

Digital writing solution Digital data capture technology

## Paperless processing with digital writing.

Anoto Live™ is a time-saving, cost-efficient and self-contained digital writing technology that transfers handwriting to computers in realtime. Anoto Live™ transfers, updates and converts handwriting to processable data allowing enterprises to process, validate and analyze data from electronic documents more effectively than before.

Anoto Live™ is a realtime document handling system that is compatible with existing workflows. In addition to being a turn-key solution, Anoto Live™ consists of hardware and software that are universally compatible and customizable to any industry.

### 1 Handwriting to computer

Anoto Live™ moves handwriting to computer in realtime. Anoto Live™ is a set of hardware and software tools—digital pens, forms generating software, and enterprise solutions—that enables handwriting to transfer directly to digital media within offices or from remote locations.

### 2 Document handling automation in realtime

Anoto Live™ automates document handling in realtime. Anoto Live™ automates archiving and distribution of unlimited quantities of documents. Anoto Live™ is universally compatible, scalable and also available to be customized to meet the needs of any industry and company size.

### 3 Processable data with WorldWide reach

Anoto Live™ converts handwriting to processable data and electronic documents. With business-critical digital writing tools, Anoto Live™ delivers worldwide reach for managing electronic documents and processing data in realtime maximizing workflow productivity.

## Digital writing solution

From days...**to seconds**  
with paperless processing  
productivity solution.

Anoto Live™ offers paperless processing with digital writing. Anoto Live™ technology simplifies mobile data capture by automating document workflow. It is the ultimate productivity tool for business-critical paper management.

Anoto Live™ eliminates multiple manual processes and time-consuming phases. Recorded data is secured with encryption, transmitted, routed and archived for easy retrieval. Anoto Live™ automates document handling. This packaged solution is created specifically for small to enterprise-grade businesses within industries such as bank and financial services, healthcare, facility management, pharmaceutical, oil and gas, transportation and logistics, government and education.

**Traditional**  
paper based processes

### Challenges

Processing issues  
Billing cycle issues  
Cashflow issues  
Delivery issues  
Customer dis-satisfaction

**Anoto Live™**  
digital writing processes

### Benefits

Increased productivity ✓  
Operational efficiency ✓  
Cashflow control ✓  
Rapid delivery ✓  
Customer satisfaction ✓
