# LUPINE SMART CARE MK-1000

UV-ray 99.9% Sterilization of Lupine Portable sterilizer which and eradicate bacteria and sterilize 360 degrees

## 99.9% Bacterial Eradication

Ozone sterilizer with 99.9% sterilization of invisible bacteria such as Escherichia coli, Staphylococcus aureus, Pseudomonas aeruginosa

## UV Lamp

UV ultraviolet lamp capable of sterilizing 99.9% of bacteria and providing intelligent and safe management

## Safety Certification

Safety and automatically shut down when disassembling or opening a bit-insert door with a safety sensor

## 360 Degree Sterilization

Automatic sterilization : Repeat for 7 to 8 minutes at 1 hour intervals  
Momentary sterilization : automatic shutdown after sterilization once for 7 to 8 minutes

Use a lupine nail multi sterilizer certified for 99.9% sterilization power to safely use nail tools such as nippers and pusher tweezers for nail care.

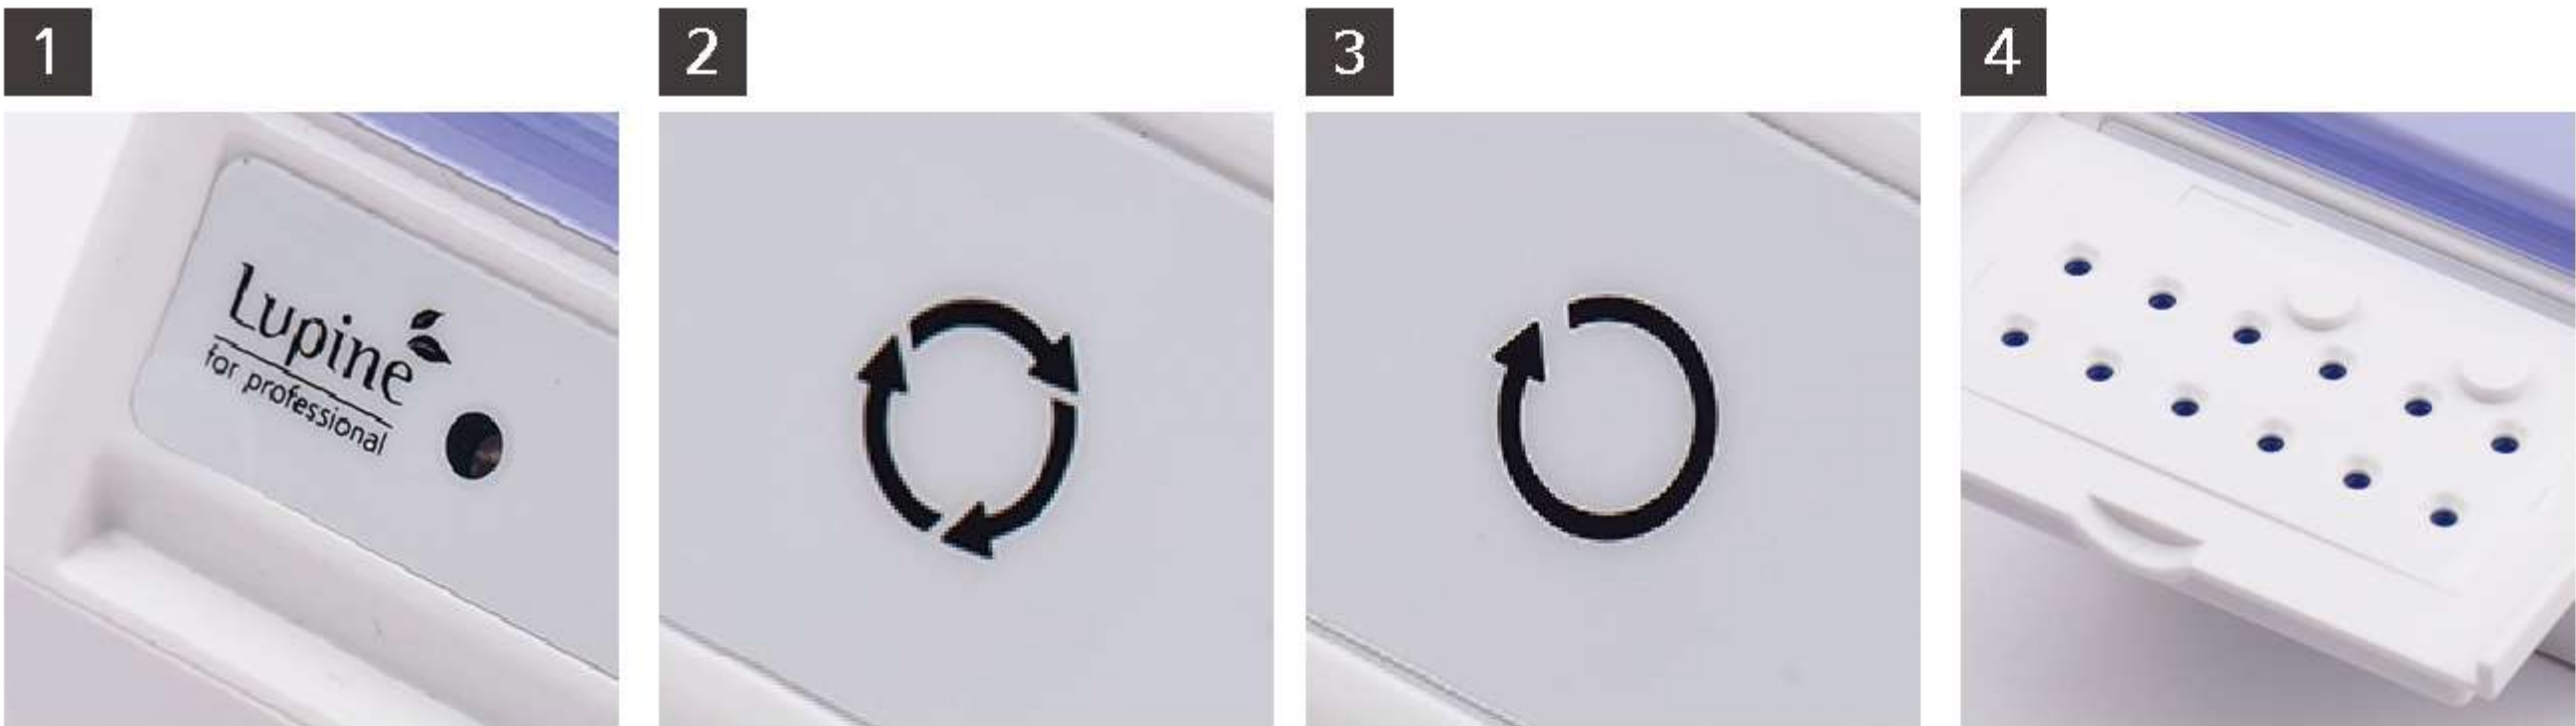

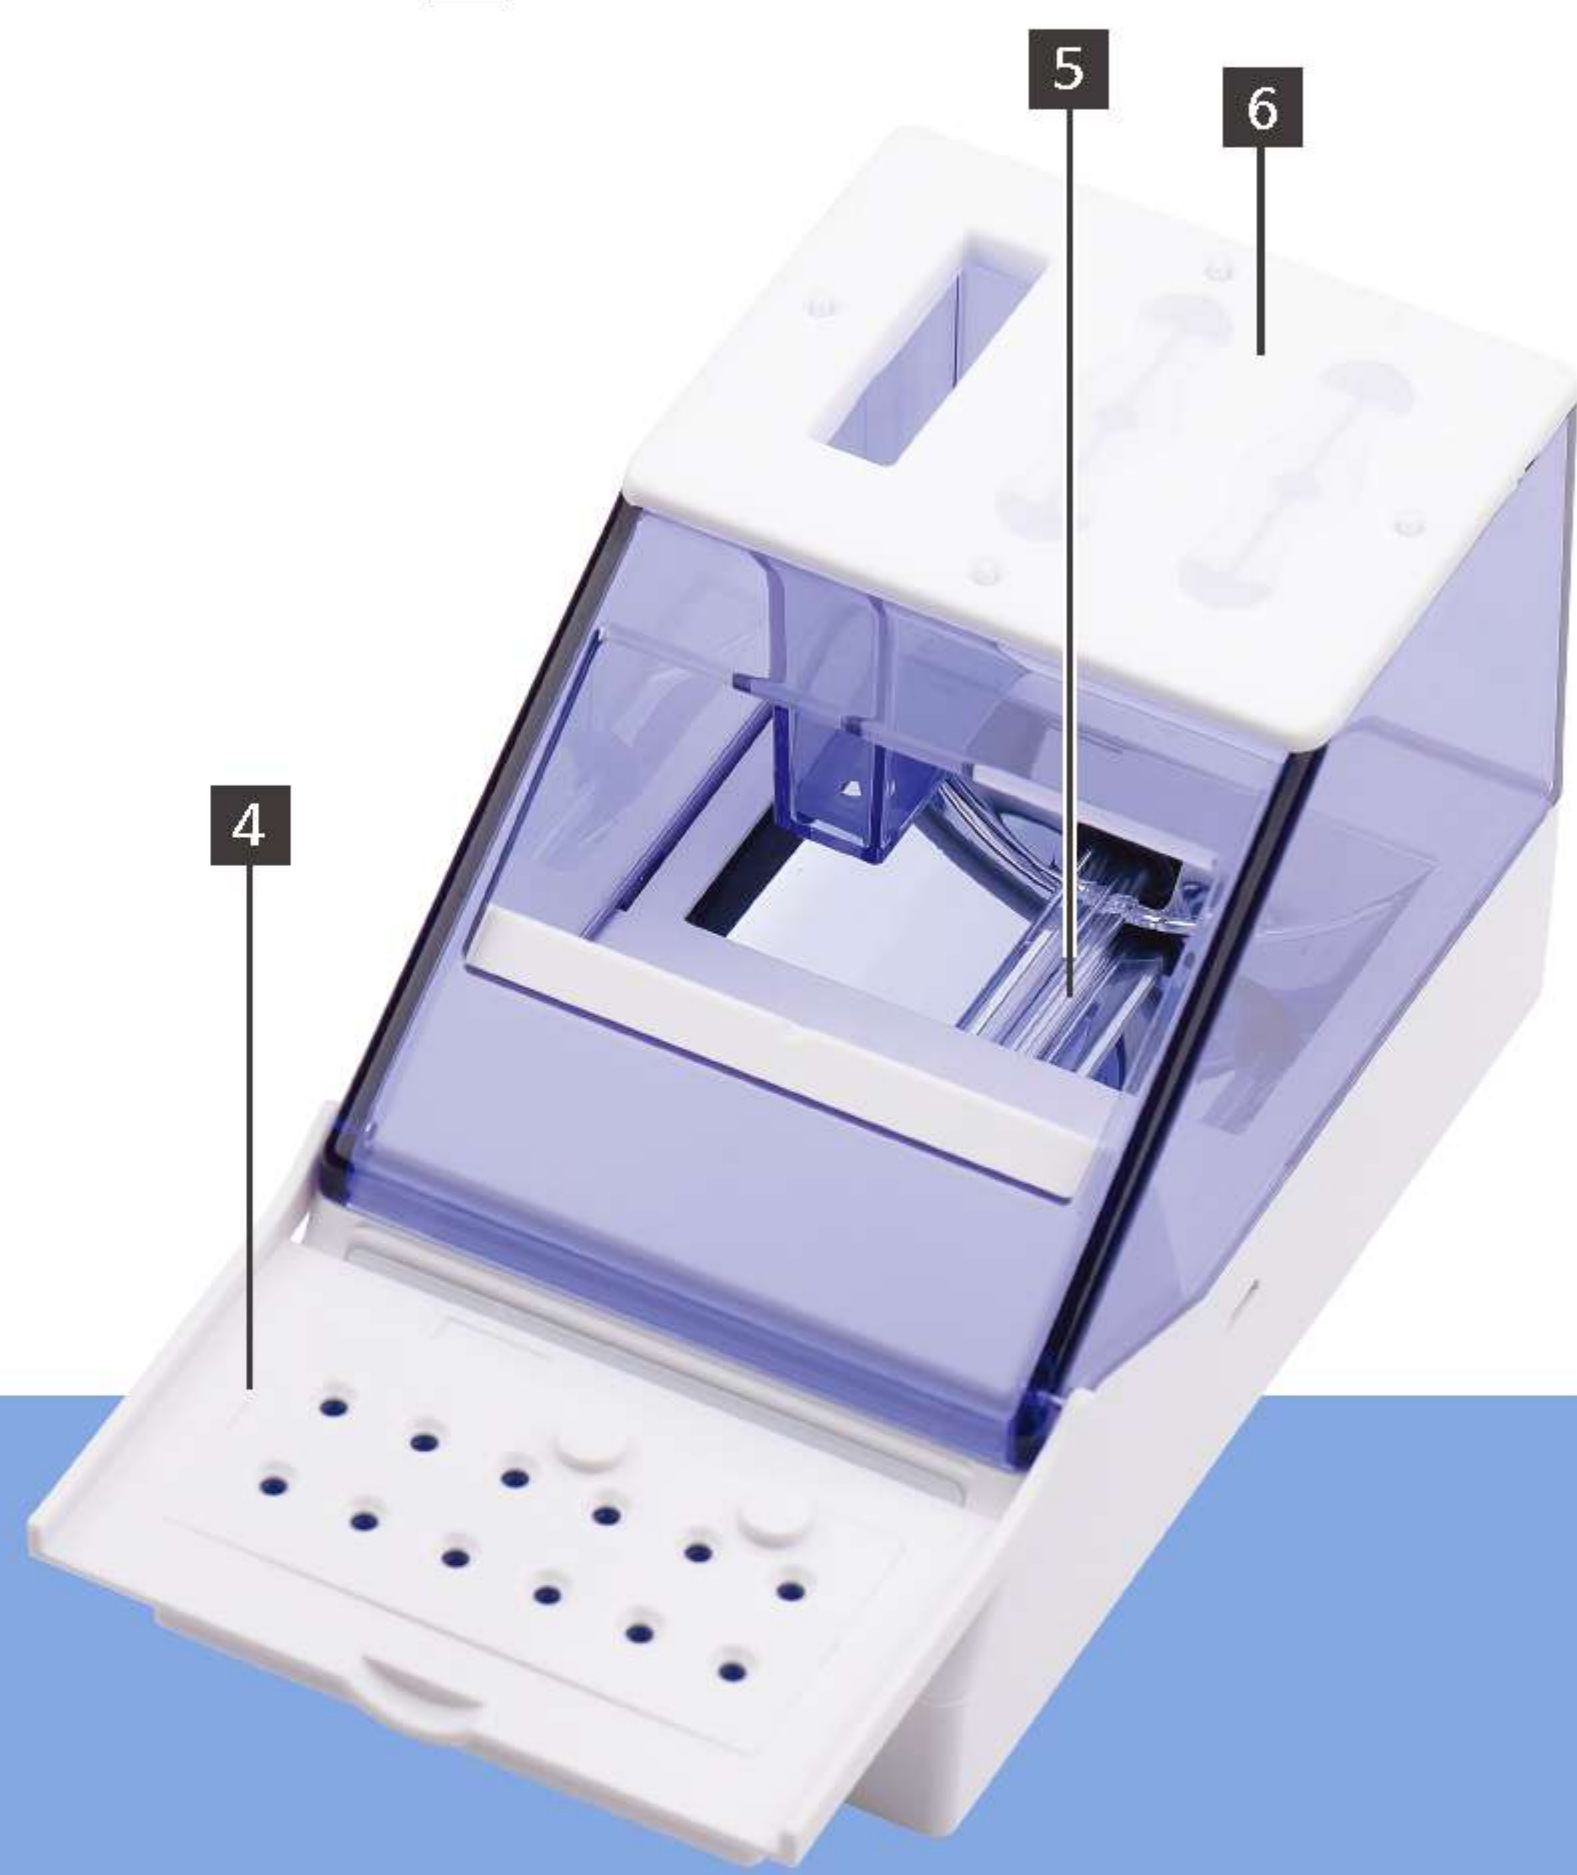

Patented Product 10-2018-0123287  
Patented Design 30-2019-0003698

Lupine Portable Nail Multi Sterilizer MK-1000

