Company Overview: Background and Development

In today’s increasingly technology driven marketplace, it is critical to keep up with the latest Innovations and solutions, in order to make the most of your investments and keep your business moving forward. So whether you are new to working with an IT Partner, or have worked with one for years, with LAYER7554 you will find cost-efficient support, guidance and the inspiration you need to provide your business with a competitive advantage.

LAYER7554 is a full-service solution provider. Our head office is located in United State, New York and we support remote sites across multiple continents. We place our focus on leveraging our infrastructure and footprint to support a broad spectrum of organizations with rapid deployment and emerging technologies.

Over the years, LAYER7554 has evolved into an advanced solutions provider, focused on servicing customers and creating value through long term relationships that we build. We have established unique service level agreements (SLA’s) and fixed costs based on our customers’ needs and budget.

We strive to deliver more efficient, effective and relevant quality services and solutions tailored to the increasingly complex demands of organizations, in order to boost productivity of operations and to maximize value for our customers.
LAYER7554 also strives towards technology that provides a real advantage to a business. The most powerful connection that a business can make is through all its stakeholders. LAYER7554 binds together business and technology. LAYER7554 provides solutions that enable business and empower our customers with the following:

❖ Enable you to focus on your business by providing a practical IT solution by creating an environment for success.
❖ Minimize risk of data loss, downtime, security threats and provide redundancy at the same time, by ensuring your business operations continue through virtualization and automation.
❖ Improve overall customer service and satisfaction, by ensuring you have the infrastructure in place to continuously engage with your customers.
❖ Cut operational costs with tailor-made strategies and solutions by assisting you to create (or update) your IT strategy.
❖ Increase communication between all stakeholders which is essential with all the current dynamic businesses challenges that all businesses face today such as globalization and increased worker mobility.

Technology is not just about speeding up the process and allowing flexibility, but it can transform how a business functions and will save a company time and money if implemented and maintained properly.
