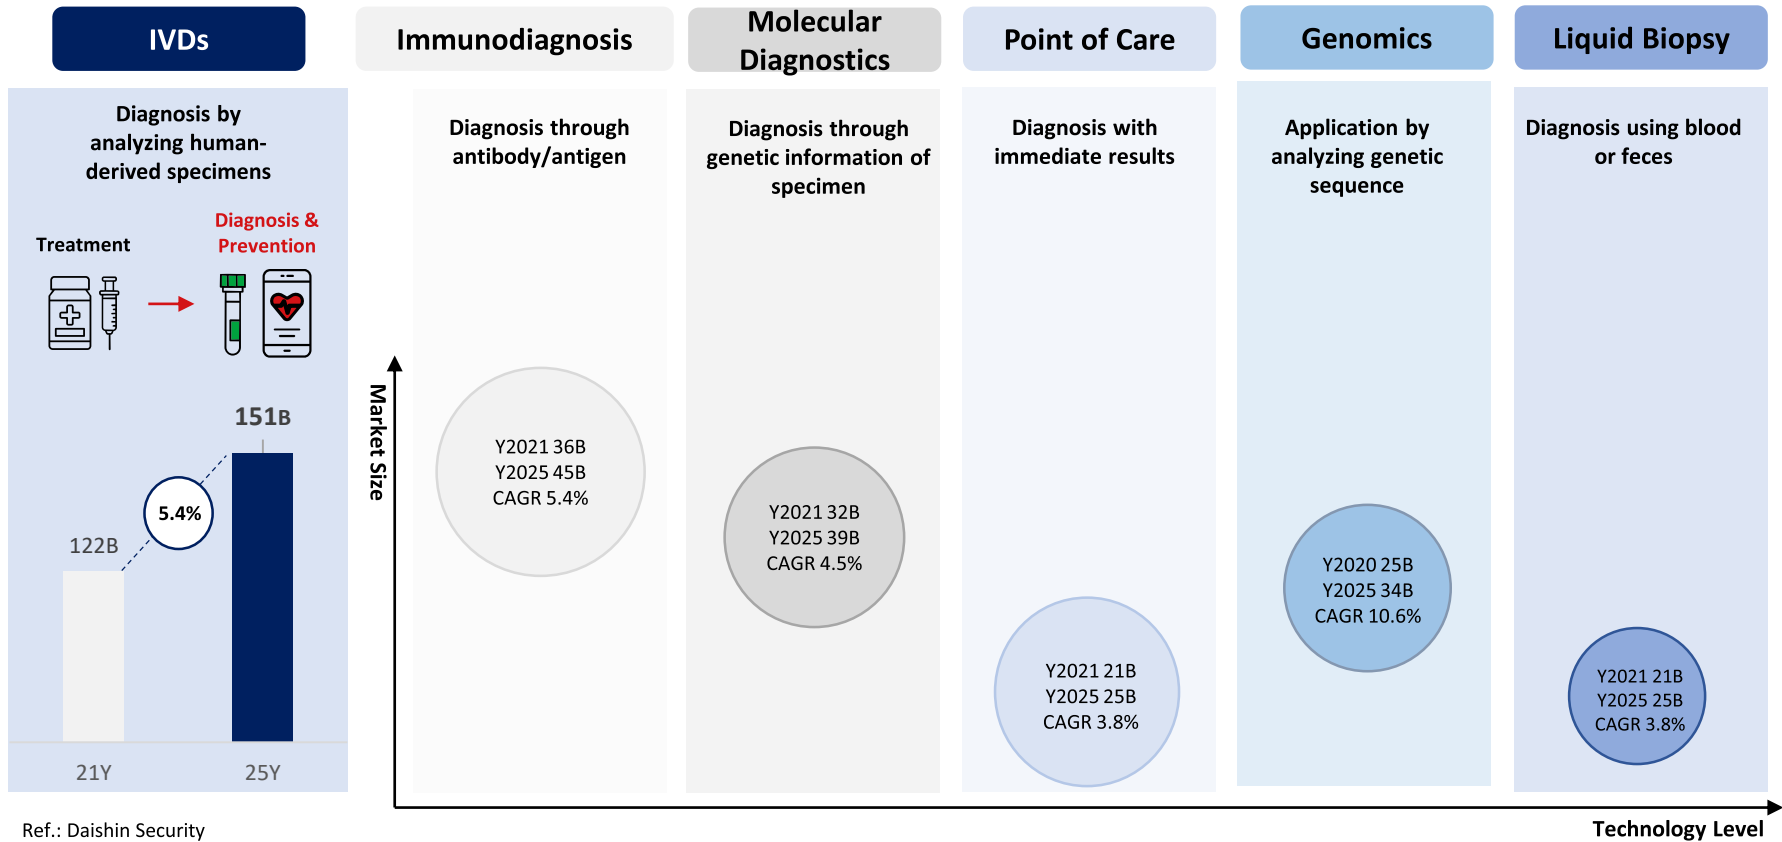

3) Various Experiences on Clinical Trials and Product Licensing Expertise

“Capabilities and synergetic structure between EONE Laboratories and EONE Biotech ”