Detailed Product Features

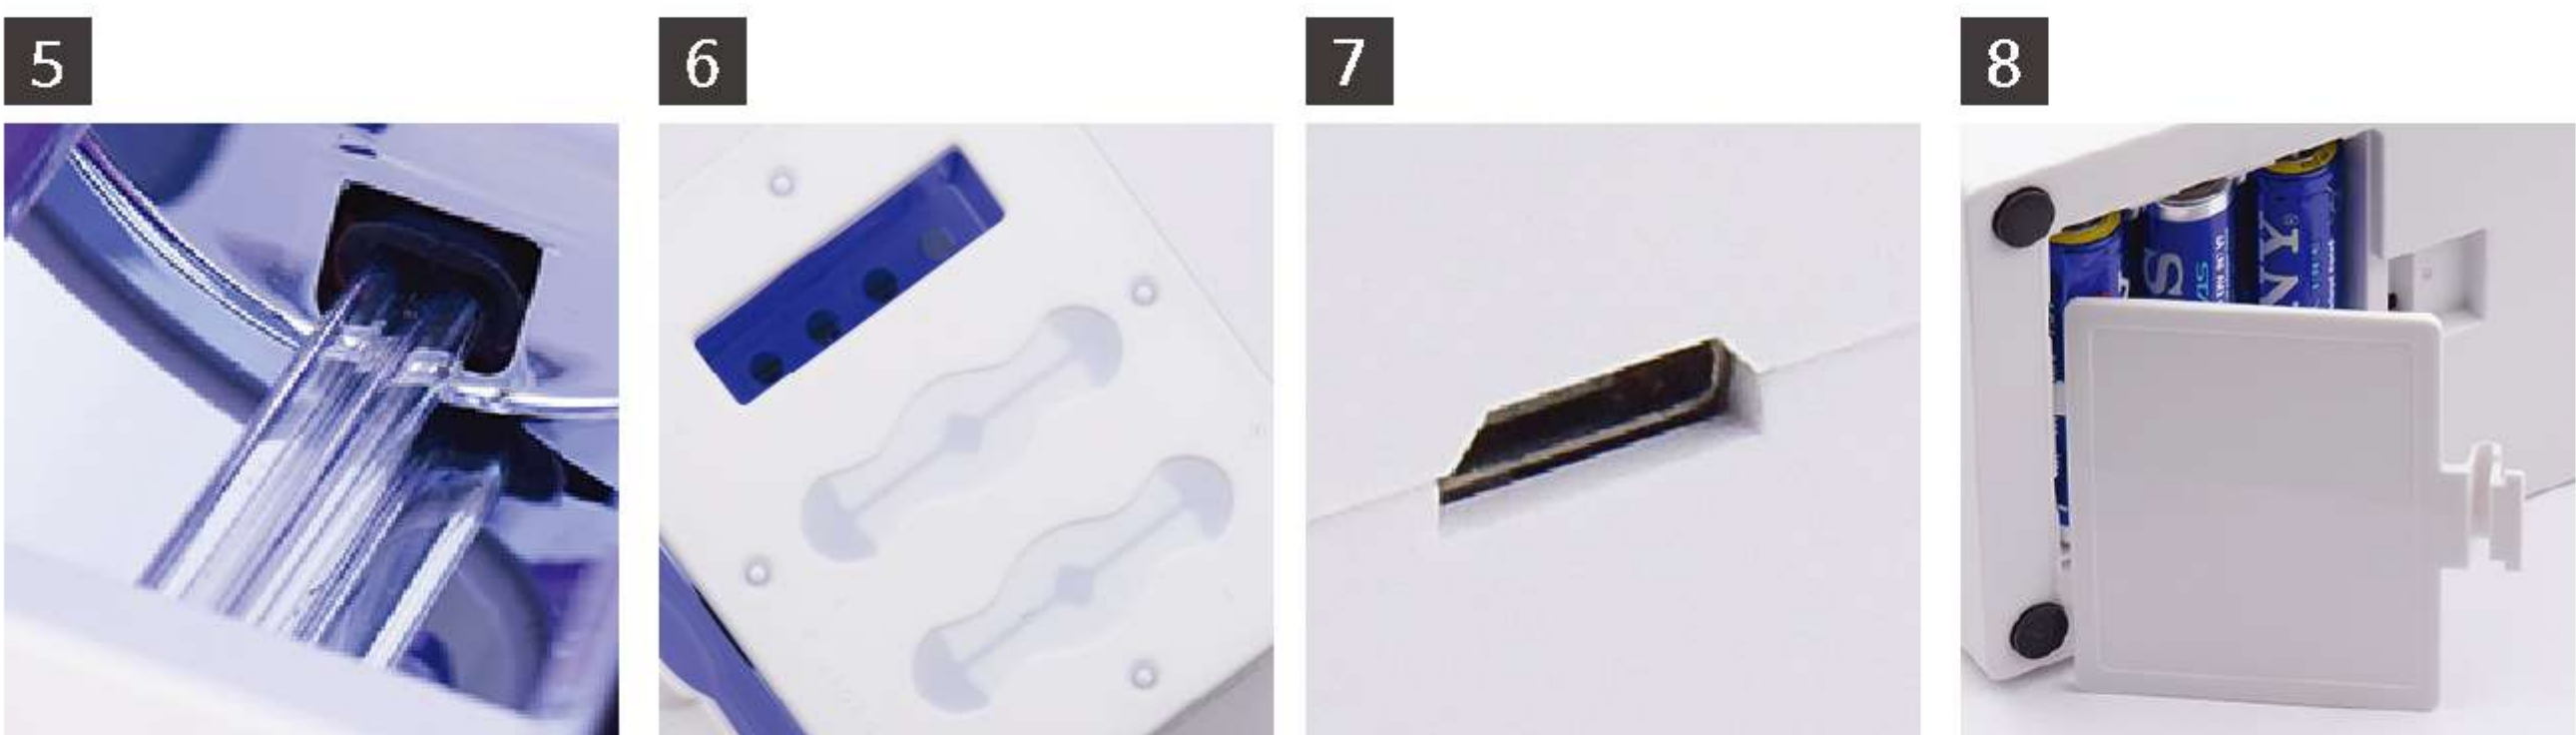

**1** Indication of operation  
When sterilizer, the light is activated

**2** Automatic sterilization button  
Automatic sterilization of ultraviolet (ozone) sterilization for about 7 to 8 minutes 1 hour interval

