

LUMOSCANDLE

For a Better and Safer Life

Enjoy a new experience you have never seen before.

Company Introduction

LUMOS CANDLE Co., Ltd., as a start-up company, was established in November, 2016. In July 2017, we have succeeded in launching the first one-touch automatic ignition candle in the world, and are currently developing a smart candle capable of connecting with smart phones. We aim to build a more convenient and safer life culture through the smartization of everyday things, and we are striving to develop smart products for everyday things that people need. In addition, we ultimately aim to provide safety and environment-friendly services based on big data acquired through IoT of smart products with sensors.

LUMOS CANDLE, which has been approved as a venture company, has received great interest in technology and products from home and abroad. In the case of domestic, reward-funding succeeded with a high success rate of 340% through Wadiz crowdfunding in May 2017, LUMOS CANDLE has proven its distinctiveness by winning the Grand Prize at the Regional Entrepreneur League Competition and the achievement of the Challenging K-Startup Finals(100 teams selected at a competition rate of 40 to 1). Currently, we are also receiving continuous love calls from many buyers including USA, Japan, Hong Kong, Singapore, and so forth.

Company History

 - Launched the first product of the world-first auto-ignition candle "Lumos Candle"
- Oct. 2017 - Certified as a venture business
- Dec. 2017 - Began mass production of the second version of Lumos Candle

Introduction of LUMOS CANDLE

"Lumos candle is the world's first auto-ignition candle."

When you light a candle, it is common for your hand to get burned or hurt,
and you cannot light a candle unless you have an ignition tool.
While convenient and new things are invented in the world, candles still look the same.
Is not it time for the candles to change now?

LUMOS CANDLE is a magical candle that it is lighted if you just press its button.
We added convenience while maintaining the analog sensibility of original candles.

Now, enjoy candles more safely and conveniently.

Characteristics of the LUMOS CANDLE

Push button ignition

LUMOS CANDLE lights just by pressing its button. Even if you have difficulty using a lighter or are uncomfortable with your hands, you can easily light it.

Natural soy wax

It is a handmade candle using only premium fragrance oil and natural soy wax with no paraffin. Please feel the luxury of LUMOS CANDLE.

The easy changing of a candle

If you have used up your candle or want to use different fragrance of your candle, you can change the candle right away. Try different scents depending on your mood.

Safe design

LUMOS CANDLE is designed as a form of pad to minimize influence of shaking. The refill candle is fit into the pad stably so that it is safe for rocking.

Easy usb charging

You can charge it easily with a mobile phone charger. You can use it for more than 4 months once it is fully charged. (Based on the use of 4 times a day)

Introduction of refill candle

LUMOS CANDLE is a handmade soy candle with fresh ingredients. All products are made of high quality soy wax and selected fragrance oil without using paraffin.

- Uses wood wicks.
- Handmade candle.
- Uses only phthalate-free fragrance oil.
- Passed the inspection for 'Designation, Safety and Marking Standards for Products with Hazard Concern' from Korea Conformity Laboratories(KCL).

Introduction of fragrances

Scents and candle designs will be added continuously.

Wild Hosta

Like a fragrance of the garden with early morning dew, you can feel the cool scent of nature.

Rose

It is an incense that gives a feeling of passing through the roses. You can feel the fragrance of a bright rose that is not heavy.

Clean Cotton

It is a refreshing fragrance spreading gently. It is as clean and refreshing as when you take in the laundry that is placed on a sunny day.

Peach

It is a fragrance that gives the impression of a peach bite. It is a fresh scent that anyone can enjoy.
