

contractors & trades

O2 Canada is a Canadian-owned consumer healthcare company.

We believe that life is big and there should be no barriers. We should all experience it, make our mark, and **breathe life in.**

**Every contractor
is exposed to
airborne contaminants
on a regular basis**

Contractors and tradespeople can all benefit from breathing better while working

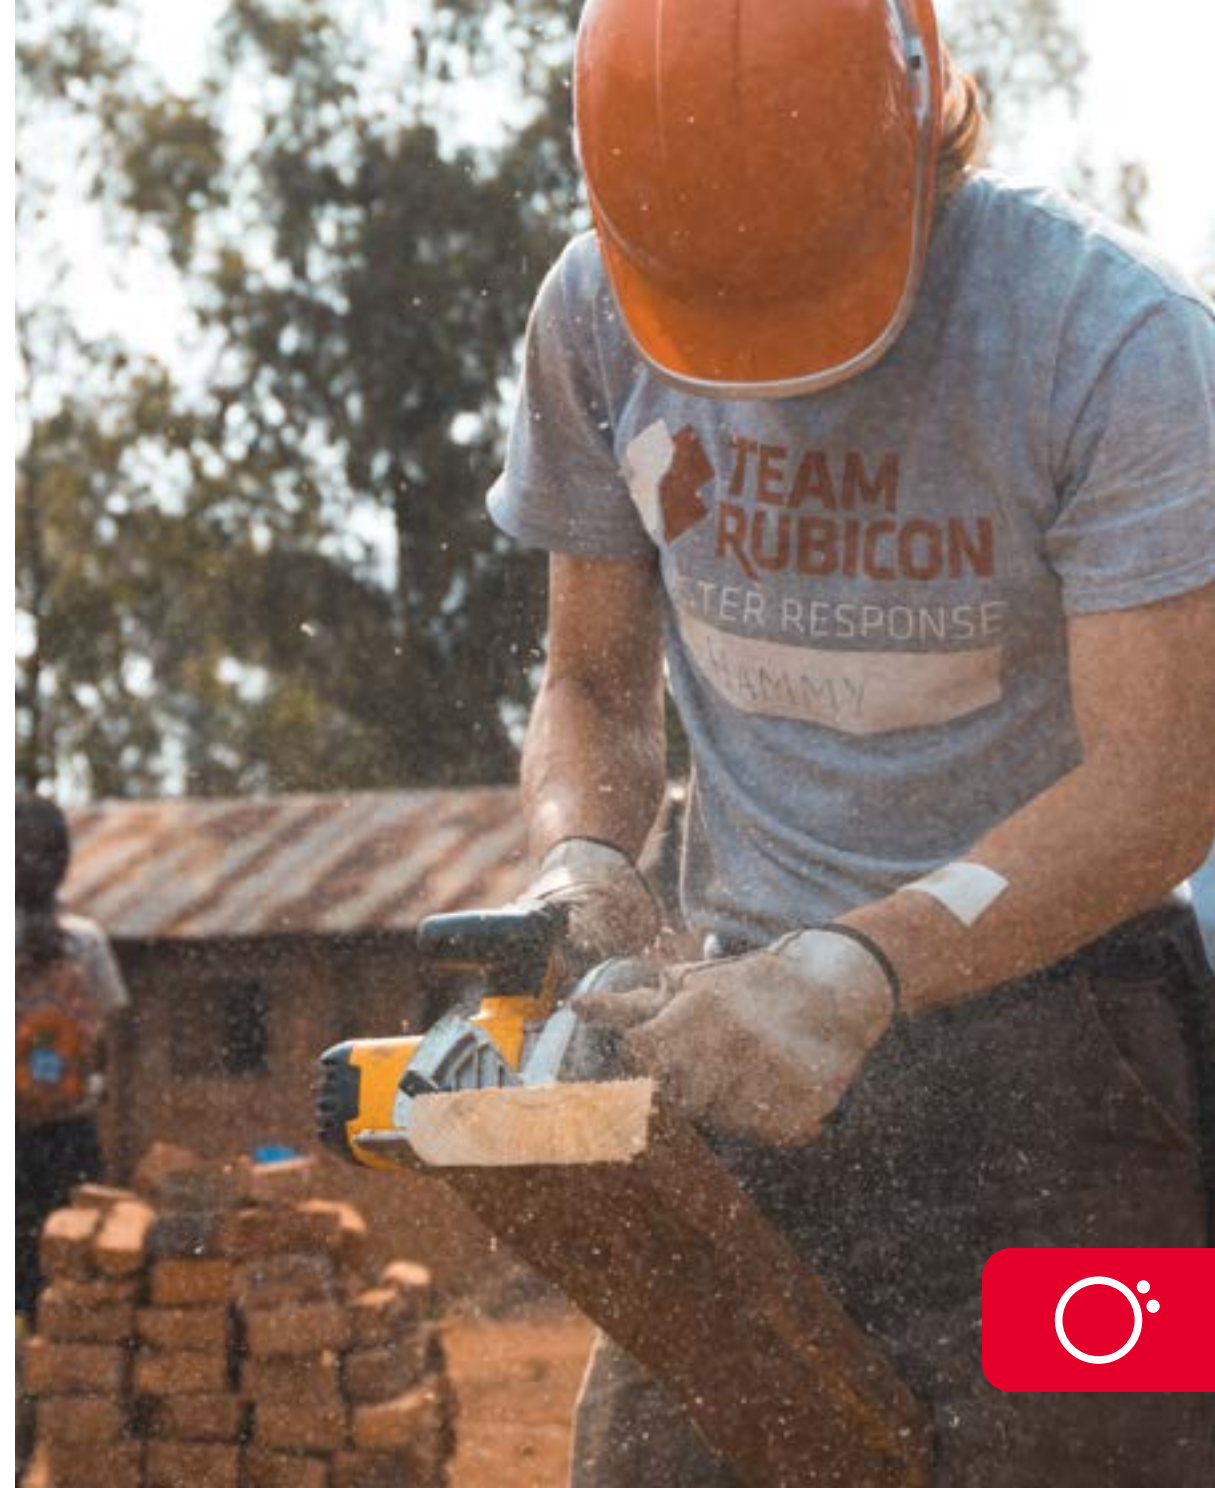

Contractors & tradespeople may be exposed to:

- Dust
 - Wood
 - Plaster
 - Concrete & stone
 - Lead & other metals
- Mould
- Asbestos

Risks include:

- Lung cancer
- Asbestosis & mesothelioma
- Chronic Obstructive Pulmonary Disorder
- Lead poisoning

