

Evdermia

dermaceuticals

**Original and
innovative
dermatological
products**

Evdermia Ltd was founded in 2005.

Our aim is to develop and present to the market original and innovative Dermatological Products that help Dermatologists face skin problems. Here in Evdermia we rely on the confidence of our consumers as well as the doctors.

The high ranking of Evdermia Ltd amongst Greek consumers is the result of our devotion on our primary goal of providing prime and direct services to our clients.

We are committed to keep providing excellent consumer services through pharmacies as well as seeking innovation and creating new alternatives in our area of business, with priority in improving life quality for our customers.

Evdermia products are available in the following countries:

Greece, by “Evdermia Greece”

Cyprus, by “Evdermia Cyprus”

Serbia, by “Evdermia Serbia”

Albania and Kosovo representative, “Florfarma Pharmaceuticals”

Turkey representative, “Sandec Medical”

Products

Evdermia creates original and innovative dermatological products. The products are produced and packed in GMP certified laboratories of high standards in compliance with the Greek Drug Organisation (EOF) requirements.

Evdermia products offer a guaranteed solution for meeting skin care needs.

Product categories:

Oily skin, acneic or with a tendency to develop acne.

- Palmetin cream
- Caladerm cleanser

Hair care including hair loss and skin care

- Revolution
- Palmogen hair lotion
- Palmogen soft gel
- Sandal shampoo
- Ceramis shampoo

Anti-Ageing Products

- Silken face Serum
- Silken face Day cream moisturising and sun protection SPF40

Skin care

- Ato cream
- Ato Body cream

There is an ongoing pipeline research by Evdermia for the design and development of new products, to live up to the high expectations of doctors and consumers.

Three groups of active ingredients
Three actions in one lotion.

With active ingredients such as:

**Oligopeptides, Saw Palmetto, Biotin,
Amino Acids, Panthenol**

**WE CHANGE THE APPROACH AND TREATMENT OF
HAIR LOSS**

Evdermia innovates in the treatment of hair loss by
creating Revolution, a product that combines for the
first time:

- **Anti-aging agents**
- **Antiandrogens**
- **Moisturizing and feeding stimulation
agents**

By using Revolution with the original and unique
combination of its components, we achieve a visible
and fast result such as:

- **Significant and rapid reduction of hair
loss,**
- **Rejuvenation of scalp and hair follicles,**
- **Vellus hair reduction**
- **Terminal hair density increase**

In a clinical study with the use of digital methods it
was observed:

70.31% Terminal hair increase.

60ml e

diffuse
hair loss

androgenetic
alopecia

Application:

Four to five sprays on the scalp (from a short
distance) twice a day.

If the hair is thick enough, use the special nozzle
contained in the package for better application.
Lightly rub hair skin after each application for better
absorption.

Use without a time limit.

Microbiologically and dermatologically tested.

Palmogen soft gel

SAW PALMETTO BERRY EXTRACT 320 mg/caps
DIETARY SUPPLEMENT

Ingredients:

Saw Palmetto Berry Extract, Gelatin, Glycerin, Purified Water

About Saw Palmetto Extract

Serenoa repens is the medical term for saw palmetto, a plant resembling a palm tree, producing fruit similar to blackberries, the extract of which has been observed to have many healing properties.

Studies have shown that saw palmetto is an effective anti-androgen. Firstly, it lowers levels of DHT(dihydrotestosterone) in the body by blocking 5 alpha-reductase. Secondly, Saw Palmetto blocks receptor sites on cell membranes required for cells to absorb DHT.

Dosage

The typical dose of 320 mg of extract per day (one soft gel capsule), is standardized to at least 85-95% fatty acids and 0.2-0.4% sterols.

("Standardized" means you get the same amount of active ingredients every time).

You can safely take the recommended dosage, preferably with food.

Do not exceed the recommended daily dose. Food supplements should not be used as substitutes for a balanced diet.

diffuse hair loss

androgenetic alopecia

post-menopausal hair loss

It is not suitable for pregnant or breastfeeding women and those who are under 18.

The product should be kept away from children.

Contents: 30 soft capsules

Palmogen hair lotion

A specialized formula for the hair and scalp.

Active ingredients based on clinical research:
