

EXCEPTIONAL PARAMETERS

BEETLE SPORT luminaire is characterized by its high power and high luminous flux –that guarantee perfect lighting for stadiums and other sports facilities. Additionally, its excellent luminous efficacy translates into immediate savings.

THE RELIABILITY OF LUMICOOL®

BEETLE SPORT consists of two-chambers luminaire, in which the LEDs and the power supply are separated by a ribbed space that provides heat dissipation and air flow to cool both chambers. This solution guarantees the most efficient cooling of both heat sources of the luminaire and translates into a stable, long-term operation.
