1. Natural Fermented & Ripen Modam Solid Shampoo Bar (CP : Cold Process)

Modam Solid Shampoo Bar is made from 100% natural pure ingredients without addition of artificial chemicals. The shampoo bar contains 20 types of herbal ingredients that prevent hair loss, such as Artemisia Sieversiana Willd, which has anti-inflammatory to cure bedsores and antioxidant effects, as well as eoseongcho, green tea, fennel, pine needles, mint, persimmon leaves, black ginseng, black garlic, rosemary, moringa and so on. Fermentation and ripening technology developed by Modam eliminates the toxicity from natural ingredients and maximizes the absorption rate of nutrients of herbs. When you wash your hair for the first time with the Modam shampoo bar, the inflammation of the scalp will be decreased, the hair will thickens, and if used continuously, you can see the hair grows new. It is also good for improving various scalp troubles such as itching caused by scalp dryness and dandruff. The product has already been verified by the authorized institute as KTR, KCL, and KDRI.

- Core raw material: Artemisia Sieversiana Willd

<Test report for anti-inflammatory>

Artemisia Sieversiana Willd, the core raw material of Modam solid shampoo bar, is a good medicine that can cure bedsores because of its high anti-inflammatory level according to result of research at Kyunghee Oriental Hospital. It is planted one and only in Korea that was germinating and cultivating itself since 2013 in Modam and has a patent for its composition. The disadvantage of natural soap, which is weak against humidity and making less foam, is supplemented by using Artemisia Sieversiana Willd. Kyunghee Oriental Hospital is currently preparing research paper for Artemisia Sieversiana Willd.

<Cultivated Artemisia Sieversiana Willd, dried Artemisia Sieversiana Willd>

Modam solid shampoo bar was taken clinical test at KDRI and confirmed that it is effective for hair growth. In addition, KTR and KCL have been certified for anti-inflammatory and anti-oxidation effects. Modam has increased export capacity by registration for FDA in USA and CPNP in Europe.

- Manufacturing natural hand-made soap

Modam natural solid shampoo bar is hand-made product

<Manufacturing process using watermelon>

Unique manufacturing process using watermelon obtained Korea and US patents. Modam manufacture competitive high-quality products with such a own technology. In addition, it is suitable for use in countries with high humidity by compensating for humidity sensitivity and less foam, which are disadvantages of hand-made soaps.

제 조 공 정 도(CP : Cold Process)

< Manufacturing Process (CP : Cold Process)>

1. Preparation of raw materials (medicinal herbs)
Medicinal herbs Extraction
\rightarrow Fermentation \rightarrow dry \rightarrow smash
2. Mixing
Metered and added Carrier oil and EM fermentation solution
\rightarrow Agitating Oil and raw materials
3. Warm & Fermentation
Pour into mold and keep it warm and Aging for 72 hours
4. Cutting
As standard size & weight
5. Aging
Aging for more than 3 months on drying rack
6. Packaging & Storage
paper package
\rightarrow Inner small box package
\rightarrow Carton box packing
\rightarrow Storage and Export

Modam natural solid shampoo bar is made using EM fermented solution rather than normal purified water. We do not sell it immediately after production, but take 3-month ripening period (CP: Cold Process) manufacturing process. We directly manage all manufacturing processes (6 steps) from material control to packaging.
