Sanitary Pads

More makes a difference.

Combining top absorbency levels with exceptional skin-friendliness.

Pantyliners

Feminine hygiene is the area of expertise of MEGA Disposables S.A. Armed with 40 years of production know-how and deep consumer knowledge, gathered through qualitative and quantitative research, MEGA has become a specialist in femcare. Our sanitary pads and pantyliners provide a unique combination of top absorbency levels and exceptional skin compatibility.

Innovative product design.
Superior product quality.
Exceptional skin-friendliness.
Top absorbency levels.

Sanitary Pads

EveryDay pads offer several innovations, that provide a distinct difference as end benefit to consumers.

Sensitive concept

“Sensitive” concept is an undeniable value in personal hygiene and in the category of sanitary napkins, it was first introduced by MEGA S.A., with the brand **EveryDay**, in 1997.

Through regular consumer research, MEGA S.A. discerned the unquestionably growing need of contemporary women for **protection without irritation**, as well as the trend towards selecting **skin-friendlier materials**.

Hence, with a view to meet the special needs of sensitive skin, by offering not only top absorbency levels, but also exceptional skin-friendly properties, our company responded by creating in 1997 a true innovation: **the first ever “Sensitive” sanitary pad worldwide**, which as opposed to the plastic film that regular pads have, featured a uniquely **skin-friendly topsheet made of fibers, that came in contact with the skin**.

Consumers’ response to this extra hygienic proposal was such that **EveryDay Sensitive** became Greece’s fastest growing brand in the category of sanitary pads, enjoying ever since exceptionally high consumer loyalty and the **1st position in the market, within sensitive pads, in Greece**.

However, as a brand inextricably linked to innovation and extra hygienic protection, we never ceased to search for solutions that would allow our products to offer enhanced absorbency and unique skin-friendly properties. Today, we are proud to introduce yet another double innovation: the new **EveryDay Sensitive with cotton pads, featuring the revolutionary “Center Plus” technology** and a uniquely hygienic topsheet made of fibers that **contain natural cotton!**

Center Plus

The revolutionary “Center Plus” technology, featuring an extended core in the center of the pad, that ensures up to **30% more absorbent surface** compared to other ultra pads, offers unique side leakage protection, where it is needed most.

Special sizes

In addition to standard sizes (Normal, Super, Maxi Night) EveryDay pads are also available in unique special sizes:

26% shorter
compared to EveryDay Normal

MINI

NORMAL

SUPER

MAXI
NIGHT

EXTRA
LONG

40% longer
compared to EveryDay Normal

Exclusive sizes:

- **MINI: 20% smaller**, compared to EveryDay Normal, ideal for cases of light flow.
- **XL: 40% longer**, compared to EveryDay Normal and with two sets of protection wings, one in the middle and one at the back, ideal for night use or cases of very heavy flow.

Recommended by the Greek Union of
Gynaecologists and Obstetricians

Dermatologically tested

EveryDay pads are available in several tiers, to best fit individual needs.

EveryDay Hyperdry pads feature an extra dry topsheet, providing fast absorption of moisture and a dry feeling. Suitable for heavy flow. With “Center Plus” technology to minimize the risk of side leakage.

Tested according to
Oeko-Tex® Standard 100

*compared to standard
EveryDay ultra thin pads.

Double innovation. Double protection!

Extra hygienic topsheet that contains cotton.

The new **EveryDay Sensitive with cotton** feature a uniquely hygienic extra soft topsheet, enriched with cotton fibers, providing safe protection from irritation and unmatched skin-friendliness, with a touch of cotton!

Revolutionary “Center Plus” technology.

In addition to enhanced skin-friendliness, the new sanitary pads **EveryDay Sensitive with cotton** also offer enhanced absorbency. Thanks to the revolutionary “**Center Plus**” technology, featuring an extended core in the center, they ensure up to 30% more absorbent surface in the center, compared to other ultra-thin napkins, thus offering maximum protection from side leakage, where it is needed most.

Double Dry Concept

EveryDay has introduced one more pioneering tier: the **Double Dry pads**. With super-absorbent topsheet, protection wings and an **innovative core of double absorbing capacity that retains up to twice the quantity* of moisture**, these pads are specially designed for cases of very heavy flow or night use. Moreover, thanks to the revolutionary "**Center Plus**" technology, featuring an extended core in the center, that ensures up to 30% more* absorbing surface, they offer unique side leakage protection, where it is needed most.
