

# Coworker Pure State Cleansing Oil

From Spain Olive Oil 30%

**Dong il pharmaceutical Co.,Ltd**

# Why make?

- Do you know mineral oil?

Did you know that most cleansing oils are made from more than 30% base of mineral oil extracted from oil?

What's more surprising is when natural substances can be harmful to the skin.

The coworker cleansing oil made from Spanish olive oil.

Also, all five other types of oil use only those imported from the UK.

Our products have different colors and slightly different scents when they are produced.

This is because olive oil harvested during the 4 seasons varies in color depending on the season of harvest.

The coworker is a brand of a Dong il pharmaceutical company.

Cosmetics made by pharmaceutical companies are the most important ingredient.

**From Spanish olive oil 30%**

# Can you see the color unique to olive oil?

- The reason that the cleansing oil on the coworker is yellow is not the colouring.
- Our cleansing oils change color from season to season. The color changes according to the harvest season of olives..
- The color of cleansing oil will change, but your skin will not change.

# British tea tree oil helps prevent skin trouble.

- Use only high quality tea tree oil from 100% UK.
- Tea tree oil is highly flavoured and has an anti-inflammatory effect.
- It eliminates the problems caused by makeup and has excellent effect in controlling over-generated sebum.

# Water 0% Oil 100%

- It's a cleansing oil made up of only oil.
- The reason why the coworker didn't add water is for perfect cleansing.
- It's good for those who enjoy heavy makeup.
- The 100% oil cleansing oil minimizes the damage caused by rolling and creates a perfect remover.

**Phyto Squalan**

**nourishment  
supply+cleansing  
Squalan penetrate the  
skin 100 times faster  
than water.**