**3** Instant sterilization button  
Only 1 ultraviolet (ozone) sterilization for 7 to 8 minutes before ending

**4** Nail bit insertion door  
Operation is automatically stopped when the door is opened during sterilization operation

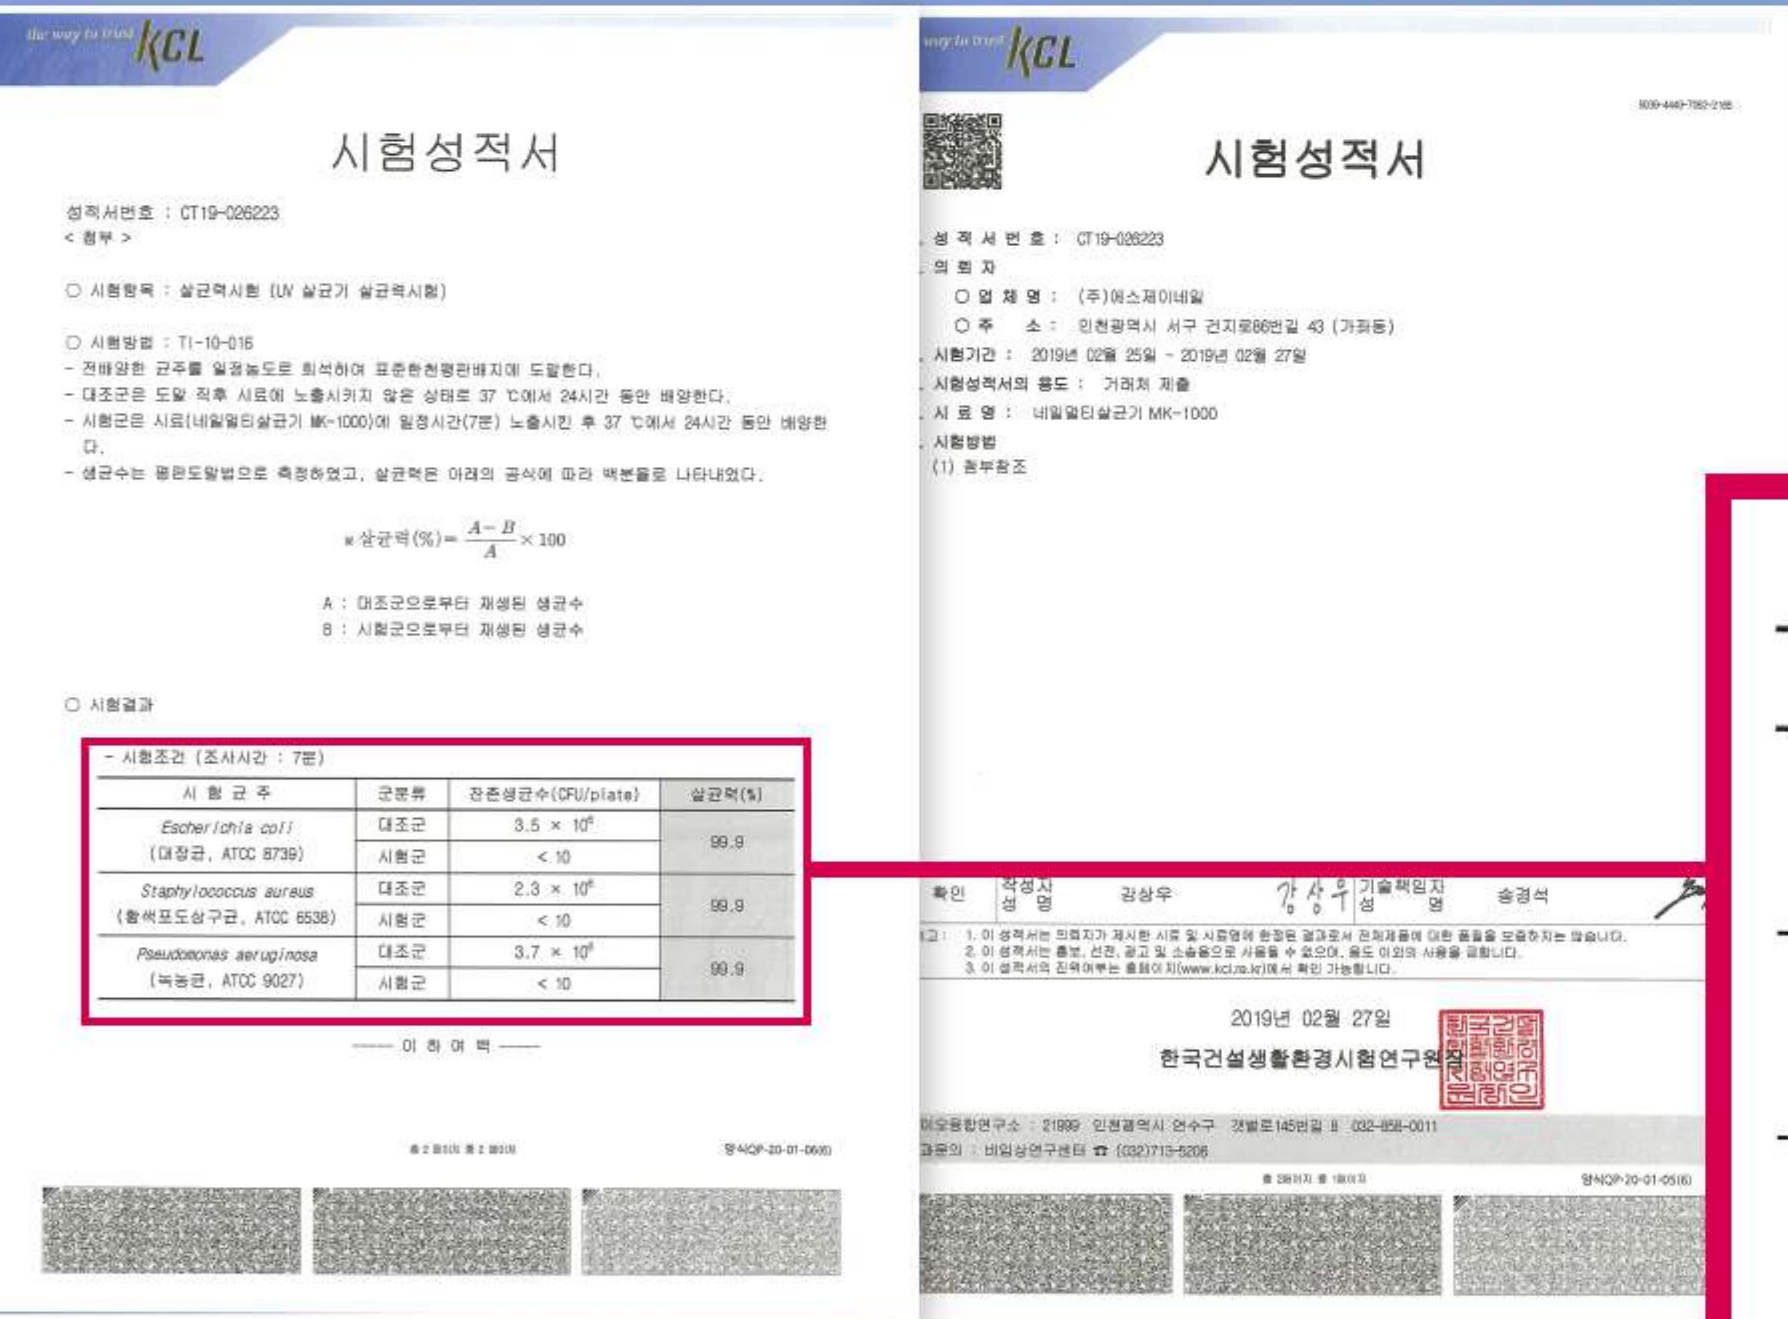

**5** UV Lamp  
UV Lamp can be replaced after a certain period of use

**6** Sterilization cradle  
It is placed after basic cleaning, such as nipper and pusher

**7** Adapter connection

**8** Bottom battery insert

MK-1000 can be used with confidence

Test report Number  
**CT19-026223**

The test results showed that Escherichia coli, Staphylococcus aureus, and Pseudomonas aeruginosa were 99.9% sterilized

