

F-PROTEKKT[®]

F-PROTEKKT is developed with an intention to provide effective protection against accidental fires that may arise in closed compartments like vehicle engine compartment, generator sets, control panels, server cabinets, electrical distribution boards, inverter cabinets, etc. by automatically detecting the source of fire. The system has been designed in a way that it operates automatically and suppresses fire at source even when individuals are absent.

How it works?

Specifications

- Working Temperature: 120°C for cars and 80°C for panels
- Storage Temperature: -40°C to +90°C
- Shelf Life: 5 Years

Sizes and Coverage

Length of Tube (cm)	Max. Volume Coverage for Vehicles (m ³)	Max. Volume Coverage for Electrical Panels (m ³)
100	0.33	0.44
200	0.64	0.85
300	0.95	1.26
400	1.25	1.65
500	1.55	2.05
600	1.95	2.55

QUICK & EASY TO INSTALL

SLEEK & FLEXIBLE DESIGN

LONG LIFE & COST EFFECTIVE

NO MAINTENANCE REQUIRED

AUTOMATIC ACTIVATION

ECO-FRIENDLY & NON-TOXIC

LEAVES NO RESIDUE

CAUSES NO HARM TO CAR PARTS
