Manufacturing of bearing seals

From the beginning of 1985 Gumet produce bearing seals. We are one of the major producers in Poland. Actually we can produce more than 120 various types and dimensions of seals. Range of diameters which we produce: 10÷200 mm.

At customer's request we can produce bearing seals in others dimensions and also on others rubber blend. Bering seals are produced according to customer's requirements (mainly bearing manufacturers).

Materials:
NBR, HNBR, ACM and FKM rubber.

Drawing inquiries are welcome