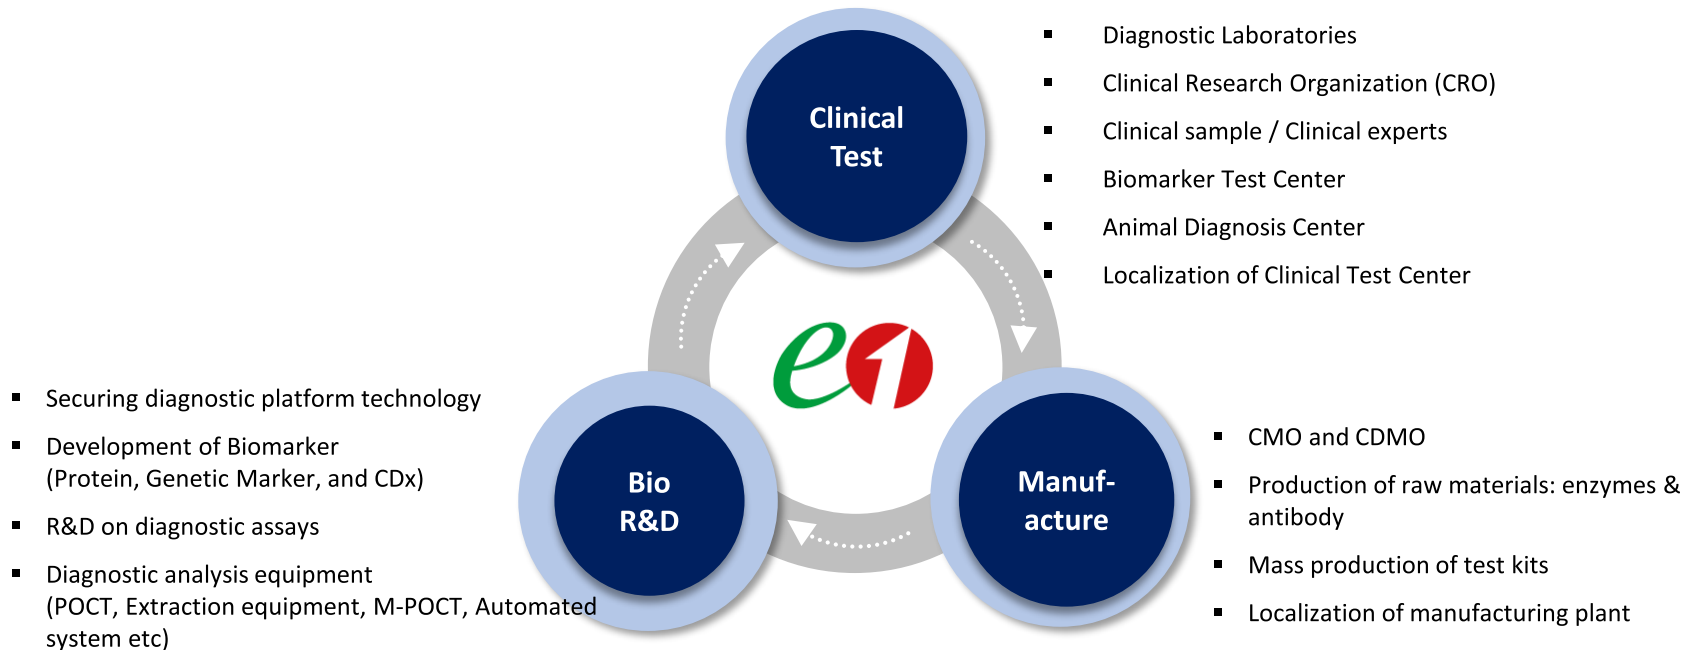

- Growth and popularization of in vitro diagnostics **while went through COVID-19 pandemic**

“From Treatment to Prevention, and Expansion to the Early Diagnosis”

- Business model (virtuous cycle)

“Establishment of a virtuous cycle structure: R&D ↔ Commercialization ↔ Clinical Application”

