CEO Message

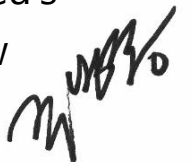

C.E.O
Joo Young Jong

Ace Electronics is constantly striving for greater satisfaction and pleasure for our customers and realizing the new value of Home Appliance.

Since its foundation in 1999, Ace Electronics has been producing the best products with customer-oriented management, new technology development, differentiated design and strict quality control, and today it has been loved by customers.

Over the past 20 years, we have laid the cornerstone of revival along with external growth, and the coming 20 years will evolve into Korea's electronics leading company through the new momentum of Ace Electronics.

A handwritten signature in black ink, likely belonging to the CEO, Joo Young Jong.

1-1. ACE Electronics' Introduction

ACE has consisted of vacuum cleaner specializer taking on both superior hardware engineers and investing R&D field just after establishment.

Variety of certificates such as GD, Q, UL and CE for overseas & domestic market have been acquired through product development and overseas marketing. Finally, unique design has been selected as 10th superior household product exporters. For 'Quality Management', ISO9001 / 14001 are acquired, now focusing on total household electronic product maker.

ACE has showed and launched wide variety of household appliances on its own brand 'SSAKS' such as blender, portable vacuum cleaners, humidifiers for home art. Its strive has been connected to overseas marketing together with optimum and sophisticated product supply.

As a vacuum cleaner specialist, ACE has dominated wired handy type market projecting and participating International electronics fairs competing conglomerate makers for domestic market.

Recorded U\$10,000,000 for overseas market. Finally, one of conglomerate companies for household appliances has been merged by ACE in 2009

02 New Product ACE K-9

1. ACE K-9 Summary
2. Feature & Specification

2-1. ACE K-9 Summary

A

Authentic

400W Smart Digital Inverter motor and 5 stages of filtering system deliver the authentic experience of cleaning.

C

Creative

Taking advantages only from Stick-Type cleaner and Gun-Type cleaner by adapting Up & Down design.

E

End User

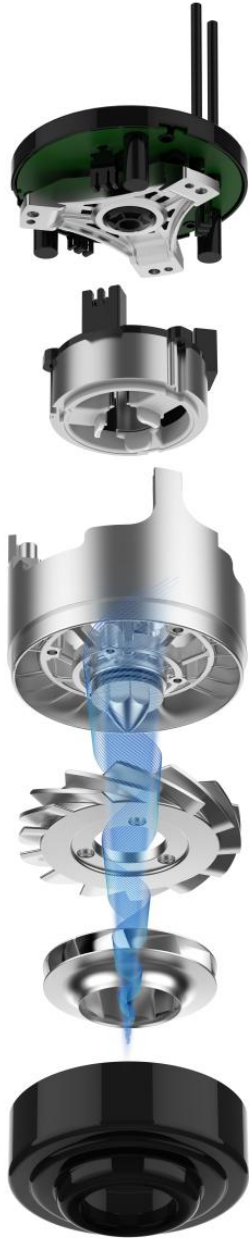

We developed ACE K-9 following customers' needs and wants. It could offer the superior comfort and satisfaction to end user.

2-2. Product Detail [Filter]

99.97% of fine dust
will be captured by
5-stages of
K-9 filtering system

2-2. Product Detail [Motor]

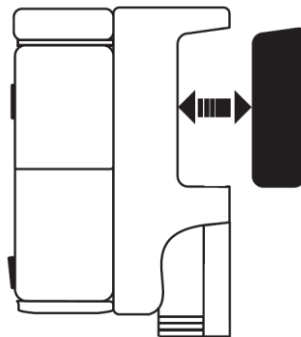

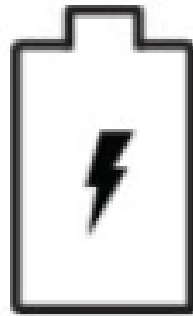

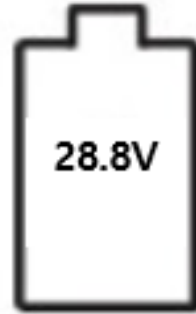

400Watts Digital Inverter Motor

Revolution up to **100,000RPM**

Powerful motor would able to clean invisible
dust at home

2-2. Product Detail [Battery]

- **28.8V / 2,500mAh** Li-Ion.
- Automatic charging station will charge the battery with in **4.5hours**.
- Detachable battery offer **60minutes** operation time.

2-2. Product Detail [Up & Down Design]

- Weigh on wrist would be **30% less** when it is down mode.
- Down mode also offer light handling.
- **Self-Standing** available.

THANK YOU

ACE ELECTRONICS
