Easy Power

Grip Power Tech is a company specializing in golf grips. It is registered in domestic patent and PCT international patent. US (Patent registered US 9,662,552 B2), Japan (Patent registered 6200089), China patent registered (ZL201480043624.X)

It is a creative development company that produces and sells Easy Power Grip (Golf Grip).

In addition, it has won the 2016 Hi Seoul Excellence Product Brand Award, Sports Dong-A 2016 Consumer Satisfaction Index No.1 Company and Product Grand Prize, and ISO 9001, 14001 International Certificate.

○ Management Philosophy

○ Easy-power Grip Features

Golf is a sport where grips control 70% of the total and when grips are correctly grasped, swing and impact can easily be formed to create a wide range, but after backswing, the orientation and distance are often impaired because of the fine grip in the downswing.

Therefore, in order to solve these disadvantages, it is possible to attach the silicone molding on the grip without replacing the existing grip, and it is an item that can easily grip the grip and produce accurate impact and power. In addition, the Easy Power Grip is a new concept grip that can be mounted on the existing golf grip and can be used without gloves. It can improve the distance and improve the directionality.

○ Principles of Technology

the Easy Power Grip is a new concept grip that can be mounted on the existing golf grip and can be used without gloves. It can improve the distance and improve the directionality. This is an optimization grip equipped with 5 step zero adjustment function (S -Strong, Hs -Half Strong, N -Neutral, Hw- Half Weak, W- Weak) to turn directional power grip to left or right direction.

○ Product Descriptions

✓ Easy power swinger grip

For
Beginners

Hitter grip

Intermediate
& Advanced
Players

- Carry increasing and direction quality improving effect for golfers.
- Golf club head speed increasing effect throughout the downswing process thanks for two V-shaped grooves at the upper end and one or two locking flutes at the bottom end
- Sweet spot area enlarging effect with constantly solid grip power allowing exact & correct gripping hands.
- Effect of sustaining exact cocking position and increasing carry thanks for soft hand gripping allowed.
- Free grip left-right adjustment allowing easy direction control function and direction improving effect.

➤➤➤ Highly effective for those golfers of right handed, or too much biased right or left hands, or desiring exact gripping hand posture. Applicable for all kinds of golf clubs, particularly effective with drivers, woods and wedges.

✓ Easy Power D-Power Grip

Advanced
Players

- Quality of carry and straightness enhanced with finger locking construction.
- Freely applicable for any grips, particularly effective for iron golf clubs offering highly sharp shot sensitivity and accuracy requiring no glove.
- Free and natural use of product allowed with no separate and additional practice allowing the golfers use their own gripping habits. Constantly soft gripping applicable protecting hands thanks for soft grip feeling
- Effective for enhancing impact power showing no exotic design compared to other competitive products drawing no unwelcome attention.
- Economic with long grip replacement cycles.

➤➤➤ D-POWER Grip, an atypical type gripping, allows the users easily feel the weight of club heads notwithstanding any types of grips, enhancing the improved carries. D-POWER Grip, a third generation product, will make those golfers with advanced skills feel drastic technique improvement, which are applicable with all kinds of golf clubs particularly effective with the iron clubs.

✓ Easy Power Putting Grip

Exclusive
for Putter

- Distance catching sense improving effect provided with the putter lifted thanks for the finger locking construction, allowing the upper blow strokes and constant golf ball spins.
- Straightness improving effect allowing no shaking of club during the back stroke process.
- Effect of preventing getting stuck on green and easy direction control function with the putter lifted.

➤➤➤ Putter grip with the finger locking construction allowing straightness, upper blow strokes, and preventing getting stuck on green by fixing the wrists throughout the back stroke process.

○ Product Features

- 1 Applicable to use requiring no removal of existing golf club grips. To use as inserted on existing grip.
- 2 Convenience of easy insertion of Easy Power Grip, allowing any golfers insert the product, while the replacement of conventional grips requires the professional works.
- 3 Elegant visual effect obtainable with insertion of Easy Power Grip on golf clubs.
- 4 Available without gloves
- 5 Impacting effect increased causing no slipping or turning of hands against the sweating.
- 6 Direction correcting function with zero point adjustment of grip.