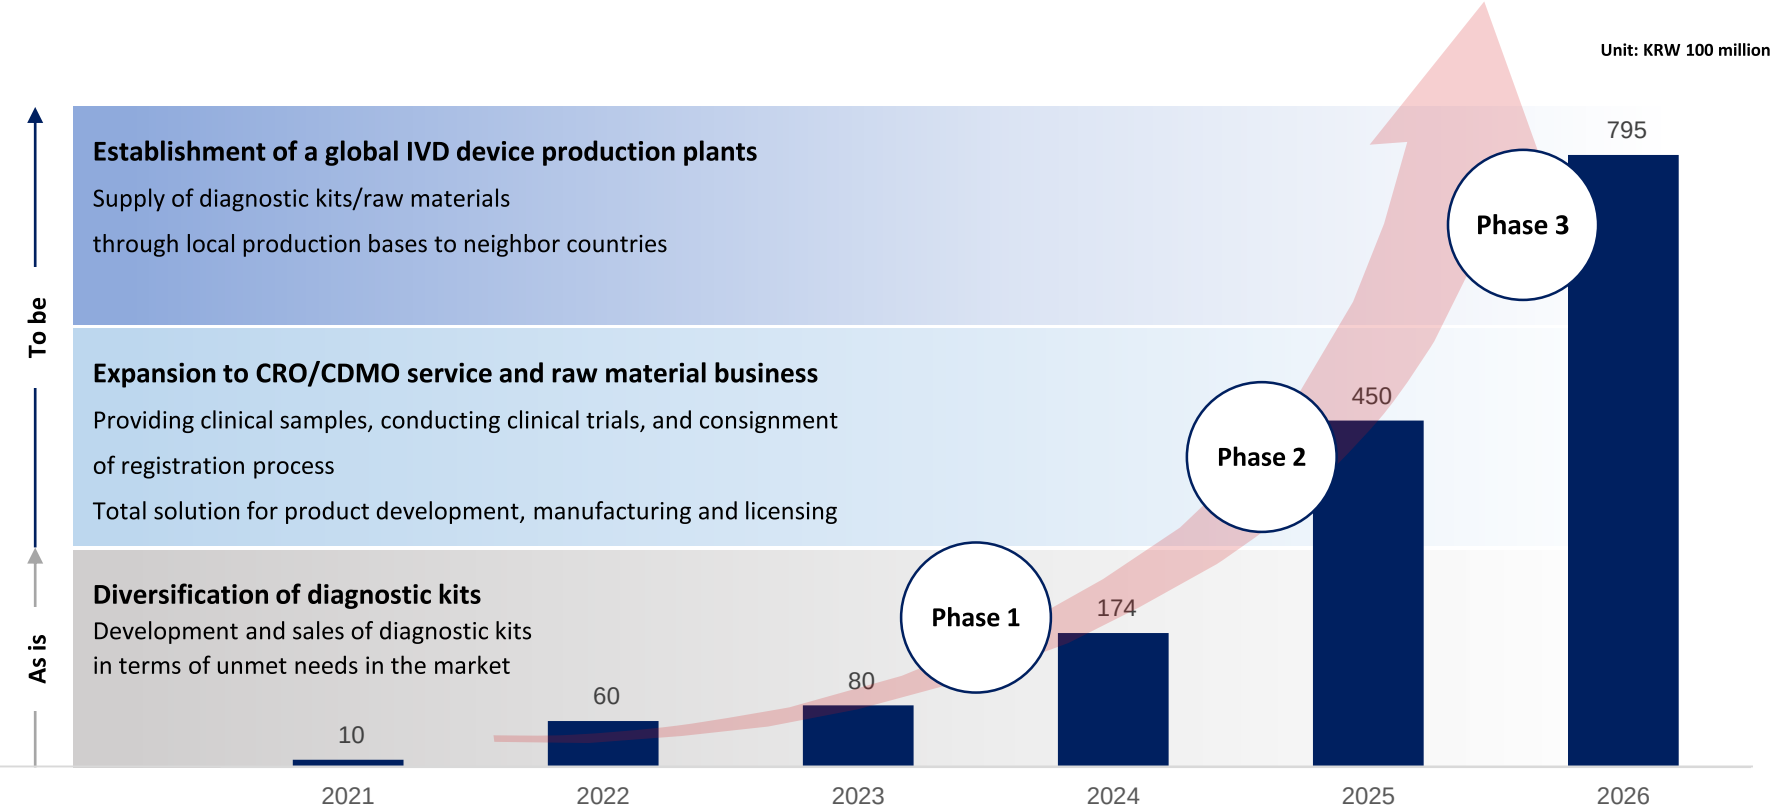

- Commercialization of MDx : Product Development Pipeline

Infectious Disease	NextGene™ STI-12 1/2 Detection Kit (성매개감염증)	Launched	CE, MFDS
	NextGene™ STI-12 3/4 Detection Kit (성매개감염증)	Launched	CE
	NextGene™ MTB/NTM Detection Kit (결핵/비결핵항산균)	Launched	CE, MFDS
	NextGene™ SARS-CoV-2/INF A,B/RSV Combo Detection Kit	In-development	MFDS by '23
	NextGene™ H.Pylori ClaR Detection Kit (헬리코박터균/약제내성)	In-development	MFDS by '23
	NextGene™ Varicellazoster Detection Kit (대상포진)	In-development	MFDS by '24
	NextGene™ Pneumonia Detection Kit (폐렴)	In-development	MFDS by '24
	NextGene™ P.jirovercii Detection Kit (폐포자충증(폐렴))	In-development	MFDS by '23
	NextGene™ HPV screening Kit (인유두종 바이러스)	In-development	MFDS by '24
	NextGene™ CRE Detection Kit (카바페넴내성장내세균)	In-development	MFDS by '24
	NextGene™ RV 8/16 Detection Kit (호흡기바이러스 8종/16종)	In-development	MFDS by '25
	NextGene™ GI 4 Detection Kit (소화기 감염 4종)	In-development	MFDS by '25
Genetic Disease	NextGene™ HLA-B27 Detection Kit (강직성척추염)	Launched	MFDS
	NextGene™ HLA-B51 Detection Kit (베체트병)	Launched	MFDS
	NextGene™ ApoE Detection Kit (알츠하이머)	In-development	MFDS by '23
	NextGene™ MTHFR Detection Kit (엽산대사이상)	In-development	MFDS by '23
	NextGene™ Avellino Detection Kit (각막질환)	In-development	MFDS by '25
	NextGene™ BRAF Detection Kit (갑상선암)	In-development	MFDS by '25

