Professional daily trouble skin care brand based on patenet earned pine pollen extract.

BIOLEE ACNÉPRIS LINE

Acnepris is high funtional trouble care brand based on BioLee's patent earned pine pollen extract that minimizes the skin irritation and brings about the best result for acne prone skin type.

BioLee's Main Patent Earned Component, "Pine Pollen Extract"

Definition

Pine pollen refers to pollens comes out from the pine during spring. It can only be collected between April and May, when pine pollen blooms, and it has been known for its effectiveness for prevention of public morals, chronic diarrhea, soil, and skin lesion. Pine pollen is also written in Donguibogam: Principles and Practice of Eastern Medicine as it cures disease, makes one feel light, has mild temper, and has no poison.

We have focused on pine pollen's funtionability, experimented and finally completed.

We have focused on natural ingredient "pine pollen" that has almost no skin irritation and tolerance and with continuous tests pine pollen has shown excellent effect against propionibacterium acnes.

We also have seen its antibacterial effect regardless of the shape or type of cosmetics. Furthermore, with numerous clinical tests, we have witnessed pine pollen extract has excellent troubled skin improvement and has almost no side effect with its long-term use. Acnepris was able to be established as high functionality brand for troubled skin with its critical component of pine pollen extract.
