# WORKING WITH PICOSTECH LABORATORIES

PICOSTECH LABORATORIES will work you to meet your business requirements. We offer:

## **Contract Manufacturing**

You bring your formulations, ingredients and packaging and we will manufacture for you.

## **Turnkey Contract Manufacturing**

We will make your formulation and purchase all of the ingredients and packaging for you.

## **OEM (Original Equipment Manufacturer)**

We have stock formulations and can package in your brand.

## **ODM (Original Design Manufacturer)**

We can manage every part of the process from R&D, brand design, manufacturing and packaging.

# RESERCH & DEVELOPMENT

## **AT PICOSTECH LABORATORIES**

we have invested in state of the art equipment to assist our internationally well qualified product formulators to make the most innovative products to suit your brand and customer's needs. We take your brief and create superb formulations or you can choose to take formulations . we have in stock and personalize them with your brand signature. We are experts in creating natural, therapeutic and mainstream formulations across many product categories.

## **In-house Claims Testing**

We offer a service to our clients to have the product claims tested in-house. We can do "before and after" studies measuring wrinkle depth, moisture levels, pigmentation and changes in skin texture and plumpness. This provides assurance to the marketing team regarding the product efficacy.

## **Sample, Pilot and Scale Up**

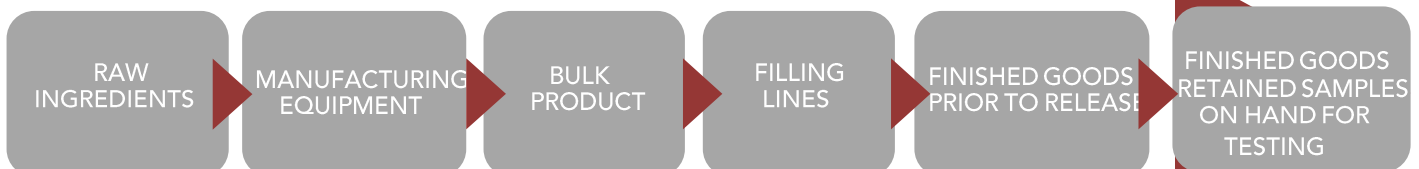

We have state of the art small batch vacuum vessels to make up to 160kg for clients. This enables companies to use these small runs for regulatory testing, marketing and sales activities prior to scale up full production.

## **Manufacturing and Filling**

PICOSTECH's progressive manufacturing facilities are amongst the most capable and technologically advanced in the industry. We have machinery to effectively mix the batches from vacuum sealed vessels through to a multi-head, camera calibrated fully automated filling line. We produce batches from 160 kg to 4,400 kg. Packaging we fill includes: bottles; jars; tubes - plastic, metal and airless; lip balms and closures include induction, caps, pumps and sprays. We will help you choose packaging styles that can cost effectively be filled on our lines.

## **Quality Assurance and Quality Control**

Quality is the basis for PICOSTECH Laboratories. We test at every stage in the production process so you can be assured of a quality product.