- 시험조건 (조사시간 : 7분)			
시 험 군 주	군분류	잔존생균수(CFU/plate)	살균력(%)
Escherichia coli (대장균, ATCC 8739)	대조군	$3.5 \times 10^6$	99.9
	시험군	$< 10$	
Staphylococcus aureus (황색포도상구균, ATCC 6538)	대조군	$2.3 \times 10^6$	99.9
	시험군	$< 10$	
Pseudomonas aeruginosa (녹농균, ATCC 9027)	대조군	$3.7 \times 10^6$	99.9
	시험군	$< 10$	

INFORMATION

Name	Lupine Portable Nail Multi Sterilizer
Model	MK-1000
Product Size	137 x 80 x 85(mm)
KC	R-R-nsj-SJnailart1
Power	- 5V output adapter (automatic disinfection, instant sterilization / adapter recommended for 24 hours or automatic sterilization) - AA battery (Instant sterilization only / can be used for about 2~3 months when disinfected 3 times a day by instant sterilization)
Adapter	Easy to use with auxiliary battery (automatic sterilization termination outside of daytime is recommended)
Product Composition	This product, USB charging cable, three AA batteries
Manugacturer	SJ Nail Co., Ltd.
Country of Manufacture	KOREA

MSIP-REI-KL6-KL-SUN4-48W

# LUPINE SUN4S LEDUV LAMP

Strong & Smart Lupine Sun 4S LED UV Gel Lamp  
to harden UV gel, Builder gel, Hard gel and LED gel

Easy and comfortable to use Lupine Sun 4

## LUPINE SUN 4S LED UV LAMP

With comfortable design and functions for consumers,  
Lupine Sun 4S LED UV Lamp enables consumer  
to dry and cure nails safely and quickly.

01

### Efficient Design

Dome-shaped design minimizes  
LED light that emit outside  
to consumer electric power effectively  
and have strong curing performance.  
Also, it prevents glare problem  
and light reflex for users.

02

### Infrared Ray Sensor

It's equipped with 10, 30, 60, 99 seconds  
timer as well as the infrared ray sensor.  
Thus, the sensor works automatically  
when the user puts his or her hand  
in the lamp without touching the button.

03

### Double Power

There's a double power function  
in the 99 seconds button for rapid,  
powerful curing performance.  
Please gently push 30 or 60 seconds button  
and then, push 99 seconds button  
for 2 seconds. Then, the double power  
function starts to work.  
Push the same button for 2 seconds  
again to cancel.

Absolute Curing Sun 4S

## WITH 36 LED LIGHTS

It's equipped with 36 LED Lamps so that every gel polish will be perfectly cured.  
48WT Lamp Lightings features large output and minimizes  
the heat sensation with low-heat curing process.  
Save your time with strong, rapid curing of double power.

### Easily detachable bottom pad

The bottom pad can be separated easily,  
making it easy to perform pedicures and cleanings.

# LUPINE SUN4S LEDUV LAMP

for professional

Easy to use Lupine Sun 4S

## DETAILED DESCRIPTION

1

### Infrared Ray Sensor

The device automatically work by the infrared ray sensor. (Max: 99sec)

2

### Power Supply Notice

It displays operating time in seconds.

3 4 5 6

### Timer

Normal mode:  
10, 30, 60 seconds  
Low-heat mode/Double Power

7

### Power connector

## >> DESCRIPTION

Product Name	LUPINE SUN4S UV/LED LAMP 48W
KC Registration No.	MSIP-REHKL6-KL-SUN4-48W
Manufacturer	Shenshen UVLED Optital Technology CO.Ltd
Manufacturing country	China
Seller	SJ Nail Corp.
Importer	KRC Corp.
Specification	Refer to detailed description
Rated Voltage	100-240Vac 50/60Hz 1A
Rated Output	DC 24 V / 1.5A (Power supplied by adaptor)
Standard	21x20.7x10.3cm in width, length, and height
Wavelength	365nm + 405nm
Maximum Electric Power	48W

# LUPINE NAIL DRILL LD-1000M

R-R-Jw-BTNdrills-26

- Safe protection system
- Change in normal/reverse directions
- Use of standard bit

Up to  
**35,000RPM**

Maintain a constant RPM at high speed  
There is little noise and vibration.  
Reduces discomfort caused by vibration.

RPM  
**Digital indicator**

check the drill speed and battery level  
with 4 levels of digital lamps.

Up to 8 to 16 hours  
in **battery life**

with large capacity battery  
can use up to 8-16 hours when  
fully charged for 3-4 hours.