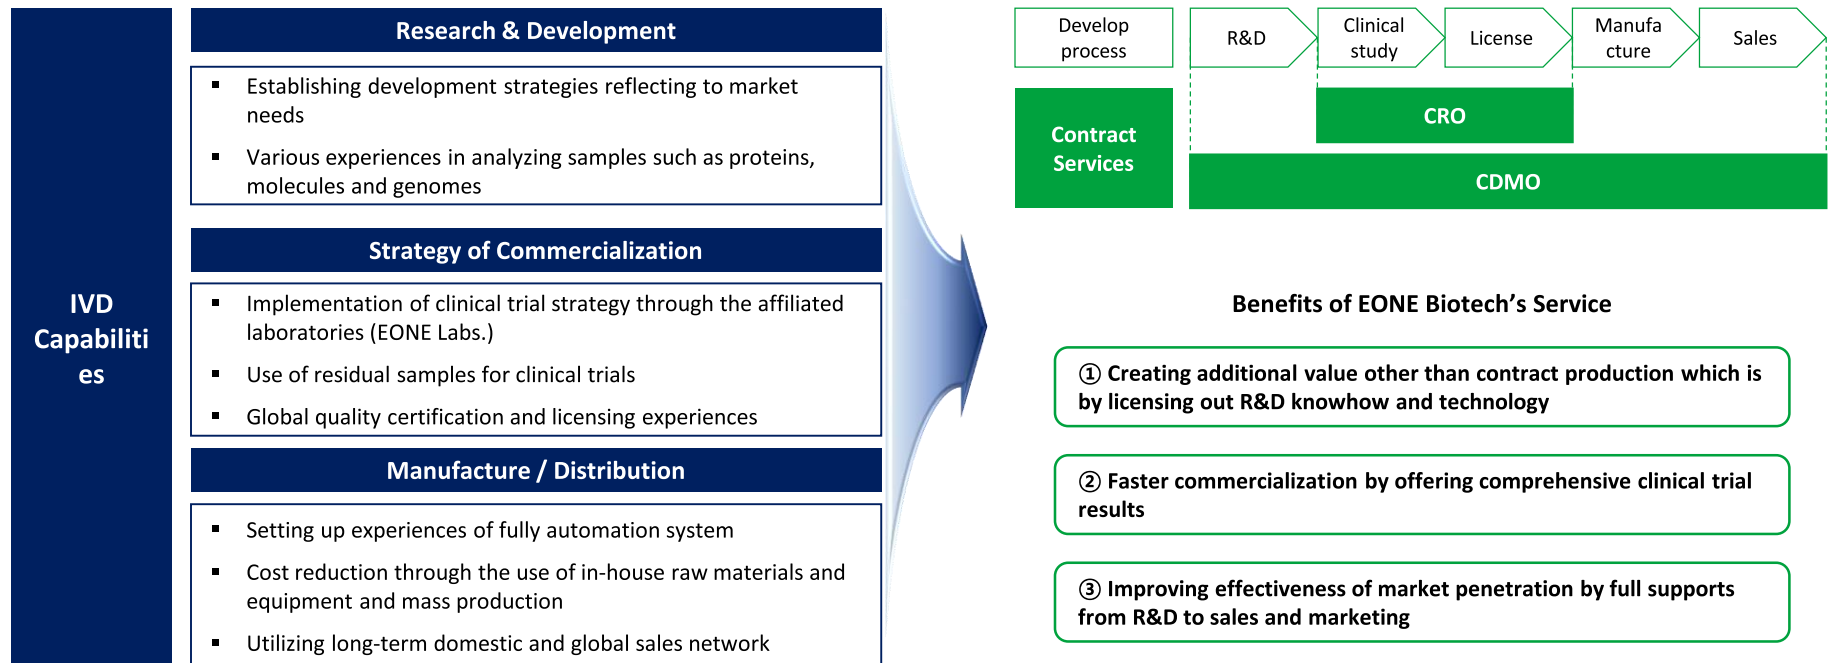

- Business expansion for consecutive growth

“Establishment of growth strategy for global commercialization of in-vitro diagnostic devices”

- Business expansion - contract services

“Promotion of CRO/CDMO business based on IVD business knowhow and capabilities”

EONE Biotech Co., Ltd. 3rd Floor, 291, Hamony-ro, Yeonsu-gu, 22014, Republic of Korea
