

FARHEEN CHOUDHARY, FOUNDER, ARISTOTLE COMMUNICATIONS

“As the founder of Aristotle Communications, an

organizational development firm, in the Princeton area, I am a proud member of The Princeton Mercer Regional Chamber. Through its events, The Chamber provides me with valuable information about business, civics, and personal development, and it has helped me create incredible connections with professionals and business owners, who not only support me in growing my own business but have also become friends. I am now also serving on the Diversity & Inclusion Committee of the Chamber, and am grateful that I can help in building community and inclusion and giving back. The Chamber is a valuable networking space, where the business and professional community continue to build lasting relations!”

JEFF APPELSON – JEFFREY SCOTT

“I have been a member of the chamber for 6

years now and can truly say that it has certainly helped me grow my business at the same time creating friendships. It is a great way to network and meet other like minded professionals to grow your career with. I have been involved in several other chambers and I am happy to say

that the PMRC is the most professional, well organized, and my personal favorite of them all. The members are also highly knowledgeable in their crafts and willing to help out in any way. I look forward to continuing helping others grow through the chamber and creating new partnerships.”

KALPANA PATEL: KAPUPATEL PHOTOGRAPHY

I wish I had joined the chamber when I first

started my business. If you are remotely considering it, I urge you to join it. In the 6 months since I have joined the chamber, my business growth and personal growth has been impacted positively. The chamber staff is extremely supportive in ensuring that you have the right connections for growing your business. The event calendar is so designed that it is convenient to find the right meeting with your schedule. I also love the special sub groups that is ideal for your business, from women in business, independent business, young professional, real estate, you can find a group that works best for you. You can tailor your experience with the chamber as precise or as broad as you wish it to be.

SAL LEVATINO – SL BUSINESS SOLUTIONS

“The Princeton Mercer Regional Chamber has

always been an organization focused on the needs of their members and creating a great environment in which members get a big return on their investment in the chamber. Most recently, they have creatively and quickly adapted to the virtual meeting space due to the pandemic. They have replicated and reinvented all of their events into effective virtual

meetings. In some respects these events are more effective in connecting members to each other due to the staff working hard to maximize those connection opportunities, each and every meeting.

Membership in the Princeton Mercer Regional Chamber of Commerce is and should be an essential part of every regional business's engagement and marketing efforts."

CHRISTINE MARIANO OF WEIDEL REAL ESTATE

As a Realtor, I run my own business and my

clients are people from all walks of life! Whether working with a first time homebuyer to buy a one bedroom condo, or empty nesters who are downsizing their 5 bedroom home, my business depends on making connections and the Princeton Mercer Regional Chamber (PMRC) gives me plenty of opportunities to do just that! With so many interesting (and well attended!) events each month to choose from, I am not only able to make connections, but more importantly, build relationships, and do so effortlessly. It all begins with the PMRC staff, and their energy, enthusiasm and commitment to making Princeton Mercer Regional Chamber, the best business networking organization in the area - it's inspiring! If you are looking to bring that same energy and enthusiasm to growing your business - look no further than a membership in the Princeton Mercer Regional Chamber!

TOM MCMANIMON – STIMULUSBRAND COMMUNICATIONS

A shout out to all the core team of our PMRCC for

keeping all members and our community informed, connected and supported. From the moment we were quarantined and businesses closed, the chamber team quickly transformed its website to a multi-platform for dissemination of Covid information, business updates, and online learning. Their transformation was immediate. Everyone has worked tirelessly and remotely and not missed a beat. Thankful to everyone and proud to be associated with such a high-caliber organization.

GAIL ROSE SPEAKS ABOUT PMRC

When we moved our business to Princeton, NJ,

the first person to show up at our launch event was Peter Crowley, President and CEO of the Princeton Mercer Regional Chamber (PMRC). That kind of warm and enthusiastic welcome is what the PMRC is all about.

Through my membership and as a volunteer ambassador, I have been able to expand my network of friends as well as business connections in a short period of time—and have fun doing it. The events are tremendous and offer something to fit just about every business person's schedule and interests. I am impressed and at times inspired by the guest speakers. I always leave PMRC events feeling recharged and ready to put new ideas into practice.

If you can join only one networking organization in the Princeton region, there is no question that PMRC is where you want to be.

ROBERT BLANDA – CADDISART CINEMATIC MARKETING

(President & Creative Director)

The Chamber staff, board members and members are a very well-oiled machine for networking, communication and camaraderie. Although our company doesn't have the luxury to attend many events, the online resources and broadcasts keep us up to date on what's important in the world of business and tourism in our area. I give the staff and their vendors enormous credit for their hard work and due diligence in keeping our business community together.

TESTIMONIAL: JEANETTE IGLESIAS, JI COACHING, LLC

When I first joined the Princeton Mercer Regional

Chamber (PMRC), I was a naïve, new business owner, unsure of how to get my message out and how to grow my business. Then I met Christine Curnan, Director of Membership Development for the PMRC, and that all changed. She introduced me to the boundless opportunities of the Princeton Mercer Regional Chamber and my business started to accelerate. I immediately connected with the Chamber staff who not only listened to my needs but actively sought to champion my business growth and sustainability. I also met a dynamic community of active business owners seeking to do business with one another. That is why, year over year, I recognize the Princeton Mercer Regional Chamber as one of the greatest investments in my business, and that is also why I volunteer on the Membership Committee to bring similar growth opportunities to others. Regardless of size, the PMRC has something for everyone.

HILLARY SPIVAK SHARES HER PMRC EXPERIENCE

What a fantastic experience it is being a

member of the Princeton Mercer Regional Chamber (PMRC)! There are so many opportunities to network and build relationships. The PMRC staff is superb and the events are fabulous. It is such an honor to chair the Ambassador Committee where we help new and existing members become acclimated to get the most from their membership. Personally and professionally, joining the PMRC has been one of the best decisions I have made.

TESTIMONIALS ON THE MERGER

FRANK LUCCHESI, SR. REGIONAL PUBLIC AFFAIRS MANAGER, PSE&G

The consolidation of the MIDJersey Chamber

into the Princeton Regional Chamber provides one strong business "voice" supporting the Central New Jersey Region. The chambers influence and leadership will have a positive impact for the business community. PSE&G is proud to be a Chairman's Council Leadership partner supporting the Chamber and the region.

WILLIAM RUE, JR. PRESIDENT, RUE INSURANCE

This is an historic combination of two long-standing, business-focused organizations. A newly combined Chamber enables the business community in Mercer County and the surrounding area to speak with a unified voice that will be heard
