

Recycling Waste Cutter!

Recycling Waste Cutter

New Solution of Recycling Processing

The completion of optimal design for the primary comminution of wasted tires, large ropes, roof films, various of waste, waste resources.

Securing competitiveness in Time and Cost! Securing Safety!
Over 10times working performance.

| Model | Unit | TRC150 | TRC200 | TRC300 | TRC350 |
|----------------------------|------------------------------|--------|--------|--------|--------|
| Working Pressure | bar | 270 | 300 | 320 | 320 |
| Max. Opening With | A | 600 | 705 | 810 | 600 |
| Overall Length | B | 2,152 | 2,350 | 2,616 | 2,565 |
| Cutting With | C | 248 | 278 | 350 | 180 |
| Cutting Depth | D | 560 | 620 | 642 | 500 |
| Weight | kg | 1,200 | 1,800 | 2,400 | 2,510 |
| Edge Point Cut Force(Af) | kn | 260 | 305 | 455 | 560 |
| Middle Point Cut Force(Bf) | kn | 480 | 560 | 737 | 910 |
| Excavator | ton | 13~18 | 18~26 | 28~32 | 28~36 |
| Rotating | 360° Hydraulic Rotating Type | | | | |

* Specifications may be changed for improved performance of the product.

Technology for Smart Recycling Processing Cutting!

NEW SOLUTION !

처리가능 대형폐기물류

New Solution

What's New?

대형 산업용 / 일반폐기물, 폐자재

TOV KOREA

Recycling Waste Cutter가

해결해 드립니다!!

재활용 폐자재 절단기
RECYCLING WASTE CUTTER

최대 10배
작업량 증가

◎ 절단력 강화

패그롤, 로프, 광케이블,
대형폐비닐, 물 뿜을 절단

◎ 폐자재 품목범 맞출 절단

합성수지, 대형로프, 금속,
대형 폐타이어 1차 절단 및 분쇄
360도 유입 회전방식

◎ 멀티 폐자재 절단기 특허획득

일반 절단기 vs 경제성과
작업의 안정성 확보

◎ 작업효율 극대화

광케이블 30~40ton/일 처리 가능
기존 작업량보다 최대 10배 향상

ABOUT US

Technology for Smart Recycling Waste Processing Cutting.

With over 20 years' experience in construction equipment excavator attachments, we have formed an independent company called TOV KOREA. Challenges always make us excited. We hope that you work together with us, a young company looking to take on the challenges of the changing recycling industry.

We hope to grow and work together as a reliable partner.

We provide our customers with a wide variety of equipment, including excavator attachments, crushers, shears, and grabs.

Recycling Waste Cutter

This is a cutting machine that professionally cuts waste. It can cut waste regardless of its shape. When comparing efficiency with similar products, TRC series products have a 10 times greater working effect. In particular, it is designed optimally for the primary treatment of waste tires, rope nets, synthetic resins, and large-scale malignant waste. We would like you to experience a professional waste cutting machine for dealing with waste that reinforced concrete crushers and cutters cannot cut.

TOV KOREA take seriously the responsibility to provide the very best in waste management equipment.

We are sure you will have full confidence in our products.
