Lint remover which is convenient with a diagonal cutting and thick sheet and **baking soda wet wipes** which increases cleaning efficiency by containing baking soda (natural pulp used).

New Products

“ About anything
that's needed
in our daily households

The number of products of Living Crafts are becoming more diverse from day to day.
Any item that is needed from waking up in the morning, eating, spending a day, and until sleeping, is the subject of product development.
Living Crafts is planning to present daily household products that has no boundaries and domains.
Living is daily and it is every moment that supports our daily life.

Sanitary products designed meticulously

Organic cotton sanitary pads are made with thorough processes from raw material production to the product distribution.
This small but powerful hand sanitizer has 99.9% of sterilizing power and will take care of hygiene of your hands and daily products.

You and I, the Living Crafts.

Ddingul market is a flea market that has been on the word-of-mouth among housewives.

Not only is it a place to share a story of different brands with consumers, it also is a donation to share part of benefits with people in need.

Living Crafts, the faithful keeper of the basics, is also a avid seller of this market, participating for the 3rd time.

As a maker of household products that go with daily life, it is crucial to hear consumers' voice and share profits with other daily lives.

As long as there is a daily living, Living Crafts will keep on participating in Ddingul Market.