O₂ Curve

is the solution

1

Easy to breathe
premium air
pollution mask

2

Medical-grade
silicone seal
prevents leakage

3

Convenient

meeting the NIOSH
or EN standards

4

Protects against up
to 98.6% of dust,
viruses & bacteria

5

Exchangeable
front shells

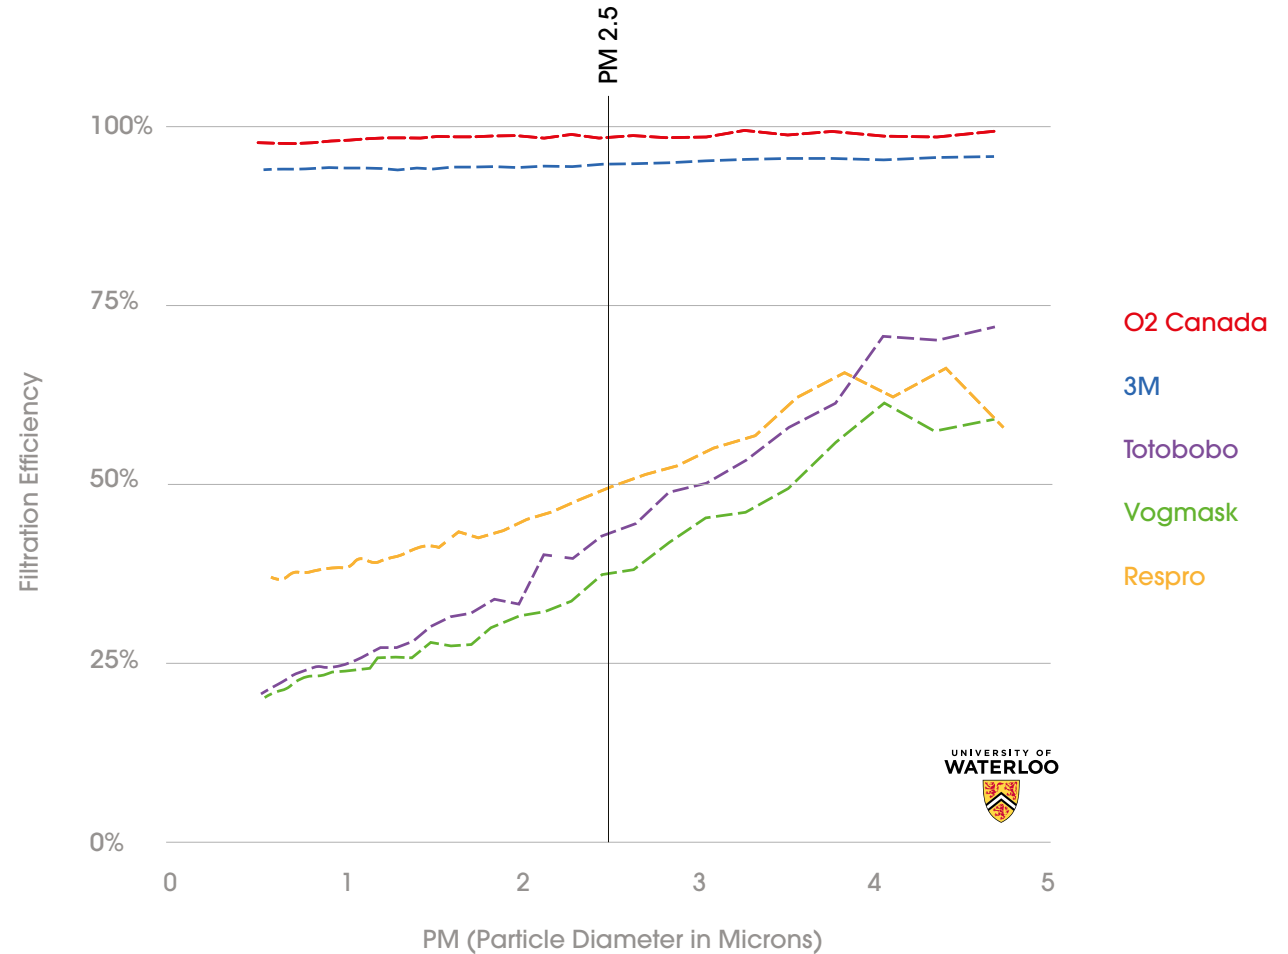

O₂ Curve

best in class filtration

O₂ Curve was deemed the **most effective consumer mask** by the University of Waterloo.

The O₂ Curve has been tested in the University of Waterloo's Air Pollution Research and Innovation Lab. The results prove the O₂ Curve is the most effective consumer mask amongst comparably priced masks in the market, beating established industry players at all levels.

product line

O₂ Curve

premium breathing mask

A premium clean air experience designed without compromise.

The O₂ Curve is more comfortable, breathable, and effective compared to any other mask in its category.

Key Features

- Soft silicone seal is comfortable to wear for long periods
- Fully washable
- Take on and off without removing helmet or safety glasses

O₂ Curve
